New Masters of Poster Design John Foster,2008-04-30 New in Paperback! In much the way that the CD replaced the album, the poster has waned as a messaging vehicle. The poster has now become a postcard and e-mail blast, leaving many to long for the lost age when posters were not only major promotional vehicles, but also artwork worthy of framing. Some of the world's best designers just could not stand idle while the poster fell by the wayside. They turned to the poster for personal expression and as an outlet from more restrictive mediums. This book showcases their breathtaking artwork, which has proven that the poster can still serve as a worthy communications tool. In doing so, they've brought the poster back to prominence. In this book, John Foster has compiled the world's finest new work at the height of this rebirth. There is currently no book on the market that can claim it features a definitive poster collection.

Post-editing of Machine Translation Laura Winther Balling,Michael Carl,Sharon O'Brian,2014-03-17 Post-editing is possibly the oldest form of human-machine cooperation for translation. It has been a common practice for just about as long as operational machine translation systems have existed. Recently, however, there has been a surge of interest in post-editing among the wider user community, partly due to the increasing quality of machine translation output, but also to the availability of free, reliable software for both machine translation and post-editing. As a result, the practices and processes of the translation industry are changing in fundamental ways. This volume is a compilation of work by researchers, developers and practitioners of post-editing, presented at two recent events on post-editing: The first Workshop on Post-editing Technology and Practice, held in conjunction with the 10th Conference of the Association for Machine Translation in the Americas, held in San Diego, in 2012; and the International Workshop on Expertise in Translation and Post-editing Research and Application, held at the Copenhagen Business School, in 2012.
