Great Muslims of the West Muhammad Mojlum Khan,2018-02-13 [A] work of great synthesis. . . . [It] argues that the 'makers of Western Islam' have not only enriched Islam, but also humanity in general. This book is an important and timely contribution.--Dr. Enes Karic, Professor at the Faculty of Islamic Studies, University of Sarajevo, and former Minister of Education, Republic of Bosnia and Herzegovina [An] unusually informative, inspiring and timely contribution. Essential reading for Muslims and non-Muslims, Easterners and Westerners alike.--Dr. Syed Mahmudul Hasan, F.R.A.S. historian, author, and formerly Professor of Islamic History and Culture at the University of Dhaka, Bangladesh Muslims have lived in the West for hundreds of years, yet the lives of all but a few are little known. In this illuminating work, Muhammad Mojlum Khan sets out to change this by revealing the lives and impact of over fifty significant Muslims, from the founder of Muslim Spain in the eighth century to Muhammad Ali today. This extraordinary book features biographies on the enslaved African Prince Ayuba Sulaiman Diallo, who was put to work in the tobacco fields of Maryland; Alexander Russell Webb, the voice of Muslims in Victorian America; and W.D. Muhammad, Elijah Muhammad's son, who converted the Nation of Islam's followers to an authentic version of Islam. Muhammad Mojlum Khan was born in 1973 in Habigong, Bangladesh, and was brought up and educated in England. He is a literary critic, prolific writer, and a researcher in Islamic thought and history. He has published over 100 essays and articles on Islam, comparative religion, contemporary thought, and current affairs, and has been a regular contributor to The Muslim News. He has published two major works: The Muslim 100 and The Muslim Heritage of Bengal.

The Muslim Heritage of Bengal Muhammad Mojlum Khan,2013-10-21 The Muslim Heritage of Bengal is a multidimensional work. . . . I am sure this book will add to the vista of knowledge in the field of Muslim history and heritage of Bengal. I recommend this work.—Dr A. K. M. Yaqub Ali, Professor Emeritus, Islamic History & Culture, University of Rajshahi Khan's book provides invaluable information which will inspire present and future generations.—Dr M. Abdul Jabbar Beg, former professor of Islamic History and Civilization, National University of Malaysia A popular history that covers eight hundred years of the history of Islam in Bengal through the example of forty two inspirational men and women up until the twentieth century. Written by the author of the bestselling The Muslim 100. Included are the prominent figures Shah Jalal, Nawab Abdul Latif, Rt. Hon. Syed Ameer Ali, Sir Salimullah Khan Bahadur, and Begum Rokeya. Muhammad Mojlum Khan was born in 1973 in Habiganj, Bangladesh, and was educated in England. He is a teacher, author, literary critic, and research scholar, and has published more than 150 essays and articles worldwide. He is the author of The Muslim 100 (2008). The Muslim Discovery of Europe Bernard Lewis,2001-10-17 The author examines the sources and nature of Muslim knowledge of the West. He explores the subtle ways in which Europe and Islam have influenced each other over seven centuries.

Journey into America Akbar Ahmed,2010-06-01 Nearly seven million Muslims live in the United States today, and their relations with non-Muslims are strained. Many Americans associate Islam with figures such as Osama bin Laden, and they worry about “homegrown terrorists.” To shed light on this increasingly important religious group and counter mutual distrust, renowned scholar Akbar Ahmed conducted the most comprehensive study to date of the American Muslim community. Journey into America explores and documents how Muslims are fitting into U.S. society, placing their experience within the larger context of American identity. This eye-opening book also offers a fresh and insightful perspective on American history and society. Following up on his critically acclaimed Journey into Islam: The Crisis of Globalization (Brookings, 2007), Ahmed and his team of young researchers traveled for a year through more than seventyfive cities across the United States—from New York City to Salt Lake City; from Las Vegas to Miami; from the large Muslim enclave in Dearborn, Michigan, to small, predominantly white towns like Arab, Alabama. They visited homes, schools, and over one hundred mosques to discover what Muslims are thinking and how they are living every day in America. In this unprecedented exploration of American Muslim communities, Ahmed asked challenging questions: Can we expect an increase in homegrown terrorism? How do American Muslims ofArab descent differ from those of other origins (for example, Somalia or South Asia)? Why are so many white women converting to Islam? How can a Muslim become accepted fully as an “American,” and what does that mean? He also delves into the potentially sticky area of relations with other religions. For example, is there truly a deep divide between Muslims and Jews in America? And how well do Muslims get along with other religious groups, such as Mormons in Utah? Journey into America is equal parts anthropological research, listening tour, and travelogue. Whereas Ahmed’s previous book took the reader into homes, schools, and mosques in the Muslim world, his new quest takes us into the heart of America and its Muslim communities. It is absolutely essential reading for anyone trying to make sense of America today.

