**Vivid** Jessica Wilde, 2015-09-29 Merrick Thatcher went through a hell that no one could possibly imagine. He fought to protect his country, his family, and the men standing at his side, but it wasn't just being a soldier overseas that changed him. He watched his friends die in front of him, felt indescribable pain, and lost his sight in the very same moment. Badly injured, blind, and angry, he's done with war, but now he's fighting his own

battle. So, he's waiting for it to end, spending his days and nights in a thick darkness no light can penetrate. Until Grace walks into his life and his broken eyes open to a woman that changes everything for him. A story about two flawed souls finding love amidst the grief. A love that shines vividly, even in the dark, and discovering that sometimes being broken is how the light gets in.

What do Madonna, Ray Charles, Mount Rushmore, suburbia, the banjo, and the Ford Mustang have in common? Whether we adore, ignore, or deplore them, they all influence our culture, and color the way America is perceived by the world. This A-to-Z collection of essays explores more than one hundred people, places, and phenomena that have taken on iconic status in American culture. The scholars and writers whose thoughts are gathered in this unique three-volume set examine these icons through a diverse array of perspectives and fields of expertise. Ranging from the Alamo to Muhammad Ali, from John Wayne to the zipper, this selection of American icons represents essential elements of our culture, including law, art, food, religion, and science. Featuring more than 100 illustrations, this work will serve as a unique resource for students of American history and culture. The interdisciplinary scholars in this work examine what it means when something is labeled as an icon. What common features do the people, places, and things we deem to be iconic share? To begin with, an icon generates strong responses in people, it often stands for a group of values (John Wayne), it reflects forces of its time, it can be reshaped or extended by imitation, and it often breaks down barriers between various segments of American culture, such as those that exist between white and black America, or between high and low art. The essays contained in this set examine all these aspects of American icons from a variety of perspectives and through a lively range of rhetoric styles.

Maine Icons Matthew P. Mayo, Jennifer Smith-Mayo, 2011-05-03 Maine is many things to many people—a haven in a world of headaches, a fir-stippled paradise where summer

comes slow and easy, a place that is heartbreaking to leave and a relief to return to. It is the way life should be. More specifically, Maine is 3,500 miles of enchanting coastline, the 5,267-foot elevation of Mount Katahdin, and of course her hardy, friendly folks. *Maine Icons* illustrates the quintessential symbols that make Maine so fascinating and unique. Profiled here are fifty classic symbols of this extraordinary state, revealing little-known facts, longtime secrets, and historical legends. From bean hole beans to L.L.Bean, here's the inside story about the very things that give this state its character. Did you know that the annual Maine Lobster Festival includes a parade, a lobster-crate race, and more than 20,000 pounds of lobster cooked in the world's biggest lobster boiler? That it was a woman, Cornelia Thurza "Fly Rod" Crosby, who became the first licensed, registered Maine Guide in 1897? Or that the earmuff was patented in the 1870s by young Chester Greenwood, who went on to be named one of America's top fifteen outstanding inventors? For Mainers and newcomers alike, *Maine Icons* will be a treasured keepsake of this charming state.

*Creating Passion Brands* Helen Edwards, Derek Day, 2005 This fresh and original take on branding is soundly based on academic theory and extensive original research. Packed with global cases, practical tools, models, and frameworks, this work shows how to create a brand that is credible and desirable.

Literature, Amusement, and Technology in the Great Depression William Solomon, 2009-10 *Literature, Amusement and Technology* examines the exchange between literature and recreational practices in 1930s America. William Solomon argues that autobiographical writers like Edward Dahlberg and Henry Miller took aesthetic inspiration

from urban manifestations of the carnival spirit: Coney Island amusement parks, burlesque, vaudeville, and the dime museum display of human oddities. More broadly, he demonstrates that the literary projects of the period pivoted around images of grotesquely disfigured bodies which appeared as part of this recreational culture.

