Comparison between Internet Fax Services Dr. Hidaia Mahmood Alassouli, 2021-05-24 Internet faxing uses the same principles as facsimile transmission, but it uses a Web interface instead of a fax machine. It can be a flexible, inexpensive option for transmitting documents. Internet fax services usually assign a fax number to each person who signs up for the service. people can send faxes to this number, and customers can send faxes via e-mail without using a fax machine. To send a fax through an Internet fax service:

- The sender attaches a document to an e-mail message. The document can be a scan of a paper document, or it can be created in a program like Microsoft Word.
- The sender addresses the message to the recipient's fax number, followed by the name of the faxing service (for example: 18005551234@emailfaxes.com).
- The service translates the attachment so that a fax machine can read it.
- The service sends the data across the phone line.
- The recipient's fax machine decodes the data and prints the fax.

To receive a document from a traditional fax machine through an Internet fax service:

- The sender dials the fax number that the service has assigned to the recipient.
- The fax machine translates the data and transmits it over the phone line.
- The service receives the data, translates it into an image file and sends the image to the recipient's e-mail address.
- The recipient opens the e-mail message and the attachment and views the file.

As getting cheap internet fax service is important, I tried to look for cheap internet fax service that can fax to any country worldwide and can also use PayPal as it is safe payment than credit card. Unfortunately, I could not find cheap fax service for international destination. All internet fax services offer only cheap services to the free zones countries such as USA and Canada. I could not find cheap service to international destinations. Maybe the best of my search for faxing to international destination was FAX.PLUS that allows also paypal. But when I tried to subscribe to basic plan using paypal, paypal asked me to give them permission to access my registered credit card, and I refused that and so I could not subscribe. I will divide web sites that I had look to their internet fax services in the following groups

1-Part1: Websites that accept paypal payments and support faxing to international countries. Some of these are:

- Gotfreefax
- fax.to
- Faxfresh
- PamFax.biz
- Faxzero
- FAX.PLUS

2-Part2: Websites that accept only credit/debit card payments and support faxing to international countries

- Hellofax
- J2 global services vendors. It includes Metrofax, myfax, smartfax, efax, trustfax, rapidfax and fax.com

3-Part3: Websites that support faxing to USA and Canada only

- Nextiva
- FAXAGE
- FAXBetter

In this report, I will compare the internet fax services according to the cost for sending fax to United Arab Emirates. I will assume that I have three pages to be sent to any

fax number in UAE.

Just the Fax John Ross,1994 A telecommunications expert provides a full explanation of all features of all three versions of WinFax, with an emphasis on the most important tasks--sending and receiving faxes. The book provides detailed instructions for configuring a fax modem for WinFax and includes extensive troubleshooting information.

The Book of FAX Daniel Fishman, Elliot King,1988 Over one million professionals will buy a FAX machine next year and this book is the most current and comprehensive buyer's guide to FAX machines. Compact and non-technical, it provides information on buying and using this complex new technology which is rapidly changing the world of business and communications.
