Dating Guide for Men Anthony Ekanem,2016-12-31 What do women want? This is a question that has baffled men since the beginning of time and men are no closer to understanding women than we were when we huddled around an open fire every night and lived in caves. Why are women so hard to decipher? Simply because we try to understand them from a man's point of view without understanding the basic premise that women think differently from men. In fact, women have completely different wiring from that of men and men will never be able to understand them on a logical level, which is how men approach almost everything. Think about it. What do we do when we get together for some fun? We definitely aren't sharing feelings. No, we drink, talk about sports and other apparently innocuous subjects which in fact are a hidden form of competition. You know, the mine's bigger than yours syndrome. However, for guys this is absolutely natural. On the other hand, when women get together they share their feelings; they watch chick flicks and talk about the latest diet or article in town. You see, women are mainly driven by emotion. Just as we need logic and structure in our lives, they need emotion. Men thrive on competition, adrenaline, power, domination, while women couldn't really care less about them. The idea is that if you really want to be able to date any girl, no matter how attractive she is, you need to know what drives her, what her underlying motives are. Now, don't take this the wrong way because many women have no conscious idea of what drives them or what their motives are; it's just the way nature has wired them. However, just as you need to know what drives her, you need to stop worrying about it making sense. It is never going to make sense to us because we see things differently. But, if you know what her buttons are then you will be able to play sweet music that she won't be able to resist. Remember knowledge is power and you like power, don't you? Well, learn what drives women and then you will have it in spades.

How to Attract Women Zac Miller,2020-03-08 Can I Ask You a Question? What would life be like if you knew exactly how to attract women? If you could get the girls you've always wanted? If you could be a man women were sexually drawn to... would that change your life? Hi, my name is Zac Miller. In my many years here on earth I've had my share of experiences with women. And like most men, I wasn't born knowing what attracts women or what they want, but there came a point in my life where I was fed up and did something about it. Many men just say women are crazy, and they leave it at that, not trying to understand them. I couldn't have that... While women are in fact crazy, I have put together a book which explains what they want, what attracts them to men, and how you can start attracting women. It's taken me many, many years, and many, many sleepless nights, but after all was said and done, I believe I have made the best book available when it comes teaching men everything it takes to successfully attract women. Here's What You'll Learn in This Book Chapter 1: Appearance - While it's been this way for many years, the advent of website profiles and dating apps has made a masculine appearance much more important for men in this day and age. Here I share with you the many ways you can appear more attractive to women, as well the ideal body type women are looking for in a man (hint: it's not abs). Chapters 2 & 3: Attractive & Unattractive Qualities - Ever notice how women are attracted to jerks and bad boys? It's because they display many attractive qualities women desire. In these chapters, I share with you what exactly these qualities are, while also going over attributes you need to stay away from, which push women away. Chapter 4 & 5: Talking to Women - Next, we go over how to talk to women and connect with them, in turn attracting them to you. I show you how to approach girls, get their contact information, and how to conversant with them afterwards to secure a date. I go over the number one mistake most guys make during this process, as well as the one quality that will put you above all other men when talking to women (hint: it's not a lifted truck). Chapter 6: The Date - We then go over how to handle the date. I show you exactly how to ask for the date, where to go, and what to do during the date. This includes conversation topics that release dopamine (feel good) chemicals in a woman's brain, as well as techniques you can employ during the date to keep her attention. I then go over what to do after the date to keep her interested in you for the long run to make her your girlfriend. Chapter 7: The What If's? - What if she flakes on the date? What if she says maybe? What if she starts losing interest? All these questions and more

are handled in this chapter, showing you the exact techniques to employ to handle each situation, which will keep a woman interested in you. Appendix - I provide 70 opening messages, original to this book, to use when texting girls. These are unique, funny messages, which will make you stand out from other men.
