Asian Financial Statement Analysis ChinHwee Tan,Thomas R. Robinson,2014-03-28 Gain a deeper understanding of Asian financial reporting and how to detect irregularities The Asian region, and particularly China, is becoming a hotbed of investment activity. There have been quite a few accounting scandals in Asia in the recent years – now rivaling those we have seen in the Americas and Europe. Assessing potential or active overseas investments requires reliance on financial statements, the full parameters of which may vary from region to region. To effectively analyze statements, it is necessary to first understand the framework underlying these financial statements and then lay out a protocol for detecting irregularities. It's impossible to create and implement a practical plan without a deeper knowledge of the various factors at play. Asian Statement Analysis: Detecting Financial Irregularities provides a framework for analysis that makes irregularities stand out. Authors Chin Hwee Tan and Thomas R. Robinson discuss international financial reporting standards, including characteristics particular to the Asian region. Tan and Robinson's combined background in academia and Asian finance give them a multi-modal perspective and position them as top authorities on the topic. In the book, they address issues such as: Detection of irregularities independent of particular accounting rules The most common irregularities in the Asian market Similarities and differences between U.S. and Asian accounting techniques An overarching framework for irregularity detection The book uses real-world examples to illustrate the concepts presented, with the focus on Asian companies. As the first ever in-depth study on manipulation and irregularities in the Asian market, Asian Financial Statement Analysis: Detecting Financial Irregularities is uniquely positioned to be a valuable resource in the move toward the next phase of global reporting standards.

The Lukan Passion Narrative. The Markan Material in Luke 22,54 - 23,25 Revd Jay M. Harrington,2019-07-01 This study traces the debate surrounding Luke's use of the Gospel of Mark and special sources, such as Proto-Luke, in a section of the passion narrative (Lk 22,54-23,25). The survey covers roughly the period from the 1880's to 1997. Part I details the development from P. Feine to the 1960's. Part II begins with G. Schneider continuing up through 1997. In treating each scholar's position, the author reviews their underlying Synoptic theory, their source theory in the passion in general, then the trial of Pilate, and finally the trial before Herod. Part III is devoted to an interpretation of Lk 23,6 - 16. Part IV contains the list of abbreviations, the bibliography, and three appendices: (1) Special LQ vocabulary and constructions according to J. Weiss; (2) Lukan priority theories; and (3) the Gospel of Peter and its relation to the Herod pericope. Part IV concludes with the name index. The Lukan Passion Narrative will be particularly useful to those concerned with Luke's redactional

technique, Source theories, Minor Agreements, and the history of exegesis.
