

India Against Corruption

Bilal A. Baloch

Anna Hazare Pradeep Thakur,2011 Provides an exhaustive study of the face of corruption in the Indian polity and the role of a lone crusader like Anna Hazare in cleaning it up. This book traces the history of various abortive attempts to frame a strong anti-corruption bill that could deter people occupying public offices and polluting democratic governance in India.

Anna Hazare ,2012

Corruption and Human Rights in India C. Raj Kumar,2011-08-12 The malaise of corruption has become deeply embedded in the political and social fabric of the Indian society. The increased frequency and scale of corruption have had deleterious effects on a wide range of issues. Corruption, therefore, must be viewed not just as an issue of law and order or of the criminal justice system; instead it has larger and adverse implications for development initiatives, transparency in administration, economic growth, access to justice, and human rights. This important and timely work adopts a new approach for analysing corruption—corruption as a violation of human rights. Highlighting the inherent deficiencies in the existing institutions, mechanisms, laws, and law enforcement agencies, the book strongly proposes the adoption of a multi-pronged strategy for eliminating corruption. This includes the creation of a new legislative framework, an effective institutional mechanism, a new independent and empowered commission against corruption, and greater participation of the civil society. It also compares India's experiences of combating corruption with many societies in Asia including Singapore and Hong Kong.

Be the Change 'Fighting Corruption' Dr Kiran Bedi,2012-10 Corruption has speeded so deeply into the systems of governance in India that the common man has lost faith in every administrative process. This wide-spread disease of corruption can only be cured by a total revamp of its political, investigative and prosecuting systems. What we are seeing all around us today is nothing but loot. Loot of very high scale to the extent we can't count the number of zeros. And as this started to unfold with line Commonwealth Games exposure, it got my goat. I started to be a part of a collective voice which became louder by the day. At times very shrill, not by choice, but by compelling circumstances. But all for one common cause -- a well governed India--a better India which makes us all prosperous and our next generation secure. This is the spirit behind this collection. If the corrupt can unite for their vested interest, why we, the victims, not unite for our own selves? Be the change!

A Crusade Against Corruption on the Neutral Path Manohar Manoj, 2019

Corruption Free India Yasir Hussain, 2011-12-01 This book attempts to address the major issues concerning corruption in India. Presenting an overview of corruption in the country, it discusses at length its types, causes, consequences and cures. Giving a detailed account of major scandals India has witnessed, it examines the existing laws to tackle corruption in the country. Anti-corruption movement, the issue of Lokpal and the right to information also find place in the discussion.

CULTURE OF CORRUPTION IN INDIA SATISHCHANDER YADAV,

Corruption and Human Rights V.N. Vishwanathan, 2012-05-07 This book establishes the link between human rights and corruption. The contributors of this book are well known academicians, civil servants, judges, lawyers and social activists. Corruption is so pervasive in India that it has turned public service for many into a kind of criminal enterprise. The human rights based approach with its main elements of linkage to rights, accountability, empowerment and attention to disadvantaged groups, has been developed specifically to address these inequalities and to ensure that the poor and disadvantaged are also equal partners in development.

Protest Publics Nina Belyaeva, Victor Albert, Dmitry G. Zaytsev, 2019-05-10 This book examines the waves of protest that broke out in the 2010s as the collective actions of self-organized publics. Drawing on theories of publics/counter-publics and developing an analytical framework that allows the comparison of different country cases, this volume explores the transformation from spontaneous demonstrations, driven by civic outrage against injustice to more institutionalized forms of protest. Presenting comparative research and case studies on e.g. the Portuguese Generation in Trouble, the Arab Spring in Northern Africa, or Occupy Wall Street in the USA, the authors explore how protest publics emerge and evolve in very different ways – from creating many small citizen groups focused on particular projects to more articulated political agendas for both state and society. These protest publics have provoked and legitimized concrete socio-political changes, altering the balance of power in specific political spaces, and in some cases generating profound moments of instability that can lead both to revolutions and to peaceful transformations of political institutions. The authors argue that this recent wave of protests is driven by a new type of social actor: self-organized publics. In some cases these protest publics can lead to democratic reform and redistributive policies, while in others they can produce destabilization, ethnic and nationalist populism, and authoritarianism. This book will help readers to better understand how seemingly spontaneous public events and protests evolve into meaningful, well-structured collective action and come to shape political processes in diverse regions of the globe.

Corruption and Anti-corruption Peter Larmour, Nick Wolanin, 2013-03-01 Corruption and Anti-Corruption deals with the international dimensions of corruption, including campaigns to recover the assets

of former dictators, and the links between corruption, transnational and economic crime. It deals with corruption as an issue in political theory, and shows how it can be addressed in campaigns for human rights. It also presents case studies of reform efforts in Philippines, India and Thailand. The book explains the doctrines of a well-established domestic anticorruption agency. It is based on research to develop a curriculum for a unique international training course on 'Corruption and Anti-Corruption', designed and taught by academics at The Australian National University, the Australian Institute of Criminology and public servants in the New South Wales Independent Commission Against Corruption.

Combating Corruption Yogesh Atal, Sunil Kumar Choudhary, 2014

Discourses on Corruption Kalpana Kannabiran, Hollstein, Bettina, Florian F Hoffmann, 2021-11-01

Corruption, often described as all that is rotten in the modern society, has become an increasingly dominant theme in contemporary political discourse, one that is related to specific practices, concepts and evaluations that vary across regions, cultures, spheres of action and disciplines. This volume, through case studies, investigates corruption in the Global South (especially India and Brazil) and West (especially Switzerland) to gain a more nuanced view of the phenomenon. The chapters in this volume are organized into two loosely structured and overlapping parts: the first part consisting of Chapters 2-5 covers conceptual questions related to corruption discourses from different perspectives such as economic ethics, social capital theory and literature; the second part consisting of Chapters 6-11 details the complexity and diversity of corruption practices within and between countries and regions, providing different interpretative frameworks, which in turn flow into discourses on corruption.

When Ideas Matter Bilal A. Baloch, 2021-07-31 Comparativist scholarship conventionally gives unbridled primacy to external, material interests—chiefly votes and rents—as proximately shaping political behaviour. These logics tend to explicate elite decision-making around elections and pork barrel politics but fall short in explaining political conduct during credibility crises, such as democratic governments facing anti-corruption movements. In these instances, Baloch shows, elite ideas, for example concepts of the nation or technical diagnoses of socioeconomic development, dominate policymaking. Scholars leverage these arguments in the fields of international relations, American politics, and the political economy of development. But an account of ideas activating or constraining executive action in developing democracies, where material pressures are high, is found wanting. Resting on fresh archival research and over 120 original elite interviews, *When Ideas Matter* traces where ideas come from, how they are chosen, and when they are most salient for explaining political behaviour in India and similar contexts.

Combating Corruption in India Arvind Verma, Ramesh Sharma, 2018-11-30 As corruption continues to be a persistent problem in India, concerned citizens believe empowered police agencies independent of political control are effective ways to deal with corrupt officials and politicians. What is corruption and how is it facilitated? What are the appropriate agencies to combat corruption professionally in India? Why are these not effective in deterring corrupt practices? Are the alternative solutions to tackle corruption successful? This book seeks to engage with these questions, discuss and analyze them, and conduct a thorough analysis of law, bureaucratic organizations, official data, case studies and comparative international institutions. It analyzes vast data to argue that a corrupt state only maintains the façade of rule of law but

will not permit any inquiry beyond that of individual deviance. Using criminological perspectives, it presents a novel mechanism, the 'Doctrine of Good Housekeeping', for public officials to combat and prevent corruption within their own institutions.
