**Making the Writing and Research Connection with the I-search Process** Marilyn Z. Joyce,Julie I. Tallman,1997 This work explains how the I-Search process works. Intended to help students to create research and term papers which avoid the pitfalls and frustrations of traditional methods, the search for information becomes a primary focus, along with the use of the first-person voice.

**I Am Without Love** Estella Slattery,2004-05 We seem to constantly look for love, God's love or love for individuals. To me these pursuits are simultaneous, indistinguishable. We just go about it differently. To see God's love we pray traditionally, with learned words. To gain human love, we rampage, parade, fake modesty. I hope the reader will discover, as my characters and I have, that sometimes love surprises us.

*In Search of the I* Ramón Lugo,2016-07-25 This unbelievable - yet true - story reminds one of biblical struggles: it echoes the story of Jacob wrestling with the Angel of God. Throughout a long, dark night in the middle of the Atlantic, a lone man in a kayak braves ruthless tropical storm Franklin. Nothing is there to help him: no media, no helicopters, no rescue teams - and yet, his life is spared. The book describes much more than this capturing imagination and awe-inspiring ordeal. In 2005, the author, Ramon Lugo, set off to kayak alone across the Atlantic Ocean from the Chesapeake Bay to Spain. He considered this crossing a means of finding his inner self. He sought to experience times, when pure courage is needed to let spirit take over. The narrative conveys the raw sense of a seemingly impossible attempt to cross the ocean in a kayak in hurricane season. As we join Ramon David Lugo on his breathtaking odyssey, we get a taste of his unimaginable courage, which is a sister to faith.

**Bye Mam, I Love You - A daughter's last words. A mother's search for justice. The shocking true story of the murder of Rebecca Aylward** Sonia Oatley,2014-08-07 On Saturday, 23 October 2010, Sonia Oatley waved off her 15-year-old daughter, Becca, to meet Joshua Davies, a former boyfriend. Becca's hope was that the two of them would get back together, but it was not to be. By 3pm, oddly, she stopped answering her mobile. By 7.30 she was officially declared missing. And at 10am the following morning, while Sonia and the family were out searching, came the call that is every parent's worst nightmare. The police had found the body of a young girl in local woodland: she'd been bludgeoned to death with a

rock. *Bye Mam, I Love You* is the story of Rebecca Aylward's murder - a slaying that was described by an incredulous media as having been committed for 'the price of a breakfast'. But, as soon became clear, this was no crime of passion. Becca's death had apparently been many months in the planning, by a calculating, cold-blooded killer. From the immediate arrest of 16-year-old Joshua Davies, to the lengthy investigation and harrowing five week trial that convicted him, this book is both an expression of a mother's love and her pride in a daughter who had so much to live for, as well as an insight into the mind of a brutal murderer.

In Search of Lost Time Volume I Swann's Way Marcel Proust,1998-06-23 In Swann's Way, the themes of Proust's masterpiece are introduced, and the narrator's childhood in Paris and Combray is recalled, most memorably in the evocation of the famous maternal good-night kiss. The recollection of the narrator's love for Swann's daughter Gilberte leads to an account of Swann's passion for Odette and the rise of the nouveaux riches Verdurins. For this authoritative English-language edition, D. J. Enright has revised the late Terence Kilmartin's acclaimed reworking of C. K. Scott Moncrieff's translation to take into account the new definitive French editions of *À la recherche du temps perdu* (the final volume of these new editions was published by the Bibliothèque de la Pléiade in 1989).

**Parallel and Concurrent Programming in Haskell** Simon Marlow,2013-07-12 If you have a working knowledge of Haskell, this hands-on book shows you how to use the language's many APIs and frameworks for writing both parallel and concurrent programs. You'll learn how parallelism exploits multicore processors to speed up computation-heavy programs, and how concurrency enables you to write programs with threads for multiple interactions. Author Simon Marlow walks you through the process with lots of code examples that you can run, experiment with, and extend. Divided into separate sections on Parallel and Concurrent Haskell, this book also includes exercises to help you become familiar with the concepts presented: Express parallelism in Haskell with the Eval monad and Evaluation Strategies Parallelize ordinary Haskell code with the Par monad Build parallel array-based computations, using the Repa library Use the Accelerate library to run computations directly on the GPU Work with basic interfaces for writing concurrent code Build trees of threads for larger and more complex programs Learn how to build high-speed concurrent network servers Write distributed programs that run on multiple machines in a network

**In Search of Sir Thomas Browne: The Life and Afterlife of the Seventeenth Century's Most Inquiring Mind** Hugh Aldersey-Williams,2015-06-15 The extraordinary life and ideas of one of the greatest—and most neglected—minds in history. Sir Thomas Browne (1605-1682) was an English writer, physician, and philosopher whose work has inspired everyone from Ralph Waldo Emerson to Jorge Luis Borges, Virginia Woolf to Stephen Jay Gould. In an intellectual adventure like Sarah Bakewell's book about Montaigne, *How to Live*, Hugh Aldersey-Williams sets off not just to tell the story of Browne's life but to champion his skeptical nature and inquiring mind. Mixing botany, etymology, medicine, and literary history, Aldersey-Williams journeys in his hero's footsteps to introduce us to witches, zealots, natural wonders, and fabulous creatures of Browne's time and ours. We meet Browne the master prose stylist, responsible for introducing hundreds of words into English, including electricity, hallucination, and suicide. Aldersey-Williams reveals how Browne's preoccupations—how to disabuse the credulous of their foolish beliefs, what to make of order in nature, how to unite science and religion—are relevant today. *In Search of Sir Thomas Browne* is more than just a biography—it is a cabinet of wonders and an argument that Browne, standing at the very gates of modern science, remains an inquiring mind for our own time. As Stephen Greenblatt has written, Browne is unnervingly one of our most adventurous contemporaries.

**In Search of Words** Oliver P.B. West,2008-03-05 For many years schools have used linear, words-based teaching methods, assuming that this is

the most effective way of educating our children. Learner who think in a holistic, visual way have consequently been marginalised and in many cases branded with a 'learning difficulty' label, simply because they think and learn in a way that is incongruous with traditional classroom teaching. Teachers and parents can struggle to know how encourage this 'different' way of thinking, often because they simply don't understand it.

The Oxford Anthology of Roman Literature Peter E. Knox,J. C. McKeown,2013-10-31 Though the wonders of ancient Roman culture continue to attract interest across the disciplines, it is difficult to find a lively, accessible collection of the full range of the era's literature in English. The Oxford Anthology of Roman Literature provides a general introduction to the literature of the Roman empire at its zenith, between the second century BC and the second century AD. Two features of this extraordinarily fertile period in literary achievement as evidenced by this anthology are immediately and repeatedly clear: how similar the Romans' view of the world was to our own and, perhaps even more obviously, how different it was. Most of the authors included in the anthology wrote in Latin, but as the anthology moves forward in time, relevant Greek texts that reflect the cultural diversity of Roman literary life are also included, something no other such anthology has done in the past. Roman literature was wonderfully creative and diverse, and the texts in this volume were chosen from a broad range of genres: drama, epic, philosophy, satire, lyric poetry, love poetry. By its very nature an anthology can abbreviate and thus obscure the most attractive features of even a masterpiece, so the two editors have not only selected texts that capture the essence of the respective authors, but also have included accompanying introductions and afterwords that will guide the reader in pursuing further reading. The presentations of the selections are enlivened with illustrations that locate the works within the contexts of the world in which they were written and enjoyed. The student and general reader will come away from this learned yet entertaining anthology with a fuller appreciation of the place occupied by literature in the Roman world.
