Off-Track and Online Holly Kruse,2016-04 How horse racing's pioneering use of communication and information networks helped shape the modern media, information, and leisure environment. The horse racing industry has been a pioneer in interactive media, information networks, and their deployment. The race track and the off-track betting parlor offer interactive media environments that reconfigure the relationships among private and public space and presence and copresence. In this book, Holly Kruse explores how horse racing has used media over the last several decades, arguing that examining the history and context of horse racing and gambling gives us a clearer understanding of the development of data networks, media complexes, public entertainment, and media publics. Kruse describes an enormous industry that depends on global information and communication flows made possible by a network

linking racetracks, homes, off-track betting, farms, and auction sites. Racetrack architecture now allows for the presence of screens, most showing races from other locations. Online betting sites enable bettors to wager from home. Off-track betting facilities collect wagers on races from all over the country. Odds are set interactively through the pari-mutuel market system. Kruse considers the uses of public space, and its redefinition by public screens; the effect of interactive media on the racing industry, including networked, in-home betting; the “technopanic” over online poker and the popularity of in-home pari-mutuel wagering; and the use of social media by racing fans to share information and creative work with no financial payoff.

Winning Without Thinking Nick Mordin, 2006-10 Nick Mordin estimates he has spent over 30,000 hours researching racing results over the years. His aim has been to uncover the principles that govern the betting market and racing results themselves. In conducting his research Nick has tested thousands of systems, both his own and those developed by academics, professional gamblers and others around the globe. In Winning Without Thinking he shares the fruits of this work. the results of horse-races; basic principles that govern racing results and the betting market; mistakes commonly made by the general betting public and how to exploit them; full details of betting systems used by professional gamblers to make millions; how to predict and profit from new trends; and how to use computers to increase your returns.

Betting on Horse Racing Tony Warren, 2009 This book is designed for new horse race players who want to go from beginning to winning. The information contained in a question and answer format explains the basics of wagering on horses; how to place a wager; and strategies for picking winners. The author has been playing the horses for over 40 years and offers insights that even the most sophisticated players may not know.

Most Profitable Horse Racing System M C Horrocks, This UK

and Irish Handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race. I wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races. I like this book because I have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate. I have written numerous books on horse racing but this is my favourite and most profitable UK and Irish horse racing system.

The Grand National Anne Holland, 2019-10-24 Every year the Grand National produces very different stories from jockeys and horses alike; uplifting scenes from a victor and heartbreak when a mere inch divides the loser from the winner at the end of nearly four-and-a-half miles and thirty challenging fences. In 1839 the first winner was aptly named Lottery. Back then, huge crowds rode to Aintree by horseback, in carriages, carts or on foot. Today the Grand National is probably the world's most famous horse race, with a global television audience of some 600 million in 140 countries. This richly informed book focuses on the race's various record-breakers, rather than being a purely chronological history of this greatest of all steeplechases. Many records have stood the test of time: in 2019, Tiger Roll's second consecutive victory was the first time that the feat had been achieved since Red Rum in 1973-74. Anne Holland's authoritative history celebrates one of the world's greatest sporting spectacles. 'A well-organised and cheerily anecdotal volume' Spectator

The Two Step Horse Racing System M C Horrocks, The system works for UK Handicap and Non Handicap races but I tend to favour Handicap races as the prices are larger. I will concentrate only on Handicap races in this book. In summary the system works on two form variables that can be obtained from the Racing Post website and a race can be assessed in 5 minutes. This horse racing system can find winners of a UK horse race very quickly and allows punters who have busy lives to assess horse

form very quickly. I wrote this horse racing system as I had many emails from punters who wanted to have a bet on Saturday or day at the races but did not want to spend hours reading horse form. This system can benefit novice to professional punters.

UK Longshot Horse Racing System M C Horrocks, 2021-05-06
I will make this bold statement straight away, This book finds big priced winners in UK handicap horse races easily and consistently! I need to make a very important statement here backing double figure priced horses can return some huge profits but you must remember they all do not win, more will lose races which is to be expected. There is a reason why the horse is such a big price it is mainly due to the fact the horse has not won for a long time. Another reason is that a horse could be out of its depth in other words running in a higher class of race. Most punters want winners every day at any odds this makes them feel good. They think they are making a profit, how wrong they are and the bookmakers take their money every day with a smile on their faces. Another mistake the average punter makes is that they will take current SP starting price of a horse and not look for a larger price. So say a horse is 2/1 that's decimal odds 3.0 on the Betfair betting exchange. They will readily take these odds. A more profitable approach is to take higher odds like decimal odds 3.5. Ok you might think there is not much difference between decimal odds 3.0 and 3.5 but it adds up over a year and that is where your profit is. The only way to profit in horse racing is to back horses at larger odds than what is being offered. The betting exchanges show the true odds of a horse just before the race starts. As these odds are derived from many punters and bookmakers who are using the betting exchanges then the price of the horse before the race starts is its true odds. This price is a consolidated view and it is normally correct and near the mark. This system also finds large priced horses that are placed 1st 2nd 3rd or 4th regularly in a horse race and these can be exploited in the Betfair place market at some juicy odds. I have taken decimal odds of 7.0 on four places in a horse race and mopped up.

Picking Winners No Problem M C Horrocks, Introduction The

title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is! I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. I personally think horse racing pundits make heavy weather of horse racing form, i.e. looking at a horse's breeding and many other factors. I think this information just confuses the average punter. I have added a special bonus horse laying system in this book and I think you will enjoy it! This laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did I get it so wrong! Yes it will hurt knowing how much money you lost when you should have not. Moving back onto the horse backing system, picking winners will be very easy for you and even more you will gain confidence and control in your betting. This horse racing system normally picks 2 to 3 horses per day in UK handicap horse racing markets. You should aim at using Betfair to place your bets due to the better prices and in-play tactic I will show you in this book. Understand the system before placing bets, I hope you enjoy it!

This illustrated race-by-race account traces the exploits of many all-time racing legends. From Ribot, Sea Bird, Allez France and Mill Reef, to Dancing Brave, Sea The Stars, Trêve and Enable. It's also a who's who of the turf starring the Rothschild, Aga Khan, Wildenstein, Wertheimer and Head families, as well as Marcel Boussac, Vincent O'Brien, Lester Piggott and Yves Saint-Martin. The modern era features luminaries such as Andre Fabre, Coolmore, Godolphin, John Gosden, Frankie Dettori and Khalid Abdullah. You'll discover which champion hurdler won the title, which horse came back from stud to recapture his crown and which jockey ended up in prison as a result of his win.

Thoroughbred Cycles Mark Cramer,1990

Racing experts have declared that form--horse behavior and performance cycles--is one of the most important factors in thoroughbred handicapping. Form has until now remained a mystery, but Cramer's research has led him to a point where he can statistically and observationally document the whims and vagaries of horse behavior cycles. Includes racing charts and appendixes.

Beyer on Speed Andrew Beyer,1995-05

No serious horseplayer should be without Beyer on Speed, the third jewel in Andrew Beyer's literary triple crown. Beyer shows the handicapper how to make his Beyer Speed Figures the focal point of a wagering strategy for pursuing spectacular profits by relating speed figures to pace, track bias, and track conditions. He helps bettors utilize new opportunities for picking winners, such as

video replays and a successfully structured multirace ticket, whether betting online, on the phone, or at the track. This invaluable book on wagering includes a new preface by the author, focusing on the role of simulcasting and the Internet in modern-day handicapping. Written in Beyer's entertaining, rapid-fire prose, *Beyer on Speed* is a must-read for every bettor, from the beginner to the most advanced player.
