Unlocking the Mystery of Dreams Samuel Alimo ,2020-10-03 A good number of us have turned to search engines, folklore, psychic or related mediums for insight into a dream or two. Chances are, we were left confused and disappointed. This banal approach has caused many to relegate dreams to mere sleep occurrences which have little to no relevance in their lives. Yet, the Bible is replete with accounts of counsel, deliverance, inspiration, promotion and prophetic directions made accessible to individuals, families and nations through dreams. Though it was foretold that dreams will abound in this era when the Holy Spirit is being poured upon all flesh, few are equipped to harness the potential of this divine channel of communication. From childhood, I have had a prolific dream gift which has been nurtured to impact several individuals and groups. Through extensive studies and evaluation of my experiences, I have learnt vital principles necessary for stewarding and maximising this gift. In this book, you will find insights for careful analysis, creative interpretation, wholesome communication and sound application of dreams. Through the illustrations given, you will learn how dreams make God's involvement in our lives real and foster a deeper connection with God, people and purpose.

In Hot Pursuit Suzann Ledbetter,

Hot Pursuit Carolyn Keene,2014-07-29 The Internet...a world without rules, without boundaries. And it's all just a click away... Ryan Corrigan is not what most people would call a "cool" guy. He's usually called something more like geek or cyber-nerd. Maybe it's because he and his mom move almost every year, so he never gets a chance to make friends. Or maybe it's because he spends most of his time glued to his computer. It's his friend. But now Ryan's "friend" has gotten him into some big trouble. If Ryan doesn't find a real ally fast, he could end up in jail—or worse, a victim of a terrible "accident." Different people in different places—the one thing they have in common is a new address on the Internet: Danger.com. Where all your fears come true...

Hot Pursuit Muriel Jensen,2006

Hot Pursuit Suzanne Brockmann,2009-07-28 As team leader of the popular personal security company Troubleshooters Inc., Alyssa Locke is no stranger to dealing with danger. Her next assignment, though, is supposed to be a breeze: teach self-defense techniques to an assemblywoman and her chief of staff after a political controversy generates a blizzard of hate mail—including death threats. But then, while in New York City, Alyssa and her squad of moonlighting Navy SEALs discover a dead body. And then another one. While investigating a suspect, Alyssa is ambushed and finds herself imprisoned by the deranged serial killer she's been after for years: The Dentist. Cut off from everyone, Alyssa must call upon all of her strength and skill to survive this confrontation with the sadistic monster, meanwhile trusting that her Troubleshooter teammates—led by her husband, operative Sam Starrett—will reach her before it's too late.

Abbreviated Lives Tragic Tales of Artists Scientists and Writers Debananda Singh Ningthoujam,2022-06-03

Abbreviated Lives profiles the life stories of artists, scientists & writers whose creative odysseys have been cut short by circumstances: penury, lack of recognition, mental breakdown, dictatorship and war etc. It also portrays

the Matilda effect: how some women's contributions have been 'stolen' by male colleagues, supervisors or husbands. However tragic the conditions in which they might have worked, all the characters in this book took passionate creative journeys till the final exit. From them, we may reaffirm that the journey matters more than the destination; one can rise to great heights in life given grit, commitment and hard work. These tragic stories also teach us that the efflorescence of artistic and scientific creativity needs democracy and freedom of thought; it may be cruelly stifled, if not completely destroyed, by unscrupulous dictators and authoritarian rulers. These tales not only can inspire the readers to carry forward their own journeys; moreover, they may ignite us to promote institutional, cultural and social factors that would help nurture the full blossoming of creative lives so that the society may fully 'harvest' their artistic, literary and scientific contributions. Sincere creative journeys, the lonely expeditions of pioneers would never go in vain; someday, kindred spirits would retrace the paths blazed by the forerunners.

Our Fathers Lewis W. Diuguid,2017-03-15

Unlocking the Chain of Poverty Elpidio R. Estioko,2022-08-24 Unlocking the Chain of Poverty: In Pursuit of the American Dream, is a book of guts, survival, and the will to persevere against all odds. It chronicled a Filipino immigrant's exploits in the US who reluctantly immigrated to the US with his wife and five of their six children at a time of declining global economy in the 1990's. It actually captured how a family of seven with children ages 4 to 16 started a life in the US with very minimal assistance from immediate family members but friends and yet succeeded in realizing the American Dream... the hard way! It echoed Hillary Clinton's book, "It Takes a Village: and Other Lessons Children Teach," theme that applied to all kinds of successes and failures on the outcome of the child. The book, published in 1996, captured Hillary's vision for the children of America focusing on the impact individuals and groups outside the family, have, for better or for worse, on a child's well-being, and advocates

of society meets all of a child's needs. It also showcased how necessity played a vital role in their lives prompting them to work harder and chased every opportunity that came their way in order to make a living and bring food to the table. The book also exemplified how love and understanding evolved within the family that had to weather the effects of the ailing economy to be able to survive. All it needed to succeed, ultimately, was hard work, strong commitment, having a very supportive wife, strong belief in God, and the will to move on and pursue one's goals.

Unlocking the Nature of Human Aggression Adrian Perkel, 2023-12-12 *Unlocking the Nature of Human Aggression* is a neuropsychanalytic and scientific exploration of aggression and argues for its central role in psychopathology and the genesis of individual symptoms, as well as in broader systemic conflicts and violence. Adrian Perkel creates a unique theoretical approach to the various manifestations we encounter of individual, group, and geopolitical aggression and destructiveness. Based on psychoanalytic investigations of this dynamic and Freud's incomplete exploration of this human drive, this book seeks to understand the science of aggression that Freud himself suggested would be possible with time and scientific development. Perkel investigates the commonplace inversion of the perpetrator and victim narratives, navigating through the complexity of how the aggressive drive, often driven by feelings aimed at homeostatic regulation, challenges the perception of any objective view of who is perpetrator and who victim. He includes his own personal experiences of South African Apartheid, as well as historical and contemporary data such as speeches from historical figures during times of war, including the Second World War and the Ukrainian/Russian conflict. Offering a fresh and innovative insight into the nature of this paradoxical drive in humans, this book integrates the psychology, psychodynamics, and neuroscience of modern research into a coherent exposition of this key aspect of psychic functioning in humans. It is an essential read for analysts in practice and training, psychologists and other mental health professionals, and students looking for a modernised theoretical model of the destructive and aggressive drive of the psyche to facilitate better interventions for individual and couple patients and for interventions at systemic and organisational levels.
