If a Place Can Make You Cry Daniel Gordis,2002-10-15 In the summer of 1998, Daniel Gordis and his family moved to Israel from Los Angeles. They planned to be there for a year, during which time Daniel would be a Fellow at the Mandel Institute in Jerusalem. This was a euphoric time in Israel. The economy was booming, and peace seemed virtually guaranteed. A few months into their stay, Gordis and his wife decided to remain in Israel permanently, confident that their children would be among the first generation of Israelis to grow up in peace. Immediately after arriving in Israel, Daniel had started sending out e-mails about his and his family's life to friends and family abroad. These missives—passionate, thoughtful, beautifully written, and informative—began reaching a much broader readership than he'd ever envisioned, eventually being excerpted in The New York Times Magazine to much acclaim. An edited and finely crafted collection of his original e-mails, If a Place Can Make You Cry is a first-person, immediate account of Israel's post-Oslo meltdown that cuts through the rhetoric and stridency of most dispatches from that country or from the international media. Above all, Gordis tells the story of a family that must cope with the sudden realization that they took their children from a serene and secure neighborhood in Los Angeles to an Israel not at peace but mired in war. This is the chronicle of a loss of innocence—the innocence of Daniel and his wife, and of their children. Ultimately, through Gordis's eyes, Israel, with all its beauty, madness, violence, and history, comes to life in a way we've never quite seen before. Daniel Gordis captures as no one has the years leading up to what every Israeli dreaded: on April 1, 2002, Prime Minister Ariel Sharon declared that Israel was at war. After an almost endless cycle of suicide bombings and harsh retaliation, any remaining chance for peace had seemingly died. If a Place Can Make You Cry is the story of a time in which peace gave way to war, when childhood innocence evaporated in the heat of hatred, when it became difficult even to hope. Like countless other Israeli parents, Gordis and his wife struggled to make their children's lives manageable and meaningful, despite it all. This is a book about what their children gained, what they lost, and how, in the midst of everything, a whole family learned time and again what really matters.

The First 20 Hours Josh Kaufman,2013-06-13 Forget the 10,000 hour rule—what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make

matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Eight months pregnant, Zodwa carefully guards secrets that jeopardize her life. Across the country, wealthy socialite Ruth appears to have everything her heart desires, but it's what she can't have that leads to her breakdown. Meanwhile, in Zaire, a disgraced former nun, Delilah, grapples with a past that refuses to stay buried. When these personal crises send both middle-aged women back to their rural hometown to heal, the discovery of an abandoned newborn baby upends everything, challenging their lifelong beliefs about race, motherhood, and the power of the past. As the mystery surrounding the infant grows, the complicated lives of Zodwa, Ruth, and Delilah become inextricably linked. What follows is a mesmerizing look at family and identity that asks: How far will the human heart go to protect itself and the ones it loves?

If you are not the best, make sure no one is better than you.... Ankush Khanna, Mike Barron, 2022-03-13 Everyone aspires to be the greatest version of themselves, yet only a small percentage of people truly achieve this goal. When it comes to attaining success, pursuing our aspirations, and leading a life that is filled with passion and purpose, we are our own greatest adversaries. Some of us are self-destructive without even recognizing it, while others are aware of their destructive tendencies but lack the means and/or knowledge to change their ways.

If you meet George Herbert on the road, kill him Justin Lewis-Anthony, 2009-06-01 Priestly ministry in the Church of England needs a radical rethink... George Herbert died in 1633. His legacy continues. His poems are read and

sung, and his parish ministry remains the model for the Church of England's understanding of how and where and why its priests should minister. But there is a problem. The memory of Herbert celebrated by the Church is an inaccurate one, and, in its inaccuracy, is unfair on Herbert himself and his successors in the ordained ministry. This is a book of the long view. It sets out to assess realistically the context of Herbert's life and to explore the difficulties of parish life today. By examining the status and role of parish clergy since Herbert's time and today, it draws on the work of historians, social anthropologists, psychologists and theologians, and presents their ideas in a readable and passionate style. It argues that the future strength of parochial ministry will be found in a recovery of historic, renewed understandings of priestly ministry, and concludes by outlining more sustainable patterns of practice for the future. In a climate of uncertainty for the future of the church, it will be an encouragement for priest and people, and welcomed by both.

If you can count to four... James Jones Breckenridge,2022-07-26 Anyone who will, in the spirit of humility and sincere desire, study and learn how to use the ideas contained in this book, can enjoy a full measure of happiness, health and prosperity according to his individuality. There is an infinite abundance in this universe. Not only is there an infinite abundance of happiness, faith, love, courage, joy, humility, wisdom, generosity, peace, gentleness, meekness, patience, kindness, and all such qualities one could ever desire to express habitually, but there is an infinite abundance of every material thing that one could ever desire to have in order to express his individuality. The reason that so many people do not have the above in abundance is not because there is any shortage, it is simply because they are not aware of how to push the right button of appropriation. All things that one desires are available to one who understands the Laws of Appropriation. In other words, there is a simple set of rules by which all things are obtained, which anyone who really wants to learn them can learn and then be whatever he wants to be and have whatever he wants to have.

Summary of Frank W. Abagnale's Scam Me If You Can Everest Media,2022-04-23T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 I first met Frank Abagnale in 1995, when I was a newly appointed supervisor in the Financial Institution Fraud Unit. He was a consultant for the FBI, and he gave talks about bank fraud and its prevention. His commitment to providing these presentations never ceased. #2 The real Frank Abagnale is a brilliant man who has pulled off many capers, but he is also one of the most humble and soft-spoken people you will ever meet. He not only provokes thought but also helps people change their behavioral acumen. #3 I've known Frank for longer than I can remember, and he has always been there for me. He has helped me with my career, and in turn, changed my life. I've never understood why he does all this, nor have I ever asked him for an explanation.
