Tabvertising. Formatos y estrategias publicitarias en tabletas Antonio Sanjuán Pérez, Natalia Quintas Froufe, Sandra Martínez Costa, 2014-09-12 Las tabletas digitales han revolucionado el mercado de los dispositivos móviles y han cambiado la forma en la que el usuario interactúa con la publicidad. Se han definido nuevas estrategias, nuevas tipologías de apps, nuevos formatos interactivos y no interactivos; y se han encontrado grandes posibilidades para los anunciantes. Este libro pretende mostrar algunas de las estrategias publicitarias más comunes entre el anunciante, así como casos de éxito en el mundo de las tabletas digitales que los ejemplifiquen. El storytelling, el advergaming, el advertainment, la publicidad para revistas, la prensa diaria o las aplicaciones de anunciantes más descargadas configuran el Tabvertising, la denominada por el Interactive Advertising Bureau como publicidad creada para tabletas digitales.

Sharing the Harvest Elizabeth Henderson, Robyn Van En, 2007-11-01 To an increasing number of American families the CSA (community supported agriculture) is the answer to the globalization of our food supply. The premise is simple: create a partnership between local farmers and nearby

consumers, who become members or subscribers in support of the farm. In exchange for paying in advance--at the beginning of the growing season, when the farm needs financing--CSA members receive the freshest, healthiest produce throughout the season and keep money, jobs, and farms in their own community. In this thoroughly revised and expanded edition of a Chelsea Green classic, authors Henderson and Van En provide new insight into making CSA not only a viable economic model, but the right choice for food lovers and farmers alike. Thinking and buying local is quickly moving from a novel idea to a mainstream activity. The groundbreaking first edition helped spark a movement and, with this revised edition, *Sharing the Harvest* is poised to lead the way toward a revitalized agriculture.

Experiments in Catalytic Reaction Engineering J.M. Berty,1999-08-11 The science of catalytic reaction engineering studies the catalyst and the catalytic process in the laboratory in order to predict how they will perform in production-scale reactors. Surprises are to be avoided in the scaleup of industrial processes. The laboratory results must account for flow, heat and mass transfer influences on reaction rate to be useful for scaleup. Calculated performance based on these results must also be useful to maximization of profit and safety and minimization of pollution. To this end, information on products as well as byproducts and heat produced must be generated. If a sufficiently large database of knowledge is produced, optimization studies will be possible later if economic conditions change. The field of reaction engineering required new tools. For kinetic and catalyst testing, the most

successful of these tools was the internal recycle reactor. Studies in recycle reactors can be made under well-defined conditions of flow and associated transfer processes, and close to commercial operation. The recycle reactor eliminates or minimizes the effect of transfer process, and allows the remaining ones to be known. Features of this book: • Provides insight into a field that is neither well understood nor properly appreciated. • Gives a deeper understanding of reaction engineering practice. • Helps avoid frustration and disappointment in industrial research. This book is short and clear enough to assist all members of the R&D and Engineering team, whether reaction engineers, or specialists in other fields. This is critical in this new age of computation and communication, when team members must each know at least something of their colleagues' fields. Additionally, many scientists in more exploratory or fundamental fields can use recycle reactors to study basic phenomena free of transfer interactions.

Threading the Needle Marie Bostwick, 2011-06-01 From New York Times bestselling author Marie Bostwick comes a beautiful novel of sisterhood lost and found--and of the ways we create the rich tapestries that encompass the past and the future... The economic downturn has hit New Bern, Connecticut, and Tessa Woodruff's herbal apothecary shop, *For the Love of Lavender*, is suffering. So is her once-happy thirty-four-year marriage to Lee. They'd given up everything to come back to New Bern from Boston and start their business, but now they're wondering if they made the right decision. To relieve the strain, Tessa signs up for a quilting class at the Cobbled Court Quilt Shop, and to her surprise, rediscovers the power of sisterhood--along with the childhood friend she thought she'd lost forever... Madelyn Beecher left New Bern twenty years ago and never looked back. But when her husband is convicted of running a Ponzi scheme and she's left with nothing but her late grandmother's cottage, she is forced to return to the town she fled. Unfortunately, the cottage is in

terrible shape. Madelyn's only hope is to transform it into an inn. But to succeed, she'll need the help of her fellow quilters, including the one friend she never thought she'd see again--or forgive. Now Madelyn and Tessa will have to relive old memories, forge new ones, and realize it's possible to start over, one stitch at a time--as long as you're surrounded by friends... Praise for Marie Bostwick and her Cobbled Court Novels Bostwick is a topnotch storyteller...Enjoy hours of storytelling that will warm your heart and help renew your belief that people can be good, if given the chance. --Armchair Interviews Heartwarming...Bostwick's contemporary New England quilters series is an unbreakable thread of friendship and faith. --Publishers Weekly As their tenuous bonds grow stronger, each woman discovers how much they can help each other with life's many challenges. Bostwick's writing is warmly nourishing, emotionally compelling...quiet yet powerful. --The Chicago Tribune The women in A Single Thread will feel like your own girlfriends--emotional, funny, creative and deeply caring. It's a story filled with wit and wisdom. Sit back and enjoy this big-hearted novel, and then pass it on to your best friend. --Susan Wiggs, New York Times bestselling author Bostwick beautifully captures the very essence of women's friendships--the love, the pain, the trust, the forgiveness--and crafts a seamless and heartfelt novel from them. --Kristy Kiernan, author of Matters of Faith [A] buoyant novel about the value of friendship...a tantalizing book club contender. --Publishers Weekly "Bostwick's series continues to introduce interesting characters and compelling stories that show an appreciation for female friendship as well as a love for the art of quilting. Readers who have exhausted Jennifer Chiaverini's Elm Creek Quilt novels or Clare O'Donohue's Someday Quilt mysteries will definitely enjoy Bostwick." --Library Journal "...Uplifting." --RT BookReviews 4 star review

Sport Clubs in Various European Countries Klaus Heinemann,1999 The current situation in sport reveals a large deficit concerning concepts for future developments and projects. Many traditional values, ethical standards and educational ideals are losing their significance - in particular for the young generation. In contrast, commercial media sport as well as international top sport stand to gain from the changing rating of sport in our society. On the other hand, matters of fitness, health and of general wellness are firmly grounded in the daily routine of the population. The gap in the development of sport is widening. What answers, concepts or problem-solving does a science, which deals with these topics, come up with? These are the guidelines of the Club of Cologne, which is trying to suggest perspectives by means of active research and subsequent publications, to present models and strategies, and to enrich public discussion by offering approaches or solutions.
