»Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Textile Collage Mandy Pattullo, 2016-10-01 Textile artist and surface designer Mandy Pattullo marries fabric with collage techniques to produce beautiful pieces of art. In *Textile Collage* she shows a fresh way to use scraps and oddments of fabrics to create

something unique and personal, while also being economical – perfect for those who have hoarded bits of fabric, trim and memory-filled domestic textiles over the years. Chapter one covers 'Materials': collecting and sourcing fabric including unpicking and storing found fabric. In chapter two, 'Make', Mandy guides you through all the artistic and creative elements that you need to consider to create a beautiful collage. The following chapter 'Portray' looks at piecing together a collaged portrait – human or animal – showing the figurative approach in collage work that includes transfer images and using found photographs. In the chapter 'Worn', the collage technique is used to embellish skirts, jackets and accessories. The final chapter 'Book' looks at the fabric book as a receptacle for textile collage, with a range of approaches and forms explored. This is a wonderful resource for all textilers looking to make the most of the found fabrics they love and fully explore the technique of collage with textiles.

Architecture and Spectacle Gevork Hartoonian, 2012 Focusing on six leading contemporary architects: Peter Eisenman, Frank Gehry, Bernard Tschumi, Zaha Hadid, Rem Koolhaas and Steven Holl, this book puts forward a unique and insightful analysis of neo-avant-garde architecture. It discusses the spectacle and excess which permeates contemporary architecture in reference to the present aesthetic tendency for image making, but does so by applying the tectonic of theatricality discussed by the nineteenth-century German architect Gottfried Semper. In doing so, it breaks new ground by opening up a dialogue between the study of the past and the design of the present.

There's something for everyone in this cookbook, from small bites like Apple Chips and Kabalagala (Ugandan plantain fritters) to family-sized platters of Coconut Pineapple Rice and Siu Yoke (crispy roast pork belly). Crave exotic spices? You won't be able to resist the fragrant aromas of Fast Pho or Mulligatawny Soup. In the mood for down-home comforts? Make some Yankee Pot Roast or Chicken Nuggets drizzled with Lemon Honey Sauce. When a quick weeknight meal is in order, Nom Nom Paleo can show you how to make Crispy Smashed Chicken or Whole-Roasted Branzini in less than 30 minutes. And for a cold treat on a hot day, nothing beats Paleo-diet-friendly Mocha Popsicles or a two-minute Strawberry Banana Ice Cream. Eating healthy doesn't mean sacrificing flavor. This book gives you Paleo with personality, and will make you excited to play in the kitchen again.
