Fortunately, she stumbles upon an ad in the paper from a man in Lincoln, Nebraska who is interviewing for a wife. Widower Bill Harvey is in need of a wife to help him run his general store. Plus, it would be nice to have help raising his two young children. But being confined to a wheelchair doesn't exactly make him confident when it comes to a more intimate union with a woman. So when Deanne comes in for an interview, he makes a stipulation. He'll marry her, but they won't be consummating the marriage. So the marriage will be more of a partnership than a romance. A marriage of convenience suits Deanne just fine. She's not looking for love. As long as she doesn't have to return to her hometown, she'll be happy. It's not long before Bill starts to have desires he put behind him after the accident that confined him to a wheelchair. Yes, it was his decision to treat their marriage like a partnership, but after he gets to know her, he starts to want more. The Cursed Earl Ruth Ann Nordin, Algernon Wright, the Earl of Draconhawthshire, takes great care to avoid bad luck. Over the years, he’s learned to sway good luck in his favor, and because of that, he’s managed to avoid many unlucky incidents. The only thing he can’t change, however, is the curse that hovers over his life. On his twenty-fifth birthday, Algernon is doomed to die. That leaves him only one year to get married so he can pass on his title to an heir. Ideally, the lady he marries will be a spinster who isn’t all that interested in marriage but will be happy to be a mother. Then, when he dies early, neither one of them will miss each other. He deserves a love match. And she’s going to make it her mission to marry him, regardless of whether it brings good or bad luck.

Sassafrass, Cypress & Indigo Ntozake Shange, 2010-09-28 Ntozake Shange's beloved Sassafrass, Cypress & Indigo is the story of three sisters and their mother from Charleston, South Carolina. A jubilant celebration of womanhood—as moving as the moon . . . pure magic. --Kansas City Star Ntozake Shange's beloved Sassafrass, Cypress & Indigo is the story of three sisters and their mother from Charleston, South Carolina. Having gone north to college, she is now living with other artists in Los Angeles and trying to weave a life out of her work, her man, her memories and dreams. Cypress, the dancer, leaves home to find new ways of moving in the world. Indigo, the youngest, is still a child of Charleston—too much of the south in her—who lives in poetry and has the supreme gift of seeing the obvious magic of the world. Pervasive Advertising Jörg Müller, Florian Alt, Daniel Michelis, 2011-09-21 This book looks at the future of advertising from the perspective of pervasive computing. Pervasive computing encompasses the integration of computers into everyday devices, like the covering of surfaces with interactive displays and networked mobile

phones. Advertising is the communication of sponsored messages to inform, convince, and persuade to buy. We believe that our future cities will be digital, giving us instant access to any information we need everywhere, like at bus stops, on the sidewalk, inside the subway and in shopping malls. We will be able to play with and change the appearance of our cities effortlessly, like making flowers grow along a building wall or changing the colour of the street we are in. Like the internet as we know it, this digitalization will be paid for by adverts, which unobtrusively provide us suggestions for nearby restaurants or cafés. If any content annoys us, we will be able to effortlessly say so and change it with simple gestures, and content providers and advertisers will know what we like and be able to act accordingly. This book presents the technological foundations to make this vision a reality.

A Perilous Marriage (a hero pretends to be in love with the heroine Regency romance) Ruth Ann Nordin, All Eris wants is a love match... Miss Eris Tumilson longs for a love match. Unfortunately, being a wallflower who spends most of her time reading and doing embroidery isn't the kind of thing that attracts gentlemen. But, at long last, the spinster gets her chance. Her brother arranges a marriage for her with the Duke of Jowett. When her new husband dies on their wedding night, her hopes are dashed. There will be no love match. There's not even the prospect of a child on the way. Though a widow, she might as well still be a spinster. Then Mr. Charles Duff comes along to visit her, and something begins to stir up within her that she was determined to put behind her once and for all: the desire for a love match. All Charles wants is to prove his friend was murdered... Charles would rather focus on his investments than take a wife. But when his friend dies on his wedding night, he knows it's not from natural causes. His friend was murdered. And he's sure Eris did it. The problem? He has to prove it since no one believes him. So he comes up with a plan to make Eris believe he's fallen in love with her. Little does he realize that as soon as he steps through the doorway of her townhouse, he'll start to discover that this shy wallflower is a hidden gem among ladies...and it'll be difficult to tell the difference between pretending to be in love and really being in love. *Charles originally showed up in Kidnapping the Viscount. Eris originally showed up in The Reclusive Earl.

Submarine Mass Movements and their Consequences Geoffroy Lamarche, Joshu Mountjoy, Suzanne Bull, Tom Hubble, Sebastian Krastel, Emily Lane, Aaron Micallef, Lorena Moscardelli, Christof Mueller, Ingo Pecher, Susanne Woelz, 2015-10-02 This book is a comprehensive collection of state-of-the-art studies of seafloor slope instability and their societal implications. The volume captures the most recent and exciting scientific progress made in this research field. As the world's climate and energy needs change, the conditions under which slope instability occurs and needs to be considered, are also changing. The science and engineering of submarine – or more widely subaqueous – mass movements is greatly benefiting from advances in seafloor and sub-seafloor surveying technologies. Ultra-high-resolution seafloor mapping and 3D seismic reflection cubes are becoming commonly available datasets that are dramatically increasing our knowledge of the mechanisms and controls of subaqueous slope failure. Monitoring of slope deformation, repeat surveying and deep drilling, on the other hand, are emerging as important new techniques for understanding the temporal scales of slope instability. In essence, rapid advances in technology are being readily incorporated into scientific research and as a result, our understanding of submarine mass movements is increasing at a very fast rate. The volume also marks the beginning of the third IGCP project for the submarine mass movement research community, IGCP-640 S4SLIDE (Significance of Modern and Ancient Submarine Slope LandSLIDES). The Submarine Mass Movements and Their Consequences symposium is the biannual meeting under the IGCP umbrella.