Lost History Michael Hamilton Morgan,2008 Essential reading for anyone seeking to understand the major role played by the early Muslim world in influencing modern society, Lost History fills an important void. Written by an award-winning author and former diplomat with extensive experience in the Muslim world, it provides new insight not only into Islam's historic achievements but also the ancient resentments that fuel today's bitter conflicts. Michael Hamilton Morgan reveals how early Muslim advancements in science and culture lay the cornerstones of the European Renaissance, the Enlightenment, and modern Western society. As he chronicles the Golden Ages of Islam, beginning in 570 a.d. with the birth of Muhammad, and resonating today, he introduces scholars like Ibn Al-Haytham, Ibn Sina, Al-Tusi, Al-Khwarizmi, and Omar Khayyam, towering figures who revolutionized the mathematics, astronomy, and medicine of their time and paved the way for Newton, Copernicus, and many others. And he reminds us that inspired leaders from Muhammad to Suleiman the Magnificent and beyond championed religious tolerance, encouraged intellectual inquiry, and sponsored artistic, architectural, and literary works that still dazzle us with their brilliance. Lost History finally affords pioneering leaders with the proper credit and respect they so richly deserve.

The Great Islamic Conquests AD 632–750 David Nicolle,2012-06-20 Few centuries in world history have had such a profound and long-lasting impact as the first hundred years of Islamic history. In this book, David Nicolle examines the extensive Islamic conquests between AD 632 and 750. These years saw the religion and culture of Islam erupt from the Arabian Peninsula and spread across an area far larger than that of the Roman Empire. The effects of this rapid expansion were to shape European affairs for centuries to come. This book examines the social and military history of the period, describing how and why the Islamic expansion was so successful.

A Common Word Miroslav Volf,Ghazi bin Muhammad (Prince of Jordan.),Mellisa Yarrington,2010 A letter printed in the pages of The New York times in 2007 acknowledged differences between Christianity and Islam but contended that righteousness and good works should be the only areas in which the two compete. That letter and a collaborative Christian response appear in this volume, which includes subsequent dialogue between Muslim and Christian scholars.

Malay Muslims Robert Day McAmis,2002-07-09 McAmis also gives attention to the history of their relationship with Christians - a history that is key to understanding the current state of religious and social life in places like Indonesia, Malaysia, and the Philippines. Since Muslims and Christians together comprise ninety-four percent of the Malay population, peaceful interaction and cooperation between mosque and church are crucial to

realizing the economic and political goals of the entire region..

Crucified Again Raymond Ibrahim,2013-04-29 Argues that there is a new wave of persecution of Christians in Muslim countries, and by radical Muslims worldwide.

Islamic Imperialism Efraim Karsh,2007-01-01 From the first Arab-Islamic Empire of the mid-seventh century to the Ottomans, the last great Muslim empire, the story of the Middle East has been the story of the rise and fall of universal empires and, no less important, of imperialist dreams. So argues Efraim Karsh in this highly provocative book. Rejecting the conventional Western interpretation of Middle Eastern history as an offshoot of global power politics, Karsh contends that the region's experience is the culmination of long-existing indigenous trends, passions, and patterns of behavior, and that foremost among these is Islam's millenarian imperial tradition. The author explores the history of Islam's imperialism and the persistence of the Ottoman imperialist dream that outlasted World War I to haunt Islamic and Middle Eastern politics to the present day. September 11 can be seen as simply the latest expression of this dream, and such attacks have little to do with U.S. international behavior or policy in the Middle East, says Karsh. The House of Islam's war for world mastery is traditional, indeed venerable, and it is a quest that is far from over.

