The Book of Webmin, Or, How I Learned to Stop Worrying and Love UNIX R. Joe Cooper,2003 Publisher description

Fixing Britain Lord Digby Jones,2011-06-13 No nonsense solutions from the straight-talking face of British business. IF FUNDAMENTAL REFORM DOES NOT TAKE PLACE THEN WE ARE DEAD IN THE WATER. GLOBALISATION DOES NOT TAKE PRISONERS. BRITAIN MUST BECOME FIT FOR PURPOSE IN THE 21ST CENTURY. This is the explosive, first book from 'the face of British business', Lord Digby Jones. With a renowned, no-nonsense, straight-talking approach, he is one of the world's most acclaimed business commentators. In his candid and forthright style Fixing Britain puts the spotlight on critical national and international business issues and lays out the essential reform urgently needed for the growth of our nation. Knowledgeable, authoritative and independent, Digby highlights how untenable the status quo is in the UK, and sets out how Britain can get back in – and stay in – the globalised race. Sending a clear message to government, business leaders, strategists and the media, Fixing Britain explores the effective linkage of change at all levels, from Westminster to education, the public and private sectors, our social cohesion and our sense of common purpose. Digby is never afraid to say what others are thinking - this is the most explosive examination of the state of British business in years.

Rafael Viñoly Architects Philip Jodidio,Rafael Viñoly,2011 KEYNOTE: The definitive monograph highlighting the global works of the visionary hailed by The New York Times' Herbert Muschamp as the most elegant architect now practicing in the United States. For nearly half a century Rafael Vinoly has been driven by the belief that the responsibility of architecture is to elevate the public realm. While his early work in Argentina transformed the landscape of his native continent, his first major projects in New York--the John Jay College of Criminal Justice--and in Tokyo--the International Forum--established Vinoly as an international presence in architecture, whose buildings sustain a structural originality that transcends passing fads. This monograph features a chronological sampling of Vinoly's best work in the United States, Latin America, Europe, Asia, Africa and the Middle East. The large and small-scale projects encompass courthouses, private residences, athletic facilities, performing arts centers, museums, and educational buildings. Illustrated with photographs, plans, and drawings, and accented by Vinoly's personal reflection on his career, this volume brings together the achievements of one of today's most internationally acclaimed architects. AUTHOR: Rafael Vinoly was born in Uruguay and by the age of twenty was founding partner of Estudio de Arquitectura, which would become one of the largest design studios in Latin America. In 1983 he founded Rafael Vinoly Architects PC, a New York based firm that now has offices in London, Los Angeles, San Francisco, Chicago, and Abu Dhabi. Philip Jodidio has published numerous books on contemporary architecture, including *Architecture: Art and Architecture: Nature*. He lives in Grimentz, Switzerland. ILLUSTRATIONS 500 colour illustrations

Why Vietnam Invaded Cambodia Stephen J. Morris,1999 Morris examines the, first and only extended war between two communist regimes.

Mathematics and Humor John Allen Paulos,2008-08-04 John Allen Paulos cleverly scrutinizes the mathematical structures of jokes, puns, paradoxes, spoonerisms, riddles, and other forms of humor, drawing examples from such sources as Rabelais, Shakespeare, James Beattie, René Thom, Lewis Carroll, Arthur Koestler, W. C. Fields, and Woody Allen. Jokes, paradoxes, riddles, and the art of non-sequitur are revealed with great perception and insight in this illuminating account of the relationship between humor and mathematics.—Joseph Williams, New York Times 'Leave your mind alone,' said a Thurber cartoon, and a really complete and convincing analysis of what humour is might spoil all jokes forever. This book avoids that danger. What it does. . .is describe broadly several kinds of mathematical theory and apply them to throw sidelights on how many kinds of jokes work.—New Scientist Many scholars nowadays write seriously about the ludicrous. Some merely manage to be dull. A few—like Paulos—are brilliant in an odd endeavor.—Los Angeles Times Book Review

