*The Book of Barkley* L. B. Johnson,2014-07-24 L.B. Johnson knew how to get things done. She had been immersed in a world of complex puzzles, and tangled story lines of physical and governmental laws. She was quite sure she was up to the task of raising a black Labrador retriever puppy. His name was Barkley, and in being himself, he led his owner down a path of joyful discovery, loving frustration, and self-sacrifice. Their journey together will

speaking volumes to anyone who has ever had a beloved animal as a heart's companion...from the gentle nuzzles that healed in moments of crisis, to the saintly patience needed to deal with a small pink ball with feet, named "Mr. Squeaky," who interrupted many hours of sleep. It is the story of rambunctious trespasses such as "the bacon incident," and the loving trust that bound a woman and her dog together in unspoken understanding. The Book of Barkley is a tribute and memoir that will resonate with everyone who has reached out unthinking to pet a beloved animal...only to remember that a beloved friend is no longer present. Honest, transcendent, and beautifully written, The Book of Barkley is a love story that will enrich every animal lover's library.

*Is Life Worth Living Without Labs?* Jay, 2014-02-26 Near the banks of the Missouri River in northwest Missouri is where Jay Gore spent the first 18 years of his life. At age 10, he hunted small game in woodlots at his families' farm. He hunted the millions of ducks and geese that used the Missouri River as a corridor for migration. This horde of waterfowl gave Mr. Gore the spark to pursue a career in wildlife management. He obtained BS (1963) and MS (1965) degrees at South Dakota State University and the University of Maine respectively. He was a senior waterfowl biologist for 6 years with the Tennessee Fish and Game Commission. He had a 30-year career with three Federal agencies, U.S. Army Corps of Engineers, U.S. Fish and Wildlife Service and USDA Forest Service. His first Labrador retriever possessed him at age 26 while living in Tennessee. He often wonders why people make the mistake of owning dog breeds other than Labs. After all, Labs are the perfect dog, not that he's biased or anything like that!