Muslims' Greatest Challenge Omar Ramahi,2019-06-22 This book is an attempt to explore why Muslims are in conflict with themselves, and why Muslims have been living in an isolation and intellectual vacuum. This book is an attempt to find out why Islam, as embodied in the Mushaf, calls for a sharply different set of norms than those adopted by the majority of Muslims. To search for answers, the book uses, as much as possible, two sources: the first is critical reasoning, and the second is the Mushaf. In sharp contrast to the vast majority of books on Islam, this one does not base the validity of its argument on the stature of past or present Muslim personalities and scholars irrespective of their high status and reverence amongst the majority of Muslims. The book takes a methodical approach to analyzing the techniques that evolved throughout the ages to marginalize the Muslims' mind and to project reason as the archenemy of Islam. It analyses alleged prophetic narratives (Hadith) and interpretations of the Mushaf by prominent jurists to confirm that rationalism and reason were both, and largely, disconnected from Muslims' intellectual discourse, at least in the overwhelmingly dominant religious material that has reached us. This book analyses fundamental contradictions in the way the vast majority of Muslims perceive Islam, and how the conceived and practiced Muslim or Islamic doctrines lack a foundation in the Mushaf. The book goes behind the scene, so to speak, to analyze reasons behind such a perceived disconnect. The book provides a context to the severe intellectual underdevelopment amongst most Muslims vis-à-vis their understanding of their religion. It looks at canonized practices and doctrines that emerged throughout the ages through dubious scholarship to maintain a docile, hopeless, aimless, and subservient Muslim umma. It brings to the forefront stark contradictions between the canonized Muslim doctrines and the Mushaf that many Muslims choose to ignore. The book challenges the use of Hadith as a source of Islamic legislation. It takes an unconventional perspective of the Mushaf's exegesis and reaches conclusions that are based on reason and the Mushaf's direct text, yet are contradictory to conventional Muslim doctrines. The book explores the culture of violence championed by the historically triumphant Muslim scholars, jurists and clergy, whose scholarship triumphed, and morphed that of other scholars who put the Mushaf first and everything else as secondary. It questions whether such culture inspired past and contemporary violent movements. The book revisits fundamental doctrines and canonized laws and looks carefully at their evolution and their connection to the Mushaf. Two chapters in the book address the two most important sources of Islamic Law: Hadith and the Mushaf. The analyses in these two chapters lead to unconventional conclusions, thus establishing a new perspective that stems purely from the Mushaf and critical reasoning. The conclusions in these two chapters put Hadith in a perspective and context that is completely non-convergent with prevailing Muslim doctrines. The conclusions have direct implications on what is typically perceived as Islamic law and the controversial doctrine of Sharia.

Muhammad Richard A. Gabriel,2014-10-22 That Muhammad succeeded as a prophet is undeniable; a prominent military historian now suggests that he might not have done so had he not also been a great soldier. Best known as the founder of a major religion, Muhammad was also Islam's first great general. While there have been numerous accounts of Muhammad the Prophet, this is the first military biography of the man. In Muhammad: Islam's First Great General, Richard A. Gabriel shows us a warrior never before seen in antiquity—a leader of an all-new religious movement who in a single decade fought eight major battles, led eighteen raids, and planned thirty-eight other military operations. Gabriel's study portrays Muhammad as a revolutionary who introduced military innovations that transformed armies and warfare throughout the Arab world. Gabriel analyzes the environment in which Muhammad lived and the religion he inspired as they relate to his military achievements. Gabriel explains how Muhammad changed the social composition of Arab armies by replacing traditional ways of fighting with a new command structure. Muhammad's transformation of Arab warfare enabled his successors to establish the core of the Islamic empire—an accomplishment that, Gabriel argues, would have been militarily impossible without Muhammad's innovations. Richard A. Gabriel challenges existing scholarship on Muhammad's place in history and offers a viewpoint not previously attempted.

The Muslim World in Modern South Asia Francis Robinson,2021-01-01 Over the past two hundred years, two great processes have shaped Muslim societies: Western domination and the industrial capitalism that came with it, and the Islamic revival that preceded the Western presence but came to interact significantly with it. In this book, Francis Robinson considers the challenges Western dominance has offered key aspects of Muslim civilization, particularly in the context of South Asia, which in the nineteenth century moved from being a receiver of influences from the rest of the Muslim world to being a transmitter of influences to it. Robinson also considers aspects of the Muslim revival and how they have come to shape, in various ways, Muslim responses to Western dominance. The role of the transmission of knowledge, both formal and spiritual, in forming Muslim societies is explored, and also the particular role of the transmitters in sustaining the Islamic dimensions of Muslim societies under Western dominance. Attention, too, is paid to the imposition of the modern state and the restriction of cosmopolitan spaces.
