When It Clicks Amitabh Pandey,2019-01-10 India witnessed an e-commerce boom in the twenty-first century that has transformed the way many of us undertake commercial transactions. But its foundations were laid in the 1990s when major policy changes led to the emergence of the conditions necessary for such a turn of events. This book presents an analysis of that period by an early participant in India's e-commerce revolution and the many learnings he gained from setting up www.irctc.co.in – one of the most significant e-commerce platforms in the country. The story begins with the first sarkari foray into this exciting new space and goes on to explore how contemporary private players such as MakeMyTrip, Yatra, and others, are performing today. Lucid and engaging, When It Clicks is an essential record of India's e-commerce history and the myriad lessons it has to offer, both about and beyond commerce.

Super Thinking Gabriel Weinberg,Lauren McCann,2019-06-18 A WALL STREET JOURNAL BESTSELLER! You can't really know anything if you just remember isolated facts. If the facts don't hang together on a latticework of theory, you don't have them in a usable form. You've got to have models in your head. - Charlie Munger, investor, vice chairman of Berkshire Hathaway The world's greatest problem-solvers, forecasters, and decision-makers all rely on a set of frameworks and shortcuts that help them cut through complexity and separate good ideas from bad ones. They're called mental models, and you can find them in dense textbooks on psychology, physics, economics, and more. Or, you can just read Super Thinking, a fun, illustrated guide to every mental model you could possibly need. How can mental models help you? Well, here are just a few examples... • If you've ever been overwhelmed by a to-do list that's grown too long, maybe you need the Eisenhower Decision Matrix to help you prioritize. • Use the 5 Whys model to better understand people's motivations or get to the root cause of a problem. • Before concluding that your colleague who messes up your projects is out to sabotage you, consider Hanlon's Razor for an alternative explanation. • Ever sat through a bad movie just because you paid a lot for the ticket? You might be falling prey to Sunk Cost Fallacy. • Set up Forcing Functions, like standing meeting or deadlines, to help grease the wheels for changes you want to occur. So, the next time you find yourself faced with a difficult decision or just trying to understand a complex situation, let Super Thinking upgrade your brain with mental models.