*Icons of the American Comic Book [2 volumes]* Randy Duncan, Matthew J. Smith, 2013-01-29 This book explores how the heroes and villains of popular comic books—and the creators of these icons of our culture—reflect the American experience out of which they sprang, and how they have achieved relevance by adapting to, and perhaps influencing, the evolving American character. Multiple generations have thrilled to the exploits of the heroes and villains of American comic books. These imaginary characters permeate our culture—even Americans who have never read a comic book grasp what the most well-known examples represent. But these comic book characters, and their creators, do more than simply thrill: they make us consider who we are and who we aspire to be. *Icons of the American Comic Book: From Captain America to Wonder Woman* contains 100 entries that provide historical background, explore the impact of the comic-book character on American culture, and summarize what is iconic about the subject of the entry. Each entry also lists essential works, suggests further readings, and contains at least one sidebar that provides entertaining and often quirky insight not covered in the main entry. This two-volume work examines fascinating subjects, such as how the superhero concept embodied the essence of American culture in the 1930s; and the ways in which comic book icons have evolved to reflect changing circumstances, values, and attitudes regarding cultural diversity. The book's coverage extends beyond just characters, as it also includes

entries devoted to creators, publishers, titles, and even comic book related phenomena that have had enduring significance.

**Mr. S** George Jacobs, William Stadiem, 2009-04-25 Mr. S: My Life with Frank Sinatra, by former valet-aide George Jacobs with an oh-so-able assist by William Stadiem, has at least five quotable and shocking remarks about the famous on every page. The fifteen years Jacobs toiled for Frank produces a classic of its genre -- a gold-star gossip-lover's dream.... The rest is showbiz history as it was, and only Ava Gardner, Humphrey Bogart, and Betty Bacall are spared. Marilyn Monroe, Judy Garland, Juliet Prowse, Noel Coward, Cole Porter, Mia Farrow, Elvis Presley, Swifty Lazar, Dean Martin, Peggy Lee, Sammy Davis Jr., Marlene Dietrich, Greta Garbo, Jimmy van Heusen, Edie Goetz, Peter Lawford, and all of the Kennedys come in for heaping portions of 'deep dish,' served hot. Sordid, trashy, funny, and so rat-a-tat with its smart inside info and hip instant analysis that some of it seems too good to be true....

### **Daily Life through American History in Primary Documents [4 volumes]**

Randall M. Miller, Theodore J. Zeman, Francis J. Sicius, Jolyon P. Girard, 2011-12-12 With this book, students, teachers, and general readers get a most important look at primary documents—essentially history's first draft—revealing rare insights into how American life in past eras really was, and also about how professional historians begin their work. Daily Life through American History in Primary Documents presents a large sweep of American

history through the voices of the American people themselves. This multivolume work explores the daily lives of American people from colonial times to the present through primary documents that include diaries, letters, memoirs, speeches, sermons, pamphlets, and all manner of public and private writings from the people. The emphasis is on the variety of people's experiences as they ordered and lived their daily lives. The cast includes Americans of every class and condition, men and women, parents and children, free and unfree, native-born and immigrant. Hundreds of images further illustrate American life as it developed over more than four centuries and as Americans moved across a continent. Organized both chronologically and topically, this collection invites many uses by students, teachers, librarians, and anyone wanting to discover what counted in American lives at any one time and over time. Its focus on primary documents encourages readers of the volume to explore specific and critical events by taking a firsthand look at the actual documents from which those events draw historical meaning. The documents show Americans at work, at home, at play, in the public square, in places of worship, and on the move. As such, they perfectly complement the acclaimed Greenwood Encyclopedia of Daily Life in America and will enrich any American history, social science, and sociology classroom.

**Giving Blood** Leonard Sweet, 2014-03-25 A Groundbreaking Resource for Preaching If the church wishes to converse effectively with a culture, it must learn the culture's language. Today, shifts in technology mean that language is increasingly one of symbols and metaphors, stories and images—not words. So what does this mean for the sermon, that long-standing, word-based tradition of Christianity? In this ground-breaking resource,

bestselling author Leonard Sweet offers an alternative to traditional models of preaching, one that is fitting to a new culture and a new mode of thinking. The first book of its kind to move preaching beyond its pulpit-centric fixation and toward more interactive, participatory modes of communication, Sweet presents both a challenge and a path forward for a church struggling to maintain its relevance in a post-modern, media-saturated culture.
