The Case for Marriage Linda Waite, Maggie Gallagher, 2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced—physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The

Book of Virtues “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- The Wall Street Journal www.broadwaybooks.com

Web and Internet Economics Kristoffer Arnsfelt Hansen, Tracy Xiao Liu, Azarakhsh Malekian, 2022-12-08
This book constitutes the refereed proceedings of the 18th International Conference on Web and Internet Economics, WINE 2022, which was held Troy, NY, USA in December 2022. The 19 full papers presented together with 19 abstracts in this volume were carefully reviewed and selected from 126 submissions. They were organized in topical sections as follows: theoretical computer science, artificial intelligence, economics, operations research, and applied mathematics.

Official Gazette of the United States Patent and Trademark Office ,2001

Computer Methods in Biomechanics and Biomedical Engineering J. Middleton, M. L. Jones, G. N. Pande, 1996-03-18 These papers are concerned with new advances and novel solutions in the areas of biofluids, image-guided surgery, tissue engineering and cardiovascular mechanics, implant analysis, soft tissue mechanics, bone remodeling and motion analysis. The contents also feature a special section on dental materials, dental adhesives and orthodontic mechanics. This edition contains many examples, tables and figures, and together with the many references, provides the reader with invaluable information on the latest theoretical developments and applications.

Intimate Communities Nicole Elizabeth Barnes, 2018-10-23 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. When China's War of Resistance against

Japan began in July 1937, it sparked an immediate health crisis throughout China. In the end, China not only survived the war but emerged from the trauma with a more cohesive population. Intimate Communities argues that women who worked as military and civilian nurses, doctors, and midwives during this turbulent period built the national community, one relationship at a time. In a country with a majority illiterate, agricultural population that could not relate to urban elites' conceptualization of nationalism, these women used their work of healing to create emotional bonds with soldiers and civilians from across the country. These bonds transcended the divides of social class, region, gender, and language.

Advances in Web-Based Learning - ICWL 2004

Wenyin Liu, Yuanchun Shi, Li Qing, 2004-12-06 With the rapid development of Web-based learning and new concepts like virtual classrooms, virtual laboratories and virtual universities, many issues need to be addressed. On the technical side, there is a need for effective technology for deployment of Web-based education. On the learning side, the cyber mode of learning is very different from classroom-based learning. How can instructional development cope with this new style of learning? On the management side, the establishment of the cyber university - poses very different requirements for the set-up. Does industry-university partnership provide a solution to addressing the technological and management issues? Why do we need to standardize e-learning and what can we do already? As with many other new developments, more research is needed to establish the concepts and best practice for Web-based learning. ICWL 2004, the 3rd International Conference on Web-Based Learning, was held at the Tsinghua University (Beijing, China) from August 8th to 11th, 2004, as a continued attempt to address many of the above-mentioned issues. Following the great successes

of ICWL 2002 (Hong Kong) and ICWL 2003 (Australia), ICWL 2004 aimed at presenting new progress in the technical, pedagogical, as well as management issues of Web-based learning. The conference featured a comprehensive program, including a tutorial session, a keynote talk, a main track for regular paper presentations, and an industrial track. We received 120 papers and accepted only 58 of them in the main track for both oral and poster presentations.

Tendencias de investigación en contabilidad

Marisleidy Alba Cabañas, 2020-12-11 La necesidad imperiosa de conocer las tendencias actuales de investigación científica, así como las perspectivas y las líneas de trabajo futuras en contabilidad, es lo que lleva a desarrollar este libro de investigación. Bajo un enfoque descriptivo-explicativo, y por medio del análisis bibliométrico y de tendencias de investigación, las autoras analizan los estudios presentados en los últimos cinco años. En razón de lo anterior, mediante una mirada macro, orientan la investigación en la Facultad de Contaduría Pública de la Universidad Externado de Colombia, lo cual les permite aportar a la renovación y creación de nuevos programas que se impartan tanto en pregrado como en posgrado. El libro se desarrolla alrededor de una identificación de las motivaciones, antecedentes y actualidad de las investigaciones sobre las líneas de estudios contables, control organizacional y ciencias del crimen económico, como pilares fundamentales de la disciplina de la contabilidad.

Homoerotic Sensibilities in Late Imperial China

Cuncun Wu, 2004-08-02 Homoerotic Sensibilities in Late Imperial China is the richest exploration to date of late

imperial Chinese literati interest in male love. Employing primary sources such as miscellanies, poetry, fiction and 'flower guides', Wu Cuncun argues that male homoeroticism played a central role in the cultural life of late imperial Chinese literati elites. Countering recent arguments that homosexuality was marginal and disparaged during this period, the book also seeks to trace the relationship of homoeroticism to status and power. In addition to historical portraits and analysis, the book also advances the concept of 'sensibilities' as a method for interpreting the complex range of homoerotic texts produced in late imperial China.