The Penguin History of Modern Vietnam Christopher Goscha,2016-06-30 WINNER OF THE AMERICAN HISTORICAL ASSOCIATION'S JOHN K. FAIRBANK PRIZE SHORTLISTED FOR THE CUNDHILL HISTORY PRIZE 2017 'This is the finest single-volume history of Vietnam in English. It challenges myths, and raises questions about the socialist republic's political future' Guardian 'Powerful and compelling. Vietnam will be of growing importance in the twenty-first-century world, particularly as China and the US rethink their roles in Asia. Christopher Goscha's book is a brilliant account of that country's history.' - Rana Mitter 'A vigorous, eye-opening account of a country of great importance to the world, past and future' - Kirkus Reviews Over the centuries the Vietnamese have been both colonizers themselves and the victims of colonization by others. Their country expanded, shrunk, split and sometimes disappeared, often under circumstances far beyond their control. Despite these often overwhelming pressures, Vietnam has survived as one of Asia's most striking and complex cultures. As more and more visitors come to this extraordinary country, there has been for some years a need for a major history - a book which allows the outsider to understand the many layers left by earlier emperors, rebels, priests and colonizers. Christopher Goscha's new work amply fills this role. Drawing on a lifetime of thinking about Indo-China, he has created a narrative which is consistently seen from 'inside' Vietnam but never loses sight of the connections to the 'outside'. As wave after wave of invaders - whether Chinese, French, Japanese or American - have been ultimately expelled, we see the terrible cost to the Vietnamese themselves. Vietnam's role in one of the Cold War's longest conflicts has meant that its past has been endlessly abused for propaganda purposes and it is perhaps only now that the events which created the modern state can be seen from a truly historical perspective. Christopher Goscha draws on the latest research and discoveries in Vietnamese, French and English. His book is a major achievement, describing both the grand narrative of Vietnam's story but also the byways, curiosities, differences, cultures and peoples that have done so much over the centuries to define the many versions of Vietnam.

Comparative Politics of Southeast Asia Aurel Croissant,Philip Lorenz,2017-12-26 This textbook provides a comprehensive introduction to the political systems of all ASEAN countries and Timor-Leste from a comparative perspective. It investigates the political institutions, actors and processes in eleven states, covering democracies as well as autocratic regimes. Each country study includes an analysis of the current system of governance, the party and electoral system, and an assessment of the state, its legal system and administrative bodies. Students of political science and regional

studies will also learn about processes of democratic transition and autocratic persistence, as well as how civil society and the media influence the political culture in each country.

Vietnam Martin Gainsborough,2013-07-04 Vietnam: Rethinking the State offers an exciting and up-to-date look at the politics of this fascinating country as it seeks to make the transition from war-torn economic backwater to a dynamic and modern society. The book argues for a move away from the commonly associated idea of 'reform', arguing for a deeper understanding of the concept and questioning the idea of state-retreat. The result is a path-breaking book which gets beneath the surface of Vietnam's politics in a way which few outsiders otherwise could.

Learning From Children Who Read at an Early Age Diana Hughes,Rhona Stainthorp,2012-10-12 Learning From Children Who Read at an Early Age is the result of a three-year research project in which the authors studied a group of children who learnt to read without being taught, from before they started school until the end of Year 2 when they were given their first National Curriculum assessments. Using this study as a framework for examining how children make progress over their time in Key Stage 1 across a range of literacy skills, the authors suggest guidelines which teachers can use to help all children progress with reading.

English Place Names Kenneth Cameron,1996 Since this work on English place-names was first published in 1961, a great deal of research has been undertaken, and material has been published which is of importance to the interpretation of individual names and the understanding of the significance of groups of place-names. This revised and updated edition explains the technique of place-name study, examines the types of place-name formation, both ancient and modern, and includes a new chapter on modern place-names. It covers names of Celtic, Anglo-Saxon, Scandinavian and French origin, those with Christian and pagan significance, those illustrating social and legal customs, and other associations.
