One Hot Deal Anna Durand,2022-10-25 When a British billionaire and her American bodyguard make a baby pact, it's one hot deal. Why is an American guy living in London? My sister got engaged to a Brit, so I ditched New York and moved here too. I never expected to meet a hot older woman who kicks my lust into overdrive. Diana Sangster is a powerful business tycoon who always gets what she wants. Now that I've signed on to serve as her bodyguard, I'll spend twenty-four hours a day with the sexiest woman I've ever met. But that annoying other shoe just smacked down on my head. Diana wants me to be her donor. No, she's not asking for my kidney or my life savings. She wants to have a baby—by screwing me repeatedly until we hit the jackpot. To protect her public image and her privacy, she insists I keep our arrangement a secret. Once that stick turns pink, we go back to strictly business, and I get a sweet promotion. I must be crazy. Why else would I accept her deal? Well, I've always loved trouble. One Hot Deal is the eighth book in the bestselling Hot Brits series of romantic comedies.

Trump: The Art of the Deal Donald J. Trump,Tony Schwartz,2009-12-23 President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America’s foremost deal-maker. “I like thinking big. I always have. To me it’s very simple: If you’re going to be thinking anyway, you might as well think big.”—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker’s art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal “Trump makes one believe for a moment in the American dream again.”—The New York Times “Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet.”—Chicago Tribune “Fascinating . . . wholly absorbing . . . conveys Trump’s larger-than-life demeanor so vibrantly that the reader’s attention is instantly and fully claimed.”—Boston Herald “A chatty, generous, chutzpa-filled autobiography.”—New York Post

Hot Commodities Jim Rogers,2014-10-17 The next bull market is here. It's not in stocks. It's not in bonds. It's in commodities - and some smart investors will be riding that bull to record returns in the next decade. Before Jim Rogers hit the road to write his best-selling books Investment Biker and Adventure Capitalist, he was one of the world's most successful investors. He co-founded the Quantum Fund and made so much money that he never needed to work again. Yet despite his success, Rogers has never written a book of practical investment advice - until now. In Hot Commodities, Rogers offers the low-down on the most lucrative markets for today and tomorrow. In late 1998, gliding under the radar, a bull market in commodities began. Rogers thinks it's going to continue for at least fifteen years - and he's put his money where his mouth is: In 1998, he started his own commodities index fund. It's up 165% since then, with more than \$200 million invested, and it's the single-best performing index fund in the world in any asset class. Less risky than stocks and less sluggish than bonds, commodities are where the money is - and will be in the years ahead. Rogers's strategies are simple and straightforward. You can start small - a few thousand dollars will suffice. It's all about putting your money into stuff you understand, the basic materials of everyday life, like copper, sugar, cotton, corn, or crude oil. Once you recognize the cyclical and historical trading patterns outlined here, you'll be on your way. In language that is both colourful and accessible, Rogers explains why the world of commodity investing can be one of the simplest of all - and how commodities are the bases by which investors can value companies, markets, and whole economies. To be a truly great investor is to know something about commodities. For small investors and high rollers alike, Hot Commodities is as good as gold . . . or lead, or aluminium, which are some of the commodities Rogers says could be as rewarding for investors.
