James B. Connolly

The Avant-garde in Exhibition Bruce Altshuler, 1998 Scholarly, sympathetic, lucid--and filled with fascinating detail--The Avant-Garde in Exhibition is as valuable as a reference as it is exciting as a narrative.--Arthur Danto

The College Hill Chronicles T. Neil Davis, 1992 Davis, retired from a career in northern geophysics and scientific administration, provides an account of a small subarctic university with big ambitions. He emphasizes the politics and personalities of the boardroom, but shows the cooperation and conflict that tied the boardroom debates to politics on a more grand scale in Juneau and in Washington. Includes numerous b&w photographs.

Farthest North College President William R. Cashen, 1972 Biography of Alaska's pioneer educator and a history of the institution he founded.

Sports in America James A. Michener, 2014-04-15 Originally published in 1976, James A. Michener's explosive, spectacular *Sports in America* is a prescient examination of the crisis in American sports that is still unfolding to this day. Pro basketball players are banned for narcotics use, while a Major League pitcher is arrested for smuggling drugs across the Mexican border. The NFL's "injury report" grows longer every Sunday. Corruption and recruiting violations plague collegiate sports as the "winning is everything" mentality trickles down to the Little League level. With his lifelong enthusiasm for sports in evidence, the incomparable Michener tackles this subject thoroughly and leaves us amazed and appalled by what we've

learned, yet still loving the games we grew up on. BONUS: This edition includes an excerpt from James A. Michener's *Hawaii*. Praise for *Sports in America* "A comprehensive, controversial examination of sports as a major force in American life."—*Los Angeles Times* "Michener's life was saved by sports twice. In return, he has issued a long, lovingly critical, prodigiously researched account of the passions and politics of America at organized play. Rich in anecdote, source material and his own shrewd commentary."—*The New York Times Book Review* "Like just about everything James Michener has produced, *Sports in America* is a thoughtful, well-written document that's thoroughly researched. . . . For anyone interested in how the ball bounces in the U.S. of A., the answers are all here."—*The Wall Street Journal* "Encyclopedic . . . amusing and sometimes alarming."—*The Washington Post*

Hybrid Approaches to Machine Translation Marta R. Costa-jussà, Reinhard Rapp, Patrik Lambert, Kurt Eberle, Rafael E. Banchs, Bogdan Babych, 2016-07-12 This volume provides an overview of the field of Hybrid Machine Translation (MT) and presents some of the latest research conducted by linguists and practitioners from different multidisciplinary areas. Nowadays, most important developments in MT are achieved by combining data-driven and rule-based techniques. These combinations typically involve hybridization of different traditional paradigms, such as the introduction of linguistic knowledge into statistical approaches to MT, the incorporation of data-driven

components into rule-based approaches, or statistical and rule-based pre- and post-processing for both types of MT architectures. The book is of interest primarily to MT specialists, but also – in the wider fields of Computational Linguistics, Machine Learning and Data Mining – to translators and managers of translation companies and departments who are interested in recent developments concerning automated translation tools.

Magic Dimes from Heaven Daryl McTeirnan, 2018-01-30 This is a true story. It is the story of a man who has suffered from unimaginable pain in both knees for over ten years. After surgery on his left knee for the second time he experienced a miracle. He was visited by the energy of Jesus. From that night onward he was spiritually awake. As the years marched on he was gifted with a stream of coins that he found in many circumstances. Each coin felt like a boost from his Guardian Angels. The majority of the coins were Dimes, hence the title. If you don't believe in Heaven and Angels maybe you will after reading this story.

Man and Culture Bronislaw Malinowski, 2001-11-29 This volume is a reassessment of Malinowski's work by a group of his former pupils and colleagues. A frank evaluation, not a eulogy, it examines the real and lasting importance of Malinowski's contribution to a range of subjects.

The U-boat hunters James B. Connolly, 2022-11-21 The U-boat Hunters refers

the readers to the times of WWI. It was written by a reporter then on assignment for Collier Magazine to cover US Naval operations opposing the German U-boat threat. The author managed to create a mixture of narrative description and firsthand tales of life in the merchant marine. It is an interesting and informative insight into the lives of marine soldiers.

The Toaster Project Thomas Thwaites,2012-03-20 Hello, my name is Thomas Thwaites, and I have made a toaster. So begins The Toaster Project, the author's nine-month-long journey from his local appliance store to remote mines in the UK to his mother's backyard, where he creates a crude foundry. Along the way, he learns that an ordinary toaster is made up of 404 separate parts, that the best way to smelt metal at home is by using a method found in a fifteenth-century treatise, and that plastic is almost impossible to make from scratch. In the end, Thwaites's homemade toaster—a haunting and strangely beautiful object—cost 250 times more than the toaster he bought at the store and involved close to two thousand miles of travel to some of Britain's remotest locations. The Toaster Project may seem foolish, even insane. Yet, Thwaites's quixotic tale, told with self-deprecating wit, helps us reflect on the costs and perils of our cheap consumer culture, and in so doing reveals much about the organization of the modern world.

international trends in health and longevity--with a special focus on older women! This essential book examines the latest research on life expectancy and "active life expectancy"--the number of years that women can expect to live free from major disability--in developed and developing countries around the world. It also explores the policy implications of the contributors' findings. Here you'll find a global study using data from the World Health Organization, a European study using data from OECD countries, and studies of women in the United Kingdom, Fiji, The Netherlands, Japan, Canada, and the United States. With contributions from demographers, economists, epidemiologists, gerontologists, medical statisticians, policy analysts, physicians, public health directors, and sociologists, *International Perspectives on Health Expectancies for Older Women* compares mortality and morbidity trends in various populations. In addition to reviewing the current literature on active life expectancy, this informative book looks at: the distribution of total, unimpaired, and impaired life for several groups of older women defined by race, education, and marital history gender differences in health profiles in The Netherlands gender differences in life with and without six major diseases, including both morbid and mortal conditions in the United States how mortality and morbidity patterns differ for Canadian women and men 45 years of age and older, focusing on risk factors and chronic conditions such as low income, low education, abnormal body mass index, lack of physical activity, smoking, cancer, diabetes, and
