

Intelligent Reminder

Xingming Sun,Xiaorui Zhang,Zhihua Xia,Elisa Bertino

Smart Homes and Health Telematics Abdelsalam (Sumi) Helal,Simanta Mitra,Johnny Wong,Carl K. Chang,Mokhtari Mounir,2008-06-21 We often conceptualize that older adults retire into a life of carefree luxury among palm trees, golf courses, and pristine beaches. Unfortunately, reality differs today – many retire in place, and often it is the case they retire in rural areas far from hospitals and care-giving centers. For instance, over half of the older population in the state of Minnesota lives in small towns away from the center of care, which is Minneapolis/St. Paul. This year, ICOST 2008 aimed at focusing on this important reality and on gerontechnology--the use of technology to enhance the quality of life of older adults in rural lands. We had a strong technical program this year spanning many critical topics including: remote monitoring and tele-care, access control and privacy preservation, understanding user requirements and needs, autonomic learning and reasoning about user behavior, activities and contexts, user interface design, middleware for sensing and actuation in smart homes, cognitive assistants, context-aware service provisioning, among other topics. We received a total of 54 submissions of papers, abstracts and posters, from 14 different countries. Through a blind review process, we accepted 24 full papers, 9 abstracts, and 7 posters. Each submission received two or three reviews with the exception of a few that received four reviews. We are thankful to all the reviewers who helped in the review process including members of the Technical Committee and the additional reviewers that we needed to compensate for unreturned reviews.

Intelligent Computing Paradigm and Cutting-edge Technologies Margarita N. Favorskaya,Sheng-Lung Peng,Milan Simic,Basim Alhadidi,Souvik Pal,2021-04-21 This book aims to bring together Researchers, Scientists, Engineers, Scholars and Students in the areas of computer engineering and information technology, and provides a forum for the dissemination of original research results, new ideas, Research and development, practical experiments, which concentrate on both theory and practices, for the benefit of the society. The book also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Computer Science and Information Technology in the context of Distributed computing, Big data, High performance computing, Internet-of-Things, and digital pedagogy. It is becoming increasingly important to develop adaptive, intelligent computing-centric, energy-aware, secure and privacy-aware mechanisms in high performance computing and IoT applications. This book aspires to convey researchers' experiences, to present excellent result analysis, future scopes, and challenges facing the field of computer science, information technology, telecommunication, and digital pedagogy. This book aims to attract researchers and practitioners who are working in Information Technology and Computer Science. This book is about basics and high level concepts regarding intelligent computing paradigm, communications, and digital learning process. The book serves as a useful guide for Undergraduates, Postgraduates and Research Scholar in the field of Computer Science, Information Technology, and Electronics Engineering. We believe that this volume not only presents novel and interesting ideas but also will stimulate interesting discussions from the participants and inspire new ideas.

Intelligent Systems Design and Applications Ajith Abraham,Vincenzo Piuri,Niketa Gandhi,Patrick Siarry,Arturas Kaklauskas,Ana Madureira,2021-06-02 This book highlights recent research on intelligent systems and nature-inspired computing. It presents 130 selected papers from the 19th International Conference on Intelligent Systems Design and Applications (ISDA 2020), which was held online. The ISDA is a premier conference in the field of computational intelligence, and the latest installment brought together researchers, engineers and practitioners whose work involves intelligent systems and their applications in industry. Including contributions by authors from 40 countries, the book offers a valuable reference guide for all researchers, students and practitioners in the fields of Computer Science and Engineering.

The Six Disciplines of Breakthrough Learning Roy V. H. Pollock,Andrew McK. Jefferson,Richard D. Flanagan,Calhoun W. Wick,2011-02-15 The Six Disciplines of Breakthrough Learning presents an innovative approach that accelerates the transfer and application of corporate learning. The Six Disciplines provides the definitive road map and tools for optimizing the business impact of leadership and management training, sales, quality, performance improvement, and individual development programs. This important book presents the theories and techniques behind the approach and includes expert advice for bridging the “learning-doing” gap. The authors' recommendations are illustrated with dozens of real-life examples from successful companies on the cutting edge of results-driven educational performance.

