Iran-U.S. Claims Tribunal Reports: Volume 31 Edward Helgeson, 2001-09-06 The Iran-US Claims Tribunal, concerned principally with the claims of US nationals against Iran, is the most important international claims tribunal to have sat in over half a century. Its jurisprudence is bound to make a uniquely important contribution to international law and, in particular, the law relating to aliens. The series is the only complete and fully indexed report of the decisions of this unique Tribunal. These Reports are essential for all practitioners in the field of international claims, academics in private and public international law and comparative lawyers as well as all Governments and law libraries. Each volume contains a detailed consolidated index and tables of cases covering the whole series to date.

Religion, politics and ethnicity in iran: investigating the case of the sunni deobandis Hoshang Noraeiee, 2022-06-30 This project evolved out of my research on several other topics concerning militant Islam among Sunnis in Iran, Deobandis, and female Deobandi madrasas. Since then, several more informants have sincerely come forward to help me update my information on the current research.

A Diplomatic History of the Caspian Sea G. Mirfendereski, 2001-08-10 In a series of short stories that both inform and amuse, this book transports the reader across the windswept shores of the Caspian Sea and provides a provocative view of the wars, peace, intrigues, and betrayals that have shaped the political geography of this important and volatile region. The demise of the Soviet Union in 1991 and the eclipsing of the old Iranian-Soviet regime of the sea have given rise to new challenges for the regional actors and unprecedented opportunities for international players to tap into the area's enormous oil and gas resources, third in size only behind Siberia and the Persian Gulf. This book explores the historical themes that inform and animate the more immediate and familiar discussions about petroleum, pipelines, and ethnic conflict in the Caspian region.

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 2: Khayyami Millennium Mohammad H. Tamdgidi, 2021-06-01 Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination is a twelve-book series of which this book is the second volume, subtitled Khayyami Millennium: Reporting the Discovery and the Reconfirmation of the True Dates of Birth and Passing of Omar Khayyam (AD 1021-1123). Each book is independently readable, although it will be best understood as a part of the whole series. In the overall series, the transdisciplinary sociologist Mohammad H. Tamdgidi shares the results of his decades-long research on Omar Khayyam, the enigmatic 11th/12th centuries Persian Muslim sage, philosopher, astronomer, mathematician, physician, writer, and poet from Neyshabour, Iran, whose life and works still remain behind a veil of deep mystery. Tamdgidi's purpose has been to find definitive answers to the many puzzles still surrounding Khayyam, especially regarding the existence, nature, and purpose of the Robaiyat in his life and works. To explore the questions posed, he advances a new hermeneutic method of textual analysis, informed by what he calls the quantum sociological imagination, to gather and study all the attributed philosophical, religious, scientific, and literary writings of Khayyam. In this second book of the series, Tamdgidi lays down an essential foundation for the series by revisiting the unresolved questions surrounding the dates of birth and passing of Omar Khayyam. Critically reexamining the manner in which Omar Khayyam's birth horoscope as reported in Zahireddin Abolhassan Beyhaqi's Tatemmat Sewan al-Hekmat (Supplement to the Chest of Wisdom) was used by Swāmi Govinda Tīrtha in his The Nectar of Grace: Omar Khayyam's Life and Works (1941) to determine Khayyam's birth date, Tamdgidi uncovers a number of serious internal inconsistencies and factual inaccuracies that prevented Tīrtha (and, since then, other scholars more or less taking for granted his results) from arriving at a reliable date for Khayyam's birth, hurling Khayyami studies into decades of confusion regarding Khayyam's life and works. Tamdgidi then shares in the book the detailed account of his own discovery of Khayyam's true date of birth for the first time, a finding that eluded Khayyami studies for centuries and is bound to revolutionize the studies for decades to come. Tamdgidi then turns his attention to the task of definitively establishing the true date of passing of Omar Khayyam. Conducting an in-depth, superposed analysis of Beyhaqi's Tatemmat Sewan el-Hekmat (Supplement to the Chest of Wisdom), Abdorrahman Khazeni's Mizan ol-Hekmat (Balance of Wisdom), Nezami Arouzi's Chahar Maqaleh (Four Discourses), and Yar Ahmad Rashidi Tabrizi's Tarabkhaneh (House of Joy), amid other relevant texts, he succeeds in firmly reconfirming and further discovering, in a textually reliable way, not only the year, the season, the month, and the day, but even the most likely time of day at which the poet mathematician, astronomer, and calendar reformer died as a solar centenarian, completing his 102nd solar year age. Strange is that these discoveries are made just in time as we approach the first solar millennium of Omar Khayyam's birth date on June 10, 1021, at sunrise of Neyshabour, Iran, and the ninth solar centennial of his passing on June 10, 1123, on the eve also of his birthday, closing the circle of his life's "coming and going." Persian Pilgrimages Afshin Molavi, 2002 A portrait of Iran seeks to measure the true feelings of its citizens despite government and media profiles, chronicling the author's year-long journey during which he interviewed people from all walks of life.

