Icons Robin Cormack,British Museum,2007 When Matisse thus expressed his admiration for icons, upon a visit to Russia in 1911, he echoed the sentiments of viewers down the centuries. These painted panels made for Byzantine and Orthodox churches and as aids to prayers at home are perhaps the most effective and enduring form of religious art ever developed, and also perhaps one of the most mysterious. The peaceful, clear imagery found within them can be appreciated on both a religious and a secular level. This engaging book looks at icons in the context of the history of Christianity, examining all aspects of the production and power of this distinctive art form. Through numerous colour illustrations, it investigates their subject matter, showing how scenes can be identified, how the iconography developed over the centuries, and the role of portraiture. The ways in which icons were made, framed and displayed are also explored, based on an analysis of examples from the British Museum that have been carefully studied by restorers. The Museum's entire collection of around 100 icons, unmatched in Britain, is illustrated here in colour.

*The Story of the Selma Voting Rights Marches in Photographs* David Aretha,2014-01-01 The Civil Rights Act of 1964 was a momentous victory for civil rights activists, but one major obstacle remained in the path toward equal rights for African Americans: the right to vote. In the South, segregationists prevented African Americans from voting. Civil rights leaders believed it was time for strong action and chose Selma, Alabama, as the rallying point. There, the marches and protests captured the nation's attention. Through gripping primary source photographs, author David Aretha explores this

important time in American history.

**Ciao, America!** Beppe Severgnini, 2003-05-13 In the wry but affectionate tradition of Bill Bryson,

Ciao, America! is a delightful look at America through the eyes of a fiercely funny guest—one of Italy's favorite authors who spent a year in Washington, D.C. When Beppe Severgnini and his wife rented a creaky house in Georgetown they were determined to see if they could adapt to a full four seasons in a country obsessed with ice cubes, air-conditioning, recliner chairs, and, of all things, after-dinner cappuccinos. From their first encounters with cryptic rental listings to their back-to-Europe yard sale twelve months later, Beppe explores this foreign land with the self-described patience of a mildly inappropriate beachcomber, holding up a mirror to America's signature manners and mores. Succumbing to his surroundings day by day, he and his wife find themselves developing a taste for Klondike bars and Samuel Adams beer, and even that most peculiar of American institutions—the pancake house. The realtor who waves a perfect bye-bye, the overzealous mattress salesman who bounces from bed to bed, and the plumber named Marx who deals in illegally powerful showerheads are just a few of the better-than-fiction characters the Severgninis encounter while foraging for clues to the real America. A trip to the computer store proves just as revealing as D.C.'s Fourth of July celebration, as do boisterous waiters angling for tips and no-parking signs crammed with a dozen lines of fine print. By the end of his visit, Severgnini has come to grips with life in these United States—and written a charming, laugh-out-loud tribute.