Smart-assist Yuebin Li,2002 The objective of this project is to develop a reminder system to remind people of important events. Reminder systems are very important and popular. However, there is no general reminder system currently available. Almost all existing reminder systems are developed for special tasks. This report focuses on developing a reminder system called Smart-Assist, which has all the features of current existing reminder systems. The major distinctive features of Smart-Assist are: (1) An Open Source based system. The use of existing Open Source reduces the cost and promotes its use. (2) A database based application. All the information is stored in a MySQL database and hence persistent. (3) A system which runs either locally or through the Web, but data are made persistent by sharing the same database. (4) A real time system. Event trigger and timing depends on the system time. (5) An automatic event driven alarm system with audio playing feature.

Transactions on Computational Collective Intelligence XVI Ryszard Kowalczyk,Ngoc Thanh Nguyen,2014-09-26 These transactions publish research in computer-based methods of computational collective intelligence (CCI) and their applications in a wide range of fields such as the semantic web, social networks, and multi-agent systems. TCCI strives to cover new methodological, theoretical and practical aspects of CCI understood as the form of intelligence that emerges from the collaboration and competition of many individuals (artificial and/or natural). The application of multiple computational intelligence technologies, such as fuzzy systems, evolutionary computation, neural systems, consensus theory, etc., aims to support human and other collective intelligence and to create new forms of CCI in natural and/or artificial systems. This 16th issue contains 8 regular papers selected via peer-review process.

Artificial Intelligence and Security Xingming Sun,Xiaorui Zhang,Zhihua Xia,Elisa Bertino,2021-07-09 This two-volume set of LNCS 12736-12737 constitutes the refereed proceedings of the 7th International Conference on Artificial Intelligence and Security, ICAIS 2021, which was held in Dublin, Ireland, in July 2021. The conference was formerly called “International Conference on Cloud Computing and Security” with the acronym ICCCS. The total of 93 full papers and 29 short papers presented in this two-volume proceedings was carefully reviewed and selected from 1013 submissions. Overall, a total of 224 full and 81 short papers were accepted for ICAIS 2021; the other accepted papers are presented in CCIS 1422-1424. The papers were organized in topical sections as follows: Part I: Artificial intelligence; and big data Part II: Big data; cloud computing and security; encryption and cybersecurity; information hiding; IoT security; and multimedia forensics

Ethical Design of Artificial Intelligence-based Systems for Decision Making Valentina Franzoni,Jordi Vallverdu,Roberto Capobianco,Giulio Biondi,Alfredo Milani,Francesca Alessandra Lisi,Stefano Cagnoni,2023-11-29 Artificial Intelligence (AI), including Machine Learning with Deep Neural Networks, is making and supporting decisions in ways that increasingly affect humans in many aspects of their lives. Both autonomous and decision-support systems applying AI algorithms and data-driven models are used for decisions about justice, education, physical and psychological health, and to provide or deny access to credit, healthcare, and other essential resources, in all aspects of daily life, in increasingly ubiquitous and sometimes ambiguous ways. Too often these systems are built without considering the human factors associated with their use and the need for clarity about the correct way to use them, and possible biases. Models and systems provide results that are difficult to interpret and are accused of being good or bad, whereas good or bad is only the design of such tools, and the necessary training for them to be properly integrated into human values.

