Evidentiary Realism Paolo Cirio,Aude Launay,Blanca De la Torre,Giulia Bini,Heather Davis,Lauren Van Haaften-Schick,Jaroslav And€Ýl,Joshua Craze,Mary Anne Redding,Natasha Hoare,Nicola Trezzi,Nijah Cunningham,Sampada Aranke,Susan Schuppli,Susanne Leeb,Susette Min,2019-04-27 Evidentiary Realism aims to articulate a particular form of realism in art that portrays and reveals evidence from complex social systems. ...Evidentiary Realism focuses on artworks that prioritize formal aspects of visual language and mediums; diverging from journalism and reportage, they strive to provoke visual pleasure and emotional responses. The evidence is presented through photography, film, drawing, painting, and sculpture, with strong references to art history. In particular, these artists also theoretically articulate the aesthetic, social and documentary functions of their mediums in relation to the subject matter they investigate--Page 1.

Images Rights Paolo Cirio,Louise Wolthers,2020 Paolo Cirio presents the three series of works Attention, Property, and Derivatives in his solo show Images Rights at NOME Gallery in Berlin. The exhibition Images Rights expands upon Cirio's concept of Internet Photography, with a particular focus on the economic, legal, and semantic values of photos circulating online. These Cirio's works explore modes of appropriation art to address the political economy of images. Rather than authorship, these artworks problematize the ownership, liability, and social responsibility of the production and distribution of photos on the Internet. The series Attention, Property, and Derivatives each examine, respectively: images as currency of the attention economy, images as capital, and images as finance.

A Dictionary of Chinese Buddhist Terms ,2003-12-18 This invaluable interpretive tool, first published in 1937, is now available for the first time in a paperback edition specially aimed at students of Chinese Buddhism. Those who have endeavoured to read Chinese texts apart from the apprehension of a Sanskrit background have generally made a fallacious interpretation, for the Buddhist canon is basically translation, or analogous to translation. In consequence, a large number of terms existing are employed approximately to connote imported ideas, as the various Chinese translators understood those ideas. Various translators invented different terms; and, even when the same term was finally adopted, its connotation varied, sometimes widely, from the Chinese term of phrase as normally used by the Chinese. For instance, klésa undoubtedly has a meaning in Sanskrit similar to that of, i.e. affliction, distress, trouble. In Buddhism affliction (or, as it may be understood from Chinese, the afflicters, distressers, troublers) means passions and illusions; and consequently fan-nao in Buddhist phraseology has acquired this technical connotation of the passions and illusions. Many terms of a similar character are noted in the body of this work. Consequent partly on this use of ordinary terms, even a well-educated Chinese without a knowledge of the technical equivalents finds himself unable to understand their implications.

100 Words To Make You Sound Smart American Heritage Dictionaries,2006-10-04 Find the right words to make a point, seal the deal, or just keep folks listening! Chosen by the editors of the American Heritage Dictionaries, these words can help anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an enjoyable way to communicate more effectively, distinctively, and articulately.

   I Am Aspiengirl Tania Marshall,2014-06-30 Have you ever wondered why she says she feels different to her peers? Wondered why life seems challenging for her? Her peers seem to gracefully and naturally meet their milestones, yet she has reached some developmental milestones early and some late. She may have spoken and read early, asking an endless array of questions. Maybe at age four she was teaching herself to read as you drove down the road by reading street signs. She may have been an overly active child, had sensory issues, or had a speech delay. You knew she was bright from early on, with a sprinkle of some anxiety, social and eating issues, yet the professionals just cannot find an explanation that completely fits her. She may be very artistic, whether she sings, draws, paints, or writes, at times, too mature for her age. Yet, she struggles socially and emotionally, acting and appearing younger than her peers. She may be ten years old now, yet none of your research completely fits her or maybe you have just now come across some information on females that completely makes sense to you. Maybe she is Aspien, a young female with Asperger Syndrome or High-Functioning Autism. She has a unique constellation of super-abilities, strengths and challenges. She may feel or say that she is from another Planet, Planet Aspien(r). If you are looking for a book on the often perplexing and unique female Autism Spectrum traits, then this is the book for you. Watch for I am AspienWoman, coming soon.
