*The Story of Buddhism* Donald S. Lopez, 2002-08-20 How and when did the many schools of Buddhism emerge? How does the historical figure of Siddhartha Guatama relate to the many teachings that are presented in his name? Did Buddhism modify the cultures to which it was introduced, or did they modify Buddhism? Leading Buddhist scholar Donald S. Lopez Jr. explores the origins of this 2,500-year-old religion and traces its major developments up to the present, focusing not only on the essential elements common to all schools of Buddhism but also revealing the differences among the major traditions. Beginning with the creation and structure of the Buddhist universe, Lopez explores the life of the Buddha, the core Buddhist tenets, and the development of the monastic life and lay practices. Combining brilliant scholarship with fascinating stories -- contemporary and historical, sometimes miraculous, sometimes humorous -- this rich and absorbing volume presents a fresh and expert history of Buddhism and Buddhist life.

A Phenomenology of Musical Absorption Simon Høffding, 2019-01-21 This book presents a detailed analysis of what it means to be absorbed in playing music. Based on interviews with one of the world's leading classical ensembles, "The Danish String Quartet" (DSQ), it debunks the myth that experts cannot reflect while performing, but also shows that intense absorption is not something

that can be achieved through will, intention, prediction or planning – it remains something individuals have to be receptive to. Based in the phenomenological tradition of Husserl and Merleau-Ponty as well as of Dan Zahavi and Shaun Gallagher, it lays out the conditions and essential structures of musical absorption. Employing the lived experience of the DSQ members, it also engages and challenges core ideas in phenomenology, philosophy of mind, enactivism, expertise studies, musical psychology, flow theory, aesthetics, dream and sleep studies, psychopathology and social ontology, and proposes a method that integrates phenomenology and cognitive science.

**Twelve Years a Slave** Solomon Northup, 2024-01-04  
Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was

published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Orthodox Perspectives on Mission** Petros

Vassiliadis, 2014 Orthodox Perspectives on Mission is both a humble tribute to some great Orthodox theologians, who in the past have provided substantial contribution to contemporary missiological and ecumenical discussions, and an Orthodox input to the upcoming 2013 Busan WCC General Assembly. There is a long history of similar contributions by the Orthodox before all the major ecumenical events. The collected volume is divided into two parts: Part I under the subtitle The Orthodox Heritage consists of a limited number of representative Orthodox missiological contributions of the past, whereas Part II includes all the papers presented in the Plenary of the recent Edinburgh 2010 conference, as well as the short studies and contributions prepared during the Edinburgh 2010 ongoing study process.

AWI-1- United States. Department of Agriculture, Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a

textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*Primitive Mediaeval Japanese Texts* Frederick Victor Dickins, 2015-07-18 Excerpt from *Primitive Mediaeval Japanese d104s: Translated Into English With Introductions, Notes and Glossaries* In preparing the present volume and its companion volume of romanized texts I have desired to assist the English reader towards some fuller understanding of the primitive and mediaeval literature of Japan than can be gathered from merely literal or imitative translations. The examples chosen are the earliest of the categories to which they respectively belong, and have been followed, more or less closely, as models, in the production of most of the purely Japanese - as distinct from Japano-Chinese - literature of later times. The first is a collection of all the long lays (nagauta or choka) of the famous Anthology (Manyoshu) of the eighth century of our era, together with most of their tanka or hanka - mizuka or kaheshi uta - or envoys. The second is

the Story of the Old Bamboo Wicker-worker (Takatori no Okina no Monogatari), a romance of the tenth century; the third is Tsurayuki's celebrated preface to his Kokinshū (Garner of Japanese Verse, Old and New), an Anthology mainly of tanka or single stanzas, of the same century, more admired, perhaps, by the Japanese than its immediate and greater predecessor, the Manyōshū itself; and the last is the utahime or drama of the No of Takasago, the oldest, it may be, of the miracle-plays or semi-religious plays accompanied by music, mime, and dance of medieval Japan.
