Understanding and Influencing Public Support for Insurgency and Terrorism Paul K. Davis, Eric V. Larson, Zachary Haldeman, Mustafa Oguz, Yashodhara Rana, 2012-07-31 Using and testing a conceptual model that draws on social science and particularly social movement theory, this volume examines public support for al-Qa'ida's transnational jihadist movement, the Taliban insurgency in Afghanistan, the Kurdistan Workers' Party (PKK) in Turkey, and the Maoist insurgency in Nepal. The authors discuss which factors were most salient across cases, how their importance varied in each case, and how this understanding can inform strategy.

Counterinsurgency in Modern Warfare Daniel Marston, Carter Malkasian, 2011-01-01 Throughout history armies of occupation and civil power have been faced with the challenges of insurgency.

British and American involvement in Iraq and Afghanistan has highlighted this form of conflict in the modern world. Armies have had to adopt new doctrines and tactics to deal with the problems of insurgency and diverse counterinsurgency strategies have been developed. Here, fourteen authors examine the development of counterinsurgency from the early 20th century to the present. Including information on the Arab-Israeli conflict, Afghanistan and Iraq this book is a timely and accessible survey of a critical facet of modern warfare. This new paperback edition features a revised introduction, updated chapters on Iraq and Afghanistan and a completely new chapter on Columbia by expert Thomas Marks.

Techniques of Icon and Wall Painting Aidan Hart, 2011 This is the most comprehensive book to date on the techniques of icon and wall painting. Illustrated with over 450 colour photos and 180 drawings, it will be a source of pleasure and inspiration for the general reader as well as for the practising icon painter. The book is more than just a technical manual; it sets artistic practice in the context of the Church's spirituality and liturgy, with chapters on the theology and history of the icon, the role and symbolism of the iconostasis, and the principles behind the positioning of wall paintings within churches. The wealth of information in this book makes it an indispensable reference text, not only for iconographers but also for any painter working in egg tempera, fresco or secco. All the necessary processes are covered, including the making gessoing of wooden panels, gilding, preparing pigments, lime plastering and fresco, the various techniques for painting in tempera, right through to photographing the finished artwork. -- from dust jacket.

U.S. Marines in Battle Timothy S. McWilliams, Nicolas J. Schlosser, U. S. Marine Corps History Division, 2014-07-23 This is a study of the Second Battle of Fallujah, also known as Operation Al-Fajr and Operation Phantom Fury. Over the course of November and December 2004, the I Marine Expeditionary Force conducted a grueling campaign to clear the city of Fallujah of insurgents and end its use as a base for the anticoalition insurgency in western Iraq. The battle involved units from the Marine Corps, Army, and Iraqi military and constituted one of the largest engagements of the Iraq War. The study is based on interviews conducted by Marine Corps History Division field historians of battle participants and archival material. The book will be of primary interest to Marines, other service members, policy makers, and the faculty and students at the service schools and academies. Historians, veterans, high school through university history departments and students as well as libraries may be interested in this book as well. With full color maps and photographs.

My Year in Iraq L. Paul Bremer, 2006-01-09 BAGHDAD WAS BURNING. With these words, Ambassador L. Paul Jerry Bremer begins his gripping memoir of fourteen danger-filled months as America's proconsul in Iraq. *My Year in Iraq* is the only senior insider's perspective on the crucial period following the collapse of Saddam Hussein's regime. In vivid, dramatic detail, Bremer reveals

the previously hidden struggles among Iraqi politicians and America's leaders, taking us from the ancient lanes in the holy city of Najaf to the White House Situation Room and the Pentagon E-Ring. His memoir carries the reader behind closed doors in Baghdad during hammer-and-tongs negotiations with emerging Iraqi leaders as they struggle to forge the democratic institutions vital to Iraq's future of hope. He describes his private meetings with President Bush and his admiration for the president's firm wartime leadership. And we witness heated sessions among members of America's National Security Council -- George Bush, Dick Cheney, Colin Powell, Donald Rumsfeld, and Condoleezza Rice -- as Bremer labors to realize the vision he and President Bush share of a free and democratic New Iraq. He admires the selfless and courageous work of thousands of American servicemen and -women and civilians in Iraq. The flames Bremer describes on arriving in Baghdad were from fires started by looters. One of his first acts was to request an additional 4,000 Military Police to help restore order in the streets. For most of the next year, as the insurgency spread, Bremer resisted efforts by generals and senior Defense Department civilians to reduce American troop strength prematurely, replacing our forces with ill-trained, poorly led Iraqi police and soldiers. And he lays to rest the myth that the Coalition disbanded Saddam's army, a force comprised of Shiite draftees who had deserted and refused to serve under their former Sunni officers. Bremer also describes his frustration with intelligence operations that concentrated on the search for weapons of mass destruction while the insurgency gathered strength. Bremer faced daunting problems working with Iraq's traumatized and divided population to find a path to a responsible and representative government. The Shia Arabs, the country's long-repressed majority, deeply distrusted the Sunni Arab minority who had held power for centuries and had controlled the detested Baath Party. Iraq's non-Arab Kurds teetered on the brink of secession when Bremer arrived. He had to find Sunnis willing to participate in the new political order.

Some in the U.S. government pushed for what Bremer would come to call a cut-and-run policy that would have quickly delivered governance of Iraq to a handful of unrepresentative anti-Saddam exiles. Bremer vigorously resisted this ill-conceived course. He takes the reader inside marathon negotiations as he and his team shepherded Iraq's new leaders to write an interim constitution with guarantees for individual and minority rights unprecedented in the region. *My Year in Iraq* is required reading for all those interested in the real story of how America responded to its gravest recent overseas crisis.

Reform of the Reform? Thomas Kocik, 2010-01-15 Disturbed by the direction in which the post Vatican II liturgical reforms have moved, two fictitious representatives of mutually antagonistic movements debate the remedy for correct liturgical reform. This unique work presents a debate between a traditionalist who argues for a return to the pre-Vatican II liturgy, and a reformist (no liberal himself) who advocates a new liturgical reform more in keeping with what the Council fathers had in mind. They bring to the debate the insights of renowned authorities on the liturgy, including Cardinal Ratzinger, Msgr. Klaus Gamber, Michael Davies, Fr. Brian Harrison and Fr. Aidan Nichols. This book is written for anyone interested in the Church's liturgy, and the controversies surrounding the liturgical renewal. It is both a primer for those who lack the theological and liturgical expertise to articulate their dissatisfaction with the state of the liturgy, and an excellent resource for those specialists who would appreciate having a single volume for consulting salient points from numerous authorities.

The Soviet Economy in the 1980s Thane Gustafson, Rand Corporation, 1982 The Soviet economy faces in this decade the most fundamental peacetime problems it has known since the beginnings of the command system in the 1920s. What are the possible implications for Soviet military spending and foreign policy? Will economic constraints oblige the Soviet leadership to reduce its spending on the military sector, or at any rate to moderate the growth rate of arms spending? Will the Soviet leaders feel able to sustain the increasing costs of their foreign policies, especially in Eastern Europe? Will they face such difficulty that they will resort to draconian measures at home and adventure abroad as a means of maintaining the rule? Western analysts are virtually unanimous on the Soviet's economic difficulties but disagree among themselves about the implications. In this paper the reader will find some essential background information on the issues involved.
