The ABC of XYZ Mark McCrindle, 2011 Based on more than a decade of research, The ABC of XYZ is designed for educators, business managers and parents who want a short and lively introduction to Australia's living generations. The book explores what a generation is, how its definition has changed over the years, and the trends that are emerging for the future. It examines generational conflicts in the school, home and workplace, and the ways in which they can be understood and resolved, and what might be beyond Z. Written by one of Australia's foremost social researchers, this revised edition of The ABC of XYZ reveals the truth behind the labels and is essential reading for anyone interested in how our current generations live, learn and work.--Cover.

Effective Learning in Classrooms Chris Watkins,Eileen Carnell,Caroline Lodge,2007-03-12
`The book is at once accessible, evidence-based, practical and eminently readable...Readers will find in this book a treasury of learners' voices guiding us towards the goal of more effective learning in classrooms' - International Network

for School Improvement `This book promotes an ambitious and inspiring conception of meaningful pedagogy and works to applaud those teachers who are determined to reflect upon, enquire into, and then facilitate ''effective learning''. A coherent and structured case is made for the primacy of ''learning'' over ''work'' - Learning & Teaching Update This book addresses an important, and too seldom addressed issue: learning. Not teaching, not performance, not work: this book really is about learning, what makes learning effective and how it may be promoted in classrooms. The authors take the context of the classroom seriously, not only because of its effects on teachers and pupils, but because classrooms are notorious as contexts which change little. Rather than providing yet more tips, they offer real thinking and evidence based on what we know about how classrooms change. Four major dimensions of promoting effective learning in classrooms are examined in depth: Active Learning; Collaborative Learning; Learner-driven Learning and Learning about Learning. Evidence from practising teachers in the form of case studies and examples, and evidence from international research in the form of useful ideas and frameworks is included.

Newsreels in Film Archives Roger B. N.

Smither, Wolfgang Klaue, 1996 This volume brings together some 30 essays and other contributions on the subject of the newsreel from international members of the Federation Internationale des Archives du Film/International Federation of Film Archives (FIAF) and other experts.

schoolboy is snatched into another world by the magician scientist Salaman, who forces him to brave underwater terrors in a quest for the priceless Mirrorstone.

Learning about Learning Eileen Carnell, Caroline Lodge, Patsy Wagner, Chris Watkins, Caroline Whalley, 2005-07-05 This practical A4 pack contains activities and ideas for teachers and students to learn more about learning. Learning about Learning is a practical way of teaching important and neglected theories of learning. The idea is that if teachers and students learn about what learning is and how it happens they understand a greater range of learning possibilities and approaches and improve their learning and teaching skills.

Practice Makes Perfect Charlene

Groome, 2015-08-18 She's in the front office. He's a star player. It's a match-up guaranteed to melt the ice... Left winger Jared Landry is one of the (gorgeous) faces of Vancouver's Warriors hockey team—except he's not comfortable in the spotlight. He gets that charity events are important to the community, he just wants to contribute in his own way. Face-time with the fans puts him in a vulnerable position, bringing up past memories—and present complications. But a certain fiery newcomer won't take no for an answer... Meghan O'Riley is the Warriors' new events coordinator, and she wants everyone on board—including Jared. Meghan knows he has a history of flaking out on important occasions, and she has no patience for his devil-may-care attitude. But Meghan will have to hone her rookie flirting skills to get the star

to commit to the team—and maybe even to her...

Night of the Animals Bill Broun, 2016-07-05 In this imaginative debut, the tale of Noah's Ark is brilliantly recast as a story of fate and family, set in a near-future London. Over the course of a single night in 2052, a homeless man named Cuthbert Handley sets out on an astonishing quest: to release the animals of the London Zoo. When he was a young boy, Cuthbert's grandmother had told him he inherited a magical ability to communicate with the animal world—a gift she called the Wonderments. Ever since his older brother's death in childhood, Cuthbert has heard voices. These maddening whispers must be the Wonderments, he believes, and recently they have promised to reunite him with his lost brother and bring about the coming of a Lord of Animals . . . if he fulfills this curious request. Cuthbert flickers in and out of awareness throughout his desperate pursuit. But his grand plan is not the only thing that threatens to disturb the collective unease of the city. Around him is greater turmoil, as the rest of the world anxiously anticipates the rise of a suicide cult set on destroying the world's animals along with themselves. Meanwhile, Cuthbert doggedly roams the zoo, cutting open the enclosures, while pressing the animals for information about his brother. Just as this unlikely yet loveable hero begins to release the animals, the cult's members flood the city's streets. Has Cuthbert succeeded in harnessing the power of the Wonderments, or has he only added to the chaos—and sealed these innocent animals' fates? *Night of the Animals* is an enchanting and

inventive tale that explores the boundaries of reality, the ghosts of love and trauma, and the power of redemption.

Deviant Princess Tracy Lorraine,2022-04-10 USA Today and Wall Street Journal bestselling author Tracy Lorraine brings you the next installment of her new dark mafia, high school bully romance series. I should have known better than to play with fire... I'd been burned by Theo Cirillo enough to know that I should have seen this coming. He loved to show me his merciless side, but I couldn't stay away from the deviant even if I wanted to. A prisoner of my own making, playing a game without knowing all the rules. Until the lies he'd been telling, the secrets he'd been keeping began to unravel around us. He's the only person I trusted with the truth about my past, but my confession was all for nothing. He never cared. He already knew. He was only manipulating me. Using me. I was nothing more than a job. A nut he had to crack. And he split me right open, but he's about to get a shock because I'm not the kind of girl to roll over and take it. I'm Emmie Ramsey. And I'm about to make him pay for ever trying to

play me. Dear reader, Deviant Princess is the second book in Emmie and Theo's deviant trilogy and the fifth book in my dark mafia, high school romance series Knight's Ridge Empire.
