After On Rob Reid,2017-08-01 The definitive novel of today's Silicon Valley, After On flash-captures our cultural and technological moment with up-to-the-instant savvy. Matters of privacy and government intrusion, post-Tinder romance, nihilistic terrorism, artificial consciousness, synthetic biology, and much more are tackled with authority and brash playfulness by New York Times bestselling author Rob Reid. Meet Phluttr—a diabolically addictive new social network and a villainess, heroine, enemy, and/or bestie to millions. Phluttr has ingested every fact and message ever sent to, from, and about her innumerable users. Her capabilities astound her makers—and they don't even know the tenth of it. But what's the purpose of this stunning creation? Is it a front for something even darker and more powerful than the NSA? A bid to create a trillion-dollar market by becoming “The UberX of Sex”? Or a reckless experiment that could spawn the digital equivalent of a middle-school mean girl with enough charisma, dirt, and cunning to bend the entire planet to her will? Phluttr has it in her to become the greatest gossip, flirt, or matchmaker

in history. Or she could cure cancer, bring back Seinfeld, then start a nuclear war. Whatever she does, it's not up to us. But a motley band of Silicon Valley entrepreneurs, venture capitalists, and engineers might be able to influence her. After On achieves the literary singularity—fusing speculative satire and astonishing reality into a sharp-witted, ferociously believable, IMAX-wide view of our digital age. Praise for After On “Rob Reid’s mind is like no other known thing in the universe, and this book is a truly spectacular way to discover it.”—Chris Anderson, head of TED “An extended philosophy seminar run by a dozen insane Cold War heads-of-station, three millennial COOs and that guy you went to college with who always had the best weed but never did his laundry.”—NPR “An epic cyberthriller peppered with pop-culture references, metadata, and Silicon Valley in-jokes.”—Kirkus Reviews “It’s rare to find a book that combines laugh-out-loud humor and cutting-edge science with profound philosophical speculation. This is that book.”—Analog “[Rob Reid] writes in a humorous and sarcastic style while unveiling a terrifying and frightening scenario that seems all too real.”—Associated Press

The Conquest of Happiness Bertrand Russell,2013-08-05 “Should be read by every parent, teacher, minister, and Congressman in the land.”—The Atlantic In The Conquest of Happiness, first published by Liveright in 1930, iconoclastic philosopher Bertrand Russell attempted to diagnose the myriad causes of unhappiness in modern life and chart a path out of the seemingly inescapable malaise so prevalent even in safe and prosperous Western societies. More than eighty years later, Russell’s wisdom remains as true as it was on its initial release. Eschewing guilt-based morality, Russell lays out a rationalist prescription for living a happy life, including the importance of cultivating interests outside oneself and the dangers of passive pleasure. In this new edition, best-selling philosopher Daniel C. Dennett reintroduces Russell to a new generation, stating that Conquest is both “a fascinating time capsule” and “a prototype of the flood of self-help books that have more recently been published, few of them as well worth reading today as Russell’s little book.”
