

House Noises Ringtones

Rhetta Akamatsu

Sound Art Revisited Alan Licht,2019-08-22 The first edition of Sound Art Revisited (published as Sound Art: Beyond Music, Between Categories) served as a groundbreaking work toward defining this emerging field, and this fully updated volume significantly expands the story to include current research since the book's initial release. Viewed through a lens of music and art histories rather than philosophical theory, it covers dozens of artists and works not found in any other book on the subject. Locating sound art's roots across the centuries from spatialized church music to the technological developments of radio, sound recording, and the telephone, the book traces the evolution of sound installations and sound sculpture, the rise of sound art exhibitions and galleries, and finally looks at the critical cross-pollination that marks some of the most important and challenging art with and about sound being produced today.

Shooter's Bible Guide to Home Defense Roger Eckstine,2013-11-06 Provides advice on how to evaluate the vulnerable points in a home, fortify the property discreetly, select security systems, choose weapons and use them under stress, and interact safely with aggressors.

Notes and Tones Arthur Taylor,2009-08-05 Notes and Tones is one of the most controversial, honest, and insightful books ever written about jazz. As a black musician himself, Arthur Taylor was able to ask his subjects hard questions about the role of black artists in a white society. Free to speak their minds, these musicians offer startling insights into their music, their lives, and the creative process itself. This expanded edition is supplemented with previously unpublished interviews with Dexter Gordon and Thelonious Monk, a new introduction by the author, and new photographs. Notes and Tones consists of twenty-nine

no-holds-barred conversations which drummer Arthur Taylor held with the most influential jazz musicians of the '60s and '70s—including:

1968 NASA Authorization United States. Congress. House. Committee on Science and Astronautics, United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Manned Space Flight, United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Space Science and Applications, United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Advanced Research and Technology, 1967 Committee Serial No. 2. Considers H.R. 4450 and H.R. 6470, superseded by H.R. 10340, to provide FY68 authorizations for NASA RPD programs, including the Apollo Program, for construction of facilities at field centers, and for administrative operations.

Exposed Yossef Ohana, 2020-02-02 About the book Exposed, Written by Anat Cherpak: An emotional journey of an autobiographical young man named Yossef Ohana. Actor and creator Yossef Ohana, who has just released his debut album. Worldwide Success, is launching a new digital book explaining a complex and exciting emotional journey that travels between the religious world and the secular culture, between the mainstream and the closet, the search for roots and the path to self-realization of all dreams. The new gospel in the world of self-development is the new digital book by former creator and journalist Yossef Ohana which exposes and takes us on a complex emotional journey ranging from the spiritual worlds to the routine, between the bad and the good, the transition between studying at the Chabad meeting. To the Sheinkin culture (his place of residence), and the way to find answers in the universe calling to us. The

new book is a 5-year work and is written as a series of stories, monologues and, finally, breathtaking confessions that encourage us to follow our dreams, dare, fulfill and connect with the inner self. Yossef Ohana is only 41 years old, but has gained a lot of mileage as an entertainment journalist as a songwriting artist and now as a writer. He was born in Ashdod and studied at a religious school from age 6 to high school in his new book based on real stories he tells about leaving the closet at age 35 about the time in London where he studied acting about the years he worked as a cultural and broadcast correspondent on radio and western, copywriting in advertising offices and of course the work of a pop album with 8 autobiographical songs written and most of them compiled by him who have had unprecedented success in music digital stores with tens of thousands of plays in Europe, India, Japan, USA, North Korea and more. The album called EXPOSED, just as the book, was launched in English and deals with the inner struggle between lies, sins and the desire to find love and truth within the world of religion. Among the songs that star you will find Lies and Sins opening song and Sins closing song. Today at the age of 40 plus Yossef is approaching religion again, in order to get closer to his roots, to follow his beliefs. Today Yossef works in the Tel Aviv municipality in the special education department, continues to write and compose songs and dreams of financial independence and full time as a theatre actor. In the book EXPOSED and an album distributed around the world, Yossef invites the reader / listener to embark on an autobiography journey that tells his childhood story, the storms of emotion and the complex search for the connection to self, truth, honesty and relationship. It's a kind of search and self-discovery roadmap that makes the reader better understand themselves and examine life in a new perspective. Yossef's recent major change is attributed to

a dangerous car accident that miraculously survived. Yossef: I was 20 and walking around Allenby street, Tel Aviv, on the way to a friend. Suddenly I noticed a bus that stopped and without thinking I jumped in front of him to get on it. It was completely dark and in a second I noticed a flash of car lights and woke up in the middle of the road with only a broken nail. Since that event, I have embarked on a quest for answers and meaning, and this is also the inspiration for the first chapter of the book, Yossef Ohana recalls. Focusing only on his art returned to his parents' home for a good few years.

