Training the Best Dog Ever Larry Kay,Dawn Sylvia-Stasiewicz,2012-09-25 Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy’s dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet’s office, is at ease around strangers, and more. In other words, the best dog ever.

The Koehler Method of Dog Training William R. Koehler,2016-04-09 When the complexities of modern living demanded that, for his own protection as well as his master’s convenience, the dog be made controllable, the average owner sought advice from the most available source, which was, too often, some local dog-show exhibitor. Not realizing that, excepting a few praiseworthy individuals, these exhibitors were only superficially concerned with the qualities of use and companionship, an unfortunate dog owner would accept the sight of trophies or ribbons as the credits of an expert. Growing numbers of people and dogs continued to emphasize the advantages of proper dog-behavior and when, in 1935, The American Kennel Club instituted its obedience trials, the competition necessary to focus attention on results and improvement of methods was provided. And something else was observed. It was

evident that thorough obedience training does more than assure a dog's response to his master's command; capacities for learning and emotional stability could be increased and integrated as permanent qualities of character. Recently, leading magazines of both general and specialized nature have made the public aware of the trained dog's potential, and of the recreational possibilities of dog training as a hobby. Interest in dog-training classes and other activities where dogs are dignified by usefulness, rather than merely looked at, is evidence that the dog-training public has outgrown the "make a game" and "tid-bit tossing" techniques that, by not being founded on positive and proper motivations, demonstrate the inadequacy of the master, thus promoting failure of response at those times when control is most needed, as well as contributing to the dog's feeling of insecurity. Dog owners of perspective have come to want the type of obedience upon which a blind person might stake his life, and the emotional stability that is vital to dogs in the presence of small, unpredictable children. This classic includes the following chapters: Introduction Lesson I. Fables and Foibles Lesson II. Correct Equipment Lesson III. The Foundation Lesson IV. Heeling Lesson V. Sitting Lesson VI. The Automatic Sit Lesson VII. The Sit-Stay Lesson VIII. The Down Lesson IX. Down-Stay Lesson X. Stand-For-Examination Lesson XI. Recall Lesson XII. Finish Lesson XIII. Polishing Lesson XIV. The Throw-Chain Lesson XV. The Light Line Lesson XVI. Don't Lose It—Use It Problems

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language "Good reading for dog lovers and an immensely useful manual for dog owners."—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years' experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how "man's best friend" might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to "get dominance" over your dog can cause problems • Why "rough and tumble primate play" can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than "alpha wanna-bes!" Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Good Dog 101 Cristine Dahl, 2011-01-04 Author and noted Seattle dog trainer Cristine Dahl has created this revolutionary step-by-step manual to teach dog owners how they can humanely and easily train their dogs to change problem behaviors. The book is organized by individual problem scenarios where very sort of bad behavior is addressed, whether it's if the dog compulsively digs all around your garden or if it likes to steal your shoes or if it jumps on every guest the minute they walk in the door. For each problem scenario, Dahl explains the reasons for such behavior, and then gives simply phrased instructions on how to resolve it and alter the dog's behavior for future scenarios. Her methods are humane (unlike Cesar Millan, she's approved by the SPCA) and simple, perfect for the hobbyist dog owner.
