Rob Benson

The Lemon Car Consumer Handbook Rob Benson,2011-07-31 Many people purchase a vehicle and then drive away to find out that it actually doesn't drive well. Did they buy a lemon or not? A lemon car is a defective car which you buy at extremely bargain price without being aware of all its mechanical flaws. There are many factors to consider before you can claim if you positively have a lemon. What makes a car a lemon? You might think you have a lemon but you actually don't. Your car might have enough defects that it really qualifies as being a lemon. Did you know that even though the car drives okay that it may still be a lemon? Consumers don't realize that they have rights when they buy new or used cars that turn out to be lemons. If you sign the papers on a new or used car in a dealership and then drive away to find the car doesn't work you can do something about it. There are laws for lemon cars. All states comply with the Uniform Commercial Code. This book will provide all the information to help you with: 1) How to check if your car is a lemon or not 2) Find out if your car qualifies as a lemon even after many repair attempts 3) What you can do if your car is a lemon If you have a lemon car, use the lemon laws so you don't have to be stuck with a lemon any longer!

It is the first comprehensive, authoritative account of Tucker's magnificent car and his battles with the government. And in this book, Lehto finally answers the question automobile aficionados have wondered about for decades: exactly how and why the production of such an innovative car was killed.

I call this type of vehicle a Clunker, and hence the title *Ending Clunkerphobia*, or ending your fear of buying a lemon for a used car. If you are like most people, this has happened to you. The object of this book is to give you some practical information that you can use to reduce the likelihood that the next used car you purchase will be one that spends more time in the repair shop than it does in your driveway. You will be provided with ideas of where and how to find the best used cars on the market today. Once you have decided how much you can afford to pay, you will be given the knowledge to determine how much you should expect to pay for that car. For the first time, you will know BEFORE the fact that you are about to be RIPPED OFF. You will learn about the sales routines used by all car salesmen. You will learn what they really are telling you, what they are telling you by what they won't say, how to control the sales process, what your rights are, and mistakes that you should no longer make. You will be given sound advice about where to obtain the best financing available for you. Lastly, you will be given the information you need to thoroughly check out a used car. You will never again buy a car that immediately has to go into the repair shop. You will be provided with a 12 point GREASELESS Mechanical systems check that anyone can use. It requires no special knowledge or training to perform. You are given separate checklists for evaluating late model used cars, and older used cars. If you apply all of the knowledge contained in this book to your next car purchase, you could easily save thousands of dollars