Acoustic Communication in Birds Kroodsma,2012-12-02 Acoustic Communication in Birds, Volume 1: Production, Perception, and Design Features of Sounds presents the scientific study of bird vocalizations. This book discusses the relations between the physical structure of bird vocalization and their quality as perceived by the recipient. Organized into nine chapters, this volume begins with an overview of the first sound recording of bird sound. This text then outlines some of the complex processes and events between sound production and behavior response to sound. Other chapters consider the study of neural control of vocalizations in birds. This book discusses as well the acoustic information transmitted through the wide range of habitats plays a crucial role in different avian behaviors, including individual and species recognition, territorial defense, mate selection, and song learning. The final chapter deals with a more detailed functional interpretation of a particular sound. This book is a valuable resource for ornithologists, ethologists, and research workers.

Family in Six Tones Lan Cao,Harlan Margaret Van Cao,2021-09-14 A dual first-person memoir by the acclaimed Vietnamese-American novelist and her thoroughly American teenage daughter In 1975,

thirteen-year-old Lan Cao boarded an airplane in Saigon and got off in a world where she faced hosts she had not met before, a language she didn't speak, and food she didn't recognize, with the faint hope that she would be able to go home soon. Lan fought her way through confusion, and racism, to become a successful lawyer and novelist. Four decades later, she faced the biggest challenge in her life: raising her daughter Harlan--half Vietnamese by birth and 100 percent American teenager by inclination. In their lyrical joint memoir, told in alternating voices, mother and daughter cross ages and ethnicities to tackle the hardest questions about assimilation, aspiration, and family. Lan wrestles with her identities as not merely an immigrant but a refugee from an unpopular war. She has bigoted teachers who undermine her in the classroom and tormenting inner demons, but she does achieve--either despite or because of the work ethic and tight support of a traditional Vietnamese family struggling to get by in a small American town. Lan has ambitions, for herself, and for her daughter, but even as an adult feels tentative about her place in her adoptive country, and ventures through motherhood as if it is a foreign landscape. Reflecting and refracting her mother's narrative, Harlan fiercely describes the rites of passage of childhood and adolescence, filtered through the aftereffects of her family's history of war, tragedy, and migration. Harlan's struggle to make friends in high school challenges her mother to step back and let her daughter find her own way. Family in Six Tones speaks both to the unique struggles of refugees and to the universal tug-of-war between mothers and daughters. The journey of an immigrant--away from war and loss toward peace and a new life--and the journey of a mother raising a child to be secure and happy are both steep paths filled with detours and stumbling blocks. Through explosive fights and painful setbacks, mother and daughter search

for a way to accept the past and face the future together.

Alleviation of Jet Aircraft Noise Near Airports United States. Office of Science and Technology, United States. Science and Technology Office, 1966

Noise in the Night School Zone Publishing, Bruce Witty, 1993-03 After hearing noises in the night, a little girl talks to her house about the groans and creaks it makes.

Shell Tones William Bailey, 2005-10-06 Perhaps because of being a math teacher with an avid interest in cosmology, the author has acquired an expectancy of alternatives such as if not real, then imaginary all the way to if not matter, then antimatter. This has led to the what if factor demonstrated in his novel. What if (to the first power) a man can hear sounds emanating from paintings in a museum? To what end, you might ask: perhaps a hobby of cataloging masterpieces based on tones from one to four? But what if (squared), in the presence of a foreign object the original painting becomes silent, as silent as a movie poster or even a reproduction. What did the painting have that the poster didn't have? What, then, did it lose? Is this cause for alarm? In *Shell Tones*, it is!

Refrigeration Engineering, 1949 English abstracts from Kholodil'naia tekhnika.