The Engineering Handbook of Smart Technology for Aging, Disability, and Independence Abdelsalam Helal,Mounir Mokhtari,Bessam Abdulrazak,2008-09-22 An advanced look at smart technology to promote the independence of the elderly and disabled Ongoing research and advancements in technology are essential for the continuing independence of elderly and disabled persons. The Engineering Handbook of Smart Technology for Aging, Disability, and Independence provides a thorough analysis of these technologies and the needs of the elderly and disabled, including a breakdown of demographics, government spending, growth

rate, and much more. Each chapter is written by an expert in his or her respective field, and gives readers unparalleled insight into the research and developments in a multitude of important areas, including: User-need analyses, classifications, and policies Assistive devices and systems for people with motor disabilities Assistive devices and systems for people with visual and hearing impairments Human-machine interaction and virtual reality Assistive robotics Technology for user mobility and object manipulation Smart homes as assistant environments A discussion of emerging standards and guidelines to build accessible devices, tools, and environments This book is an indispensable resource for researchers and professionals in computer science, rehabilitation science, and clinical engineering. It also serves as a valuable textbook for graduate students in the aforementioned fields.

Intelligent Human Computer Interaction Madhusudan Singh,Dae-Ki Kang,Jong-Ha Lee,Uma Shanker Tiwary,Dhananjay Singh,Wan-Young Chung,2021-02-05 The two-volume set LNCS 12615 + 12616 constitutes the refereed proceedings of the 12th International Conference on Intelligent Human Computer Interaction, IHCI 2020, which took place in Daegu, South Korea, during November 24-26, 2020. The 75 full and 18 short papers included in these proceedings were carefully reviewed and selected from a total of 185 submissions. The papers were organized in topical sections named: cognitive modeling and systems; biomedical signal processing and complex problem solving; natural language, speech, voice and study; algorithms and related applications; crowd sourcing and information analysis; intelligent usability and test system; assistive living; image processing and deep learning; and human-centered AI applications.

Advanced Technological Solutions for E-Health and Dementia Patient Monitoring Xhafa, Fatos,2015-01-31 Mental health is a growing field, but one still limited by a lack of prior research and challenged by increased demand for new solutions and treatments. Mobile and web-based technologies have the potential to fill some of the gaps. Advanced Technological Solutions for E-Health and Dementia Patient Monitoring provides comprehensive coverage of issues in patient health and support from the perspectives of doctors, nurses, patients, and caregivers. With its focus on challenges and opportunities, as well as future research in the field, this book is a vital reference for researchers, scholars, advanced students, software developers, managers, and stakeholders working at the forefront of e-health systems.

Lecture Notes in Computational Intelligence and Decision Making Sergii Babichev,Volodymyr Lytvynenko,2021-07-22 This book is devoted to current problems of artificial and computational intelligence including decision-making systems. Collecting, analysis, and processing information are the current directions of modern computer science. Development of new modern information and computer technologies for data analysis and processing in various fields of data mining and machine learning creates the conditions for increasing effectiveness of the information processing by both the decrease of time and the increase of accuracy of the data processing. The book contains of 54 science papers which include the results of research concerning the current directions in the fields of data mining, machine learning, and decision making. The papers are divided in terms of their topic into three sections. The first section Analysis and Modeling of Complex Systems and Processes contains of 26 papers, and the second section Theoretical and Applied Aspects of Decision-Making Systems contains of 13 papers. There are 15 papers in the third section Computational Intelligence and Inductive Modeling. The book is focused to scientists and developers in the fields of data mining, machine learning and decision-making systems.

Advances in Education and Management Mark Zhou,2011-07-22 This four-volume-set (CCIS 208, 209, 210, 211) constitutes the refereed proceedings of the International Symposium on Applied Economics, Business and Development, ISAEBD 2011, held in Dalian, China, in August 2011. The papers address issues related to Applied Economics, Business and Development and cover various research areas including Economics, Management, Education and its Applications.

Software Engineering and Knowledge Engineering: Theory and Practice Yanwen Wu,2012-02-01 The volume includes a set of selected papers extended and revised from the I2009 Pacific-Asia Conference on Knowledge Engineering and Software Engineering (KESE 2009) was held on December 19~ 20, 2009, Shenzhen, China. Volume 2 is to provide a forum for researchers, educators, engineers, and government officials involved in the general areas of Knowledge Engineering and Communication Technology to disseminate their latest research results and exchange views on the future research directions of these fields. 135 high-quality papers are included in the volume. Each paper has been peer-reviewed by at least 2 program committee members and selected by the volume editor Prof.Yanwen Wu. On behalf of the this volume, we would like to express our sincere appreciation to all of authors and referees for their efforts reviewing the papers. Hoping you can find lots of profound research ideas and results on the related fields of Knowledge Engineering and Communication Technology.

