Cross-Cultural Perspectives on the Experience and Expression of Love Victor Karandashev, 2019-06-05 This ambitious volume integrates findings from various disciplines in a comprehensive description of the modern research on love and provides a systematic review of love experience and expression from cross-cultural perspective. It explores numerous interdisciplinary topics, bringing together research in biological and social sciences to explore love, probing the cross-cultural similarities and differences in the feelings, thoughts, and expressions of love. The book's scope, which includes a review of major theories and key research instruments, provides a comprehensive background for any reader interested in developing an enlightened understanding of the cultural diversity in the concepts, experience, and expression of love. Included among the chapters: How do people in different cultures conceptualize love? How similar and different are the experiences and expressions of love across cultures? What are the cultural factors affecting the experience and expression of love? Cross-cultural understanding of love as passion, joy, commitment, union, respect, submission, intimacy, dependency, and more. A review of the past and looking into the future of cross-cultural love research. Critical reading for our global age, *Cross-Cultural Perspectives on the Experience and Expression of Love* promotes a thorough understanding of cross-cultural similarities and differences in love, and in so doing is valuable not only for love scholars, emotion researchers, and social psychologists, but also for practitioners and clinicians working with multicultural couples and families. "The most striking feature of this book is the broad array of perspectives that is covered. Love is portrayed as a universally found emotion with biological underpinnings. The text expands from this core, incorporating a wide range of manifestations of love: passion, admiration of and submission to a partner, gift giving and benevolence, attachment and trust, etc. Information on each topic comes from a variety of sources, cross-culturally and interdisciplinary. The text is integrative with a focus on informational value of ideas and findings. If you take an interest in how love in its broadest sense is experienced and expressed, you will find this to be a very rich text." Ype H. Poortinga, Tilburg University, The Netherlands & Catholic University of Leuven, Leuven, Belgium "In this wide-ranging book, Victor Karandashev expertly guides us through the dazzling complexity of our concept and experience of love. Not only does he show the many different ingredients that make up our conceptions of love in particular cultures, such as idealization of the beloved, commitment, union, intimacy, friendship, and others, he draws our attention to the bewildering array of differences between their applications in different cultural contexts, or to their presence or absence in a culture. In reading the book, we also get as a bonus an idea of how an elusive concept such as love can be scientifically studied by a variety of methodologies - all to our benefit. A masterful accomplishment." Kövecses Zoltán, Eötvös Loránd University, Budapest, Hungary "Long considered a research purview of only a portion of the world's cultures, we know today that love is universal albeit with many cultural differences in meaning, form, and expression. Moreover, love has a rich history of scholarship across multiple disciplines. Within this backdrop, Karandashev has compiled a remarkably comprehensive global review of how people experience and express their emotions in love. Covering the topic from a truly international and interdisciplinary perspective, this book is an indispensable source of knowledge about cultural and cross-cultural studies conducted in recent decades and is a must read for anyone interested in the universal and culturally diverse aspects of love." David Matsumoto, San Francisco State University, Director of SFSU's Culture and

Romantic Love in Cultural Contexts Victor Karandashev, 2016-12-24 This volume presents a conceptual, historical, anthropological, and sociological review of how culture affects our experience and expression of romantic love. What is romantic love and how is it different from and similar to other kinds of love? How is romantic love related to sex and marriage in human history and across contemporary cultures? What cultural factors mediate attraction in love? These are some of the questions the volume explores through its interdisciplinary yet focused lens. Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people, in various historical eras, and in all the world's cultures. Yet, love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel, think, and behave in romantic relationships. This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting-edge research that has advanced the field. Divided into three parts, the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context. Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history. Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world, focusing particularly on the development of romantic love as a cultural ideal of the modern cultures. Finally, the book concludes by summarizing the major achievements in this field of study and predicts future development. A timely and thoughtful addition to the literature, *Romantic Love in Cultural Contexts* delivers thought-provoking insights to researchers in relationship scholarship, sociology, anthropology, and cultural studies, and all those interested in the universal human concept of love. Overall I find Dr. Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross-cultural research and of anthropology. In our increasingly connected world *Romantic Love in Cultural Contexts* updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures. Romantic love encompasses the life span, rather than being a phenomenon largely confined to youthful years. The topic of this project concerns the deepest of our sentiments and pervades life from birth to death. This book contributes to better knowledge of this phenomenon across generations. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