Sound Works Holger Schulze, 2019-04-04 What is sound design? What is its function in the early 21st century and into the future? *Sound Works* examines these questions in four parts: Part 1, *Why This Sound?*, presents an overview of the modern history of sound design. Part 2 is highly visual and provides a glance onto a sound designer's workbench and the current state of Sonic Labor. Part 3 uses cultural analysis to explore our contemporary *Living with Sounds*. The final and fourth part then proposes a series of

anthropological and political interpretations of how **Sound Works** today. This book is not a manual on sound design; it instead argues for a cultural theory of sound design for sound designers and sound artists, for clients who commission a sound design and for researchers in the fields of sound studies, design research, and cultural studies

Sound Unseen Brian Kane, 2014 'Sound Unseen' explores acousmatic sound - a sound that one hears without seeing its cause. Pierre Schaeffer, the inventor of *musique concrète*, in his *Traité des objets musicaux*, first popularized the term 'acousmatic'. After an introduction, the first chapter provides a thorough exegesis of Schaeffer's theory of acousmatics. It also presents three objections to Schaeffer's theories (myth, phantasmagoria, and ontology) around which the book is structured.

Remembering the Cultural Geographies of a Childhood Home Dr Peter Hughes Jachimciak, 2014-07-28 Using an innovative auto-ethnographic approach to investigate the otherness of the places that make up the childhood home and its neighbourhood in relation to memory-derived and memory-imbued cultural geographies, *Remembering the Cultural Geographies of a Childhood Home* is concerned with childhood spaces and children's perspectives of those spaces and, consequentially, with the personalised locations that make up the childhood family home and its immediate surroundings (such as the garden, the street, etc.). Whilst this book is primarily structured by the author's memories of living in his own Welsh childhood home during the 1970s - that is, the auto-ethnographic framework - it is as much about living anywhere amid the remembered cultural remnants of the past as it is immersing oneself in cultural geographies of the here-and-now. As a result, *Remembering the Cultural Geographies of a Childhood Home* is part of the

ongoing pursuit by cultural geographers to provide a personal exploration of the pluralities of shared landscapes, whereby such an engagement with space and place aid our construction of cognitive maps of meaning that, in turn, manifest themselves as both individual and collective cultural experiences. Furthermore, touching upon our co-habiting of ghost topologies, Remembering the Cultural Geographies of a Childhood Home also encourages a critical exploration of children's spirituality amid the haunted cultural and geographical spaces and places of a house and its neighbourhood: the cellar, hallway, parlour, stairs, bedroom, attic, shops, cemeteries, and so on.

Household Words Charles Dickens, 1853

Haunted Marietta Rhett Akamatsu, 2009-09-21 "Highlight[s] the numerous spirits which inhabit this charming Georgia town, while also offering a glimpse into the town's non-paranormal past" (Newswire). Few places have continued to grow, prosper, and maintain a small-town atmosphere and sense of history like Marietta, Georgia. Of course, a sense of community is not the only preserved presence from the past. Paranormal specialist and Marietta resident Rhett Akamatsu combines her research with a passion for history to deliver a one-of-a-kind glimpse into the area's rich and, in some cases, undying spirit. Hear the whispers of Confederate generals still echoing in the Kolb Farm House; cozy up with the unsettled spirits of the 1848 House; meet the phantoms lurking throughout Town Square; and brush up on your local history if you dare summon the Ghosts of Marietta. Includes photos! "In her book, Akamatsu isn't content to delve immediately into the paranormal, but is respectful enough of her adopted home to explore some of Marietta's stately history first." —The Atlanta Journal-Constitution

Household Words Dickens, 1852

Congressional Record United States. Congress, 1971 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Ritual and Recovery in Post-conflict Sri Lanka Jane Derges, 2013 Following over twenty years of war, Sri Lanka's longest cease-fire (2002-2006) provided a final opportunity for an inclusive peace settlement between the Sri Lankan government and the Liberation Tigers of Tamil Eelam (LTTE). However, hostilities resumed with ever increasing desperation and ferocity on both sides, until the LTTE were overcome and largely eradicated in 2009. This book provides a contextualised analysis of the effects of war on a small Tamil community living in northern Sri Lanka during the cease-fire period. It examines how the society changed and adapted in order to accommodate the upheaval and destruction of war, and its inevitable resumption. In particular, it focuses on the nature of suffering through an exploration of a well-known ritual: Thuukkukkaavadi that transformed the experience of pain and suffering and contributed to a process whereby many village communities could come together in a demonstration of strength and resilience. It contributes to studies on violence, reparation processes of so-called 'post-conflict' societies and the medical anthropology of healing. It questions assumptions concerning the nature of suffering and critiques the application of western categories in settings like northern Sri Lanka, where entire

communities have been silenced by political violence. The book therefore presents a claim for more culturally specific understandings of what constitutes suffering and is of interest to students and scholars of South Asian Studies, Conflict Resolution, and Social and Cultural Anthropology.
