Musical Nationalism in Indonesia Sharifah Faizah Syed Mohammed,2021-04-21 This book charts the growth of the Indonesian nationalistic musical genre of lagu seriosa in relation to the archipelago's history in the 1950s and 1960s, examining how folk songs were implemented as a valuable tool for promoting government propaganda. The author reveals how the genre was shaped to fit state ideologies and agendas in the Sukarno and Soeharto eras. It also reveals the very significant role played by Radio Republik Indonesia in the genre's development and dissemination. Little research has been done to investigate how Indonesian music contributed to nation-building during Indonesia's immediate post-colonial period. Emulating the European art song, the genre was adapted to compose songs with the purpose of promoting a strengthened collective Indonesian identity, fostered by a group of musicians who functioned as gatekeepers, monitoring and devising various mechanisms for songs to conform to the propagandistic needs of the Indonesian government at the time. The result was the development of classical style of singing and the cultivation of a patriotic collection of music during the Guided Democracy period (1959-1965), which peaked at the height of the Konfrontasi (1963-1966). Lagu seriosa lost popularity as popular music infiltrated Indonesia in the 1970s, but it remains an iconic yet understudied aspect of the nationalistic agenda in Indonesia. The case studies of selected songs reflected continuity and change in musical style and over time. This book is of interest to scholars studying the intersection between history, politics, identity, arts and cultural studies in Indonesia. It is also of interest to researchers investigating the role of music in identity formation and nation-building more widely.

Inventing the Performing Arts Matthew Isaac Cohen,2016-02-29 Indonesia, with its mix of ethnic cultures, cosmopolitan ethos, and strong national ideology, offers a useful lens for examining the intertwining of tradition and modernity in globalized Asia. In *Inventing the Performing Arts*, Matthew Isaac Cohen explores the profound change in diverse arts practices from the nineteenth century until 1949. He demonstrates that modern modes of transportation and communication not only brought the Dutch colony of Indonesia into the world economy, but also stimulated the emergence of new art forms and modern attitudes to art, disembedded and remoored traditions, and hybridized foreign and local. In the nineteenth century, access to novel forms of entertainment, such as the circus, and newspapers, which offered a new language of representation and criticism, wrought fundamental changes in theatrical, musical, and choreographic practices. Musical drama disseminated print literature to largely illiterate audiences starting in the 1870s, and spoken drama in the 1920s became a vehicle for exploring social issues. Twentieth-century institutions—including night fairs, the recording industry, schools, itinerant theatre, churches, cabarets, round-the-world cruises, and amusement parks—generated new ways of making, consuming, and comprehending the performing arts. Concerned over the loss of tradition and Eastern values, elites codified folk arts, established cultural preservation associations, and experimented in modern stagings of ancient stories. Urban nationalists excavated the past and amalgamated ethnic cultures in dramatic productions that imagined the Indonesian nation. The Japanese occupation (1942-1945) was brief but significant in cultural impact: plays, songs, and dances promoting anti-imperialism, Asian values, and war-time austerity measures were created by Indonesian intellectuals and artists in collaboration with Japanese and Korean civilian and military personnel. Artists were registered, playscripts censored, training programs developed, and a Cultural Center established. Based on more than two decades of archival study in Indonesia, Europe, and the United States, this richly detailed, meticulously researched book demonstrates that traditional and modern artistic forms were created and conceived, that is invented, in tandem. Intended as a general historical introduction to the performing arts in Indonesia, it will be of great interest to students and scholars of Indonesian performance, Asian traditions and modernities, global arts and culture, and local heritage.

Indonesian Intentions Towards Malaysia Malaysia,1964

Language, Identity, and Marginality in Indonesia Joel C. Kuipers,1998-09-10 Indonesia's policy since independence has been to foster the national language. In some regions, local languages are still political rallying points, but their significance has diminished, and the rapid spread of Indonesian as the national language of political and religious authority has been described as the 'miracle of the developing world'. Among the Weyewa, on the island of Sumba, this shift has displaced a once vibrant tradition of ritual poetic speech, which until recently was an important source of authority, tradition, and identity. But it has also given rise to new and hybrid forms of poetic expression. This first study to analyse language change in relation to political marginality argues that political coercion or cognitive process of 'style reduction' may partially explain what has happened, but equally important in language shift is the role of linguistic ideologies.

Indonesia Florence Lamoureux,2003-12-02 A one-stop source for essential information on the history, geography, politics, religion, economy, and culture of the fourth-most-populous country in the world. Indonesia examines precolonial periods of the country's development, as well as its independence movement. It discusses the economic collapse of the 1990s and how the resultant civil chaos impacted Indonesia's present political and social problems and its neighbors. This book also looks at the secessionist movements in West Papua and Aceh and the religious conflict in eastern Indonesia. In addition to current events, the coverage focuses on important individuals, from Javanese nobles to President Sukarno, whom some considered to be a Japanese collaborator during World War II. This is the book to have for an intriguing and enlightening glance at Indonesia.

Indonesian Destinies Theodore Friend,2009-07-01 How can such a gentle people as we are be so murderous? a prominent Indonesian asks. That question--and the mysteries of the archipelago's vast contradictions--haunt Theodore Friend's remarkable work, a narrative of Indonesia during the last half century, from the postwar revolution against Dutch imperialism to the unrest of today. Part history, part meditation on a place and a past observed firsthand, Indonesian Destinies penetrates events that gave birth to the world's fourth largest nation and assesses the continuing dangers that threaten to tear it apart. Friend reveals Sukarno's character through wartime collaboration with Japan, and Suharto's through the mass murder of communists that brought him to power for thirty-two years. He guides our understanding of the tolerant forms of Islam prevailing among the largest Muslim population in the world, and shows growing tensions generated by international terrorism. Drawing on a deep knowledge of the country's cultures, its leaders, and its ordinary people, Friend gives a human face and a sense of immediacy to the self-inflicted failures and immeasurable tragedies that cast a shadow over Indonesia's past and future. A clear and compelling passion shines through this richly illustrated work. Rarely have narrative history and personal historical witness been so seamlessly joined.

Visual Research and Indonesian Ethnography Karl Heider,2021-09-28 This book focuses on how visual records - mainly on film or video - can provide data for research and presents a variety of visual projects drawn from ethnographic fieldwork in Indonesia. Karl Heider argues for the expansion of visual anthropology - or anthropology with a camera - beyond descriptive ethnographic film into actual use of the camera as a research tool. The chapters explore several ways in which camera-generated materials can complement and support what anthropologists already do in their research. Heider includes samples from fieldwork in Indonesia conducted over a number of years, particularly in New Guinea and Sumatra with groups including the Dani and Minangkabau. His studies combine visual and psychological anthropology and provides insight into the analysis of emotions in particular. Intended to inspire new approaches to the ethnographic enterprise, the book is valuable for scholars of visual anthropology and Southeast Asia.
