Find out about some of Indonesia’s unique animals, plants, and festivals as you cook and craft your way through the country. You can also dye a T-shirt using the ancient art of batik. With a few art supplies, a large bag of rice, and a dash of curiosity, you can host your own Indonesian selamatn (party)!

In this famous twenty-four-day teaching on the lamrim, or stages of the path, Pabongka Rinpoche weaves together lively stories and quotations with frank observations and practical advice to move readers step by step along the journey to buddhahood. When his student Trijang Rinpoche first edited and published these teachings in Tibetan, an instant classic was born. The flavor and immediacy of the original Tibetan are preserved in Michael Richards' fluid and lively translation, which is now substantially revised in this new edition.

The British Occupation of Indonesia: 1945-1946 Richard McMillan,2006-05-17 This is the first work to systematically examine the British occupation of Indonesia after the Second World War. The occupation by British-Indian forces between 1945 and 1946 bridged the gap between the surrender of Japan and the resumption of Dutch rule, and this book is a reappraisal of the conduct on the ground of that British Occupation. Contrary to previous studies, this book demonstrates that occupation was neither exclusively pro-Dutch nor pro-Indonesian; nor was it the orderly affair portrayed in the official histories. Richard McMillan draws upon a wide range of sources previously unavailable to scholars - such as recently declassified government papers and papers in private archives; he has also carried out revealing interviews with key players. Presenting a wealth of new information, this highly original and well-written book, will appeal to scholars of European Imperialism, the Second World War, military history and the history of South and Southeast Asia. It will also be relevant to a wide range of undergraduate courses in History.

The Valley of Hope David N. Sanders,2012-08-15 Set in the early 1970s, The Valley of Hope follows a group of expatriates, predominately Americans and Australians, who are engaged at the forefront of Indonesia's ambitious quest for petroleum riches. They

work for the Indonesian company NUKI—Nusa Udara Kisaran Indonesia (Island Helicopters Indonesia)—the largest helicopter operator in Indonesia. It operates a fleet of venerable Huey helicopters of Vietnam War fame—the same helicopter that is being featured daily, along with body-counts from the war, on prime-time TV. For the multitude of oil field workers and support personnel manning the rigs in the interior of Borneo, the Huey is their only link to civilization and perhaps their only chance for survival if they became injured or afflicted with illness. The Huey is both life and death. Due to the rigorous demands on both the flight crews and the aircraft, accidents are a frequent occurrence. Most NUKI employees approach life with a lighthearted attitude and strive to do everything possible to make their existence in Indonesia more enjoyable. Even so, some of them are in the process of coming to terms with the traumas of their wartime experiences, while others are dealing with relationship problems. The Valley of Hope provides glimpses of Indonesian customs and culture that help to explain how decades of endemic corruption have resulted in the turmoil and political instability that is shattering Indonesia today.

A Gecko for Luck Horst H. Geerken, 2015-05-05 The large house gecko, called tokek, is regarded as a lucky talisman by the Indonesians. When its 'Toke' resounds in the night, they count how many times it calls, both in town and in the country, and this number determines how lucky the call is. Only an odd number is lucky: seven is already quite good, but nine promises the peak of success and good fortune. The author has spent 18 years in Indonesia and helped the young independent country in its development and construction on the sectors of telecommunications, electrotechnical and solar power engineering. Amusing and interesting events from his private and professional life during those years make this book historically interesting and also humorous reading for anyone who is interested in getting to know Indonesia off the beaten tourist track. The author and his family had tokeks in both their house in Jakarta and their weekend home in Carita. He often has heard nine successive calls, and the prophecy was fulfilled: Indonesia has brought the author luck and happiness.