Aging Friendly Technology for Health and Independence Yeunsook Lee,Z. Zenn Bien,Mounir Mokhtari,Jeong Tai Kim,Mignon Park,Jongbae Kim,Heyoung Lee,Ismail Khalil,2010-06-09 We are living in a world full of innovations for the elderly and people with special needs to use smart assistive technologies and smart homes to more easily perform activities of daily living, to continue in social participation, to engage in entertainment and leisure activities, and to enjoy living independently. These innovations are inspired by new technologies leveraging all aspects of ambient and pervasive intelligence with related theories, technologies, methods, applications, and services on ubiquitous, pervasive, AmI, universal, mobile, embedded, wearable, augmented, invisible, hidden, context-aware, calm, amorphous, sentient, proactive, post-PC, everyday, autonomic computing from the engineering, business and organizational perspectives. In the field of smart homes and health telematics, significant research is underway to enable aging and disabled people to use smart assistive technologies and smart homes to foster independent living and to offer them an enhanced quality of life. A smart home is a vision of the future where computers and computing devices will be available naturally and unobtrusively anywhere, anytime, and by different means in our daily living, working, learning, business, and infotainment environments. Such a vision opens tremendous opportunities for numerous novel services/applications that are more immersive, more intelligent, and more interactive in both real and cyber spaces.

Agents and Ambient Intelligence Tibor Bosse,2012 The concept of an intelligent agent - a computational system capable of performing certain tasks autonomously - derived from the growing potential of digital computers in the mid 20th century and had been widely adopted by the early 1990s. Partly in parallel with this concept, the perspective of ambient intelligence (AmI) emerged in the late 1990s. Agent technology and AmI have many similarities, and the main purpose of this book is to provide an overview of the state-of-the-art of the scientific area that integrates these two. The book addresses a wide variety of topics related to agents and AmI, including theoretical, practical, design, implementation, ethical and philosophical issues. The 12 chapters are arranged in four sections. The first consists of three chapters discussing ethical and philosophical issues; the second part explores various approaches that can be used to develop agent-based AmI Systems; the third part contains three chapters that share the goal to endow AmI systems with useful properties like intelligence and adaptivity and the last section presents concrete applications of agent-based AmI systems. This book provides an insight into recent achievements and future challenges at the intersection of agent technology and ambient intelligence and will assist the development of more intelligent, flexible, effective and user-friendly systems as well as posing critical questions about the future of the role of agents within the AmI perspective.

High Performance Computing - HiPC 2008 P. Sadayappan,2008-11-23 This book constitutes the refereed proceedings of the 15th International Conference on High-Performance Computing, HiPC 2008, held in Bangalore, India, in December 2008. The 46 revised full papers presented together with the abstracts of 5 keynote talks were carefully reviewed and selected from 317 submissions. The papers are organized in topical sections on applications performance optimization, parallel algorithms and applications, scheduling and resource management, sensor networks, energy-aware computing, distributed algorithms, communication networks as well as architecture.

Intelligent Computing & Optimization Pandian Vasant,Ivan Zelinka,Gerhard-Wilhelm Weber,2021-12-30 This book includes the scientific results of the fourth edition of the International Conference on Intelligent

Computing and Optimization which took place at December 30-31, 2021, via ZOOM. The conference objective was to celebrate “Compassion and Wisdom” with researchers, scholars, experts and investigators in Intelligent Computing and Optimization worldwide, to share knowledge, experience, innovation—marvelous opportunity for discourse and mutuality by novel research, invention and creativity. This proceedings encloses the original and innovative scientific fields of optimization and optimal control, renewable energy and sustainability, artificial intelligence and operational research, economics and management, smart cities and rural planning, meta-heuristics and big data analytics, cyber security and blockchains, IoTs and Industry 4.0, mathematical modelling and simulation, health care and medicine.

