**The Third Force in the Vietnam War** Sophie Quinn-Judge, 2017-01-30 It was the conflict that shocked America and the world, but the struggle for peace is central to the history of the Vietnam War. Rejecting the idea that war between Hanoi and the US was inevitable, the author traces North Vietnam's programs for a peaceful reunification of their nation from the 1954 Geneva negotiations up to the final collapse of the Saigon government in 1975. She also examines the ways that groups and

personalities in South Vietnam responded by crafting their own peace proposals, in the hope that the Vietnamese people could solve their disagreements by engaging in talks without outside interference. While most of the writing on peacemaking during the Vietnam War concerns high-level international diplomacy, Sophie Quinn-Judge reminds us of the courageous efforts of southern Vietnamese, including Buddhists, Catholics, students and citizens, to escape the unprecedented destruction that the US war brought to their people. The author contends that US policymakers showed little regard for the attitudes of the South Vietnamese population when they took over the war effort in 1964 and sent in their own troops to fight it in 1965. A unique contribution of this study is the interweaving of developments in South Vietnamese politics with changes in the balance of power in Hanoi; both of the Vietnamese combatants are shown to evolve towards greater rigidity as the war progresses, while the US grows increasingly committed to President Thieu in Saigon, after the election of Richard Nixon. Not even the signing of the 1973 Paris Peace Agreement could blunt US support for Thieu and his obstruction of the peace process. The result was a difficult peace in 1975, achieved by military might

rather than reconciliation, and a new realization of the limits of American foreign policy.

The Search for Peace in Vietnam, 1964-1968 Lloyd C. Gardner, Ted Gittinger, 2004-12-10 The Search for Peace in Vietnam, 1964-1968, the newest edition in the Texas A&M University Press Series on Foreign Relations and the Presidency, is a collection of essays that analyze the Vietnam War in terms of its significance to the global arena. Under the guidance of editors Lloyd C. Gardner and Ted Gittinger, the contributors, representing both communist and capitalist backgrounds, examine whether the Vietnam War was responsible for the transformation of the international system, using a formula postulated by series editor H. W. Brands, which looks at the international system at the beginning of the war and at the end, and measuring how much of the difference in the two periods is the result of the war. Topics include Robert J. McMahon's assessment of the war's legacy to Southeast Asia;

Xiaoming Zhang's analysis of Chinese involvement as an element in the Sino-Soviet rivalry; Ilya Gaiduk's account of the Soviet Indochina policy within the context of Moscow's relations with the outside world; Judith A. Klinghoffer's examination of the war's role in determining American foreign policy in the Middle East; Hiroshi Fujimoto's discussion of whether America's Cold War policy of regionalism affected Japan's economic prosperity; and other analyses by H. W. Brands, Lloyd C. Gardner, Robert K. Brigham, Frank Costigliola, Kil J. Yi, and Quang Zhai. John Prados ends the book questioning whether the Vietnam War was, in essence, just a sideshow in international relations and attempts to understand the war's place in the world and its impact on the place of the United States. The Search for Peace in Vietnam, 1964-1968 brings together a diverse group of scholars representing various viewpoints and backgrounds regarding the Vietnam War. The book breaks free from the mold of many American analyses of Vietnam, which place the war solely in the context of America's involvement and detriment, and endeavors to look further for both causes and effects. A true scholarly work, The Search for Peace in Vietnam, 1964-1968 challenges readers to think about this pivotal point

in international history in a new way.

**Making Sense of the Vietnam Wars** Mark Bradley, Mark Philip Bradley, Marilyn B.

Young, 2008-04-30 The question why Vietnam? dominated American and Vietnamese political life for much of length of the Vietnam wars and has continued to be asked in the three decades since they ended. These essays examine the conceptual and methodological shifts that mark the contested terrain of Vietnam war scholarship.

## Immigrants and Foreigners in Central and Eastern Europe during the Twentieth Century

Włodzimierz Borodziej, Joachim von Puttkamer, 2020-02-19 Immigrants and Foreigners in Central and Eastern Europe during the Twentieth Century challenges widespread conceptions of Central and Eastern European countries as merely countries of origin. It sheds light on their experience of immigration and the establishment of refugee regimes at different stages in the history of the region. The book brings together a variety of case studies on Poland, Hungary, Czechoslovakia, and Yugoslavia, and the experiences of return migrants from the United States, displaced Hungarian Jews, desperate German social democrats, resettled Magyars, resourceful tourists, labour migrants, and Zionists. In doing so, it highlights and explores the variety of experience across different forms of immigration and discusses its broader social and political framework. Presenting the challenges within the history of immigration in Eastern Europe and considering both immigration to the region and emigration from it, Immigrants and Foreigners in Central and Eastern Europe during the Twentieth Century provides a new perspective on, and contribution to, this ongoing subject of debate.

China and the Vietnam Wars, 1950-1975 Qiang Zhai,2005-10-21 In the quarter century after the founding of the People's Republic of China in 1949, Beijing assisted Vietnam in its struggle against two formidable foes, France and the United States. Indeed, the rise and fall of this alliance is one of the most crucial developments in the history of the Cold War in Asia. Drawing on newly released Chinese archival sources, memoirs and diaries, and documentary collections, Qiang Zhai offers the first comprehensive exploration of Beijing's Indochina policy and the historical, domestic, and international contexts within which it developed. In examining China's conduct toward Vietnam, Zhai provides important insights into Mao Zedong's foreign policy and the ideological and geopolitical motives behind it. Throughout the 1950s and 1960s, he shows, Mao considered the United States the primary threat to the security of the recent Communist victory in China and therefore saw support for Ho Chi Minh as a good way to weaken American influence in Southeast Asia. In the late 1960s and 1970s, however,

when Mao perceived a greater threat from the Soviet Union, he began to adjust his policies and encourage the North Vietnamese to accept a peace agreement with the United States.

*The Sino-Soviet Split* Lorenz M. Lüthi,2010-12-16 A decade after the Soviet Union and the People's Republic of China established their formidable alliance in 1950, escalating public disagreements between them broke the international communist movement apart. In *The Sino-Soviet Split*, Lorenz Lüthi tells the story of this rupture, which became one of the defining events of the Cold War. Identifying the primary role of disputes over Marxist-Leninist ideology, Lüthi traces their devastating impact in sowing conflict between the two nations in the areas of economic development, party relations, and foreign policy. The source of this estrangement was Mao Zedong's ideological radicalization at a time when Soviet leaders, mainly Nikita Khrushchev, became committed to more pragmatic domestic and foreign policies. Using a wide array of archival and documentary sources from three continents, Lüthi presents a richly detailed account of Sino-Soviet political relations in the 1950s

and 1960s. He explores how Sino-Soviet relations were linked to Chinese domestic politics and to Mao's struggles with internal political rivals. Furthermore, Lüthi argues, the Sino-Soviet split had far-reaching consequences for the socialist camp and its connections to the nonaligned movement, the global Cold War, and the Vietnam War. The Sino-Soviet Split provides a meticulous and cogent analysis of a major political fallout between two global powers, opening new areas of research for anyone interested in the history of international relations in the socialist world.
