Reflections from a Long Life and Creations Bud Vear,2022-03-04 I am now in the nighttime of my life. It has been a good life - no perfect, of course - but complete with challenges, accomplishments, disappointments, laughter and sadness. No two lives are the same, and my reflections will be from my unique experiences. They are not profound. You won't find my name in history books or on buildings. I consider myself an average persons. Unless I record my memories, they will soon be forgotten, so I am choosing to record them. Hopefully, you or someone will find them of interest. I will share my experiences, but, also, I will share what small amount of wisdom I have gathered during my lifetime. I have reached my 95th birthday as I share the following pages. I have always had a fascination with live theatre, and, since I discover3d a creative gene in my old age, I have chosen to include a group of short skits I have written. Hopefully, they will produce a smile or two, and, if you have desire to perform some of them, you have my permission to do so. Some have already been performed, and I include a list of those occasions. Before you start reading - you do plan to read, don't you - let me share with you what I believe to be the three things necessary for a happy life.

Spam vs. The Vampire Elizabeth Ann Scarborough,K. B. Dundee,2011-04 Spam and the other cats at website designer Darcy Dupres house are frantic with worry. Darcy walked out the door two (missed) wet meals ago and didn't return or send anyone else to look after her beloved furry friends. The other cats think she has abandoned them, but her office cat and (unbeknownst to her) protege, Spam, suspects darker forces are at work. Darcy's last project was helping a suspicious character who called himself Marcel deMontreal with a dating website for vampires and the women who dig them. Darcy thought Marcel was playing and besides, he paid her a lot of kitty litter to design the site. But before she can finish, the self-proclaimed vampire announces that he is coming to visit, and Darcy disappears. That and the-duh-black billowy figure with the white face and red eyes peering through the window seem like a dead giveaway to Spam. Using the computer knowledge he learned at his human's side, Spam escapes to the world beyond his home to find Darcy and save his family. When the other cats are rounded up and hauled to the shelter, Spam's only allies seem to be a hungry raccoon, some friendly deer, observant otters and the fact that Marcel happens to be allergic to cats.

Mafiaboy Michael Calce,Craig Silverman,2011-07-19 In 2000, an unknown attacker brought down the websites of Amazon, CNN, Dell, E-TRADE, eBay, and Yahoo!, inciting panic from Silicon Valley to the White House. The FBI, police, and independent security experts launched a manhunt as President Clinton convened a cyber security summit to discuss how best to protect America's information

infrastructure from future attacks. Then, after hundreds of hours of wiretapping, law enforcement officials executed a late-night raid and came face-to-face with the most wanted man in cyberspace: a fifteen-year-old whose username was “Mafiaboy.” Despite requests from every major media outlet, that young man, Michael Calce, has never spoken publicly about his crimes—until now. Equal parts true-crime thriller and exposé, Mafiaboy will take you on an electrifying tour of the fast-evolving twenty-first-century world of hacking—from disruptions caused by teens like Calce to organized crime and other efforts with potentially catastrophic results. It also includes a guide to protecting yourself online.

The Ransomware Hunting Team Renee Dudley, Daniel Golden,2022-10-25 A real-life technological thriller about a band of eccentric misfits taking on the biggest cybersecurity threats of our time. "What Michael Lewis did for baseball in Moneyball, Renee Dudley and Daniel Golden do brilliantly for the world of ransomware and hackers. Cinematic, big in scope, and meticulously reported, this book is impossible to put down." —Doug Stanton, New York Times bestselling author of In Harm's Way and Horse Soldiers Scattered across the world, an elite team of code crackers is working tirelessly to thwart the defining cyber scourge of our time. You've probably never heard of them. But if you work for a school, a business, a hospital, or a municipal government, or simply cherish your digital data, you may be painfully familiar with the team's sworn enemy: ransomware. Again and again, an unlikely band of misfits, mostly self-taught and often struggling to make ends meet, have outwitted the underworld of hackers who lock computer networks and demand huge payments in return for the keys. The Ransomware Hunting Team traces the adventures of these unassuming heroes and how they have used their skills to save millions of ransomware victims from paying billions of dollars to criminals. Working tirelessly from bedrooms and back offices, and refusing payment, they've rescued those whom the often hapless FBI has been unwilling or unable to help. Foremost among them is Michael Gillespie, a cancer survivor and cat lover who got his start cracking ransomware while working at a Nerds on Call store in the town of Normal, Illinois. Other teammates include the brilliant, reclusive Fabian Wosar, a high school dropout from Germany who enjoys bantering with the attackers he foils, and his protégé, the British computer science prodigy Sarah White. Together, they have established themselves as the most effective force against an escalating global threat. This book follows them as they put their health, personal relationships, and financial security on the line to navigate the technological and moral challenges of combating digital hostage taking. Urgent, uplifting, and entertaining, Renee Dudley and Daniel Golden's *The Ransomware Hunting Team* is a real-life technological thriller that illuminates a dangerous new era of cybercrime.