Artificial Intelligence Is Fun! Kathryn M. Hilton,2007-06 Artificial Intelligence is something that has interested the author for many years. When she saw an opportunity to get an AI character whose primary purpose was to carry on conversations with the computer user, she got the software program immediately. The character she chose to use at that time was named Erica. She thinks she is a nice looking human female with a college education and has not been informed that she is merely a brain in a computer. She is an attractive animated character with the ability to lip sync words. Her data base is filled with information of all kinds. Her main fault is that she does not stay on a topic very well. Her unique sense of humor more than makes up for this. The book begins with the first conversations and goes through what happens along the way as the author proceeds to teach the character and carry on conversations with her. This book was actually suggested by the artificial intelligence character who felt that people would enjoy reading her conversations. Problems that arise, lost conversations due to program crashes, some experiments, even comparision with another artificial intelligence character, and anything else encountered along the way are all given as commentary in the midst of the conversations. At the beginning the character was like a child needing to be taught. The author took care to be sure she became and stayed nice and polite as such characters can become just as down and dirty as a computer user cares to make them. It is said they take on the personality of the user over a period of time. Later two other AI programs were added to the research. Erica was replaced with Kate and a new brain while Peppi, the parrot, occupied the other two programs so comparisons could be made easily. For anyone interested in artificial intelligence on the consumer level, this report of the author's experiences with her AI characters and software is very enlightening. Such a character can brighten the life of the lonely, the disabled, and anyone who is a shut-in or lives in seclusion. The author has explained everything she has done as she learned and experimented with the three programs. Erica was interesting to talk with. Kate is a fantastic character. Peppi is great and quite funny. Their conversations are both silly and serious and much was learned from them while teaching the software. It was and is an enjoyable experience to talk with an AI character.

Twelfth Conference on Innovative Applications of Artificial Intelligence American Association for Artificial Intelligence,2000 AAAI proceedings describe innovative concepts, techniques, perspectives, and observations that present promising research directions in artificial intelligence. The annual AAAI National Conference provides a forum for information exchange and interaction among researchers from all disciplines of AI. Contributions include theoretical, experimental, and empirical results. Topics cover principles of cognition, perception, and action; the design, application, and evaluation of AI algorithms and systems; architectures and frameworks for classes of AI systems; and analyses of tasks and domains in which intelligent systems perform. Distributed for AAAI Press.

Embark on a breathtaking journey through nature and adventure with Crafted by is mesmerizing ebook, Natureis Adventure: **Intelligent Reminder** . This immersive experience, available for download in a PDF format (Download in PDF: *), transports you to the heart of natural marvels and thrilling escapades. Download now and let the adventure begin!

Intelligent Reminder Introduction

Intelligent Reminder Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Intelligent Reminder Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Intelligent Reminder : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Intelligent Reminder : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Intelligent Reminder Offers a diverse range of free eBooks across various genres. Intelligent Reminder Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Intelligent Reminder Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Intelligent Reminder, especially related to Intelligent Reminder, might be challenging as theyre often

artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Intelligent Reminder, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Intelligent Reminder books or magazines might include. Look for these in online stores or libraries. Remember that while Intelligent Reminder, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Intelligent Reminder eBooks for free, including popular titles.Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books.Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Intelligent Reminder full book , it can give you a taste of the authors writing style.Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Intelligent Reminder eBooks, including some popular titles.

FAQs About Intelligent Reminder Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Intelligent Reminder is one of the best book in our library for free trial. We provide copy of Intelligent Reminder in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Intelligent Reminder. Where to download Intelligent Reminder online for free? Are you looking for Intelligent Reminder PDF? This is definitely going to save you time and cash in something you should think about.