Iran John W. Limbert, 2016-07-22 Iran is the only Middle Eastern state to have preserved its national identity through the upheavals of Arab, Turkish and Mongol invasions. It is heir to the richest culture in the Middle East: a culture that extends far beyond the state's political boundaries. This book, first published in 1987, traces elements of continuity in Iranian society from pre-Islamic times to the turmoil of the Islamic Republic. The author discusses the persistence of religion as a dominant force in Iran's politics and society; the attraction of unorthodox doctrines such as Mazdakism, Baha'ism, and revolutionary Shi'ism; the tradition of strong, charismatic leadership; and the constant problem of ruling peoples of diverse tribal, religious and linguistic affiliations. He finds explanations for recent political changes in conditions peculiarly Iranian and examines the emerging post-revolutionary society along with some of its new institutions, including the revolutionary guards, the assembly, the neighbourhood committees, and the Friday prayer leaders.

The Wiley Blackwell Companion to Zoroastrianism Michael Stausberg, Yuhan Sohrab-Dinshaw Vevaina, 2015-04-27 This is the first ever comprehensive English-language survey of Zoroastrianism, one of the oldest living religions. Evenly divided into five thematic sections beginning with an introduction to Zoroaster/Zarathustra and concluding with the intersections of Zoroastrianism and other religions. Reflects the global nature of Zoroastrian studies with contributions from 34 international authorities from 10 countries. Presents Zoroastrianism as a cluster of dynamic historical and contextualized phenomena, reflecting the current trend to move away from textual essentialism in the study of religion.

Languages of the World Martin D. Joachim, 1993 A practical guide to cataloging materials in languages from all parts of the world. Some of the cataloging methods covered include using archives and manuscript control formats to provide access to a large collection of Spanish materials, using the PA schedule for cataloging the literature of classical antiquity, the advantages and disadvantages of vernacular versus transliterated Hebrew, and cooperative cataloging from the point of view of a Southeast Asian biographer. Simultaneously published as Cataloging and Classification Quarterly, v.17, nos.1/2. Annotation copyright by Book News, Inc., Portland, OR

The Parsis of India Jesse Palsetia, 2021-11-22 The Parsis of India examines a much-neglected area of Asian Studies. In tracing keypoints in the development of the Parsi community, it depicts the Parsis' history, and accounts for their ability to preserve, maintain and construct a distinct identity. For a great part the story is told in the colonial setting of Bombay city. Ample attention is given to the Parsis' evolution from an insular minority group to a modern community of pluralistic outlook. Filling the obvious lacunae in the literature on British colonialism, Indian society and history, and, last but not least, Zoroastrianism, this book broadens our knowledge of the interaction of colonialism and colonial groups, and elucidates the significant role of the Parsis in the commercial, educational, and civic milieu of Bombay colonial society.
