The Prisons Memory Archive: A Case Study in Filmed Memory of Conflict Jolene Mairs Dyer,Conor McCafferty,Cahal McLaughlin,2022-09-06 The Prisons Memory Archive (PMA) explores ways that narratives of a conflicted past are filmed at the site of the experiences and later negotiated in a contested present in the North of Ireland. Given the state's failed attempts at establishing an official process for addressing the legacy of the conflict that lasted between 1968 and 1998, there are a number of community and academic initiatives that have taken up this task. The Prisons Memory Archive is one such project, whose aim is to research the possibilities of engaging with the story of the 'other' in a society that is emerging from decades of political violence. The PMA filmed back inside the prisons with those who passed through Armagh Gaol (2006) and the Maze and Long Kesh Prison (2007), which were both touchstone and tinderbox during the 30 years of violent conflict. We applied protocols of co-ownership, where participants become co-authors of their own story, with the right to withdraw up to the point of exhibition; inclusivity to ensure a multi-narrative archive with prison staff, prisoners, visitors, teachers, chaplains, etc.; and life-story telling, where leading questions are eschewed in order to return more agency to the participants. Currently, the full archive, made up of 160 walk-and-talk recordings totaling 300 hours of filmed material, is available at the Public Record Office of Northern Ireland, where it is preserved and made accessible to the public, and a website has been designed for educational use of the archive. This collection offers critical reflections on the processes of recording, archiving and utilising the archive in its several manifestations, e.g. feature films, website, and full archive at the Public Records Office. The perspectives offer a range of reflections, including filming, editing, archiving, web design, education, and museum practice.

Star Wars and Philosophy Strikes Back Jason T. Eberl, Kevin S. Decker, 2023-01-05 Should droids be free? Should clone troopers? What political and ethical ideas ground resistance and rebellion? What’s wrong with the way women are portrayed in Star Wars? Does Han Solo have a philosophical worldview? Was Galen Erso responsible for the destruction of Alderaan? Should you eat Baby Yoda? “This is the Way.” In *Star Wars and Philosophy Strikes Back*, the Way winds through entirely new adventures in the Star Wars galaxy far, far away: not only the films of the Skywalker saga, but also *Rebels*, *The Bad Batch*, *Rogue One*, *Solo*, and *The Mandalorian*. Like the creators of these films and television series, the authors in this book harness the magical mix of humor, action, empathy, characterization, adventure, and fan service that constitutes Star Wars. In addition to thorny metaphysical questions about the nature of time and free will, this volume highlights the staggering cultural impact of George Lucas’s universe. The newest Star Wars narratives tackle ethnicity on alien worlds and how love and sex with a droid like L3-37 would work (“It works”). The connections between the Separatist Freedom Movement and the struggle for social justice in the USA in the 21st century are brought to light. And philosophical second looks at Rian Johnson’s *The Last Jedi* prove there is much more to this controversial entry in the Skywalker saga. Thirty-six philosophers, both sages and scoundrels among them, examine the full range of deep questions throughout the Star Wars chronology—from *The Phantom Menace* to *The Rise of Skywalker* and beyond. “They have spoken.”

The collaboration also helps ensure that all stakeholders are on the same page regarding sustainability goals and objectives. By building relationships and trust between stakeholders, collaboration can help to create a more sustainable future. Innovative Technology Goal 5.0 focuses on using technology to improve access to education and foster a culture of innovation and creativity. It seeks to create a more equitable and inclusive learning environment by providing access to digital tools and resources for all students, regardless of background or ability. It also seeks to promote technology to support the development of 21st-century skills, such as critical thinking, problem-solving, and collaboration. VOCATIONAL 5.0 is a collaborative effort to promote sustainable development and innovative technology goals. It is designed to bring together experts from various fields, including business, education, government, and the non-profit sector, to identify and develop innovative solutions to global challenges. Through the use of data-driven decision-making and the application of new technologies, VOCATIONAL 5.0 seeks to create a more sustainable and equitable world. The initiative also aims to foster collaboration between stakeholders, create a platform for knowledge sharing, and promote the use of technology to drive social, economic, and environmental progress.
