Silence, Space and Absence in Conrad's Works John G. Peters,2023-11-13 This book considers the relationship between sound and silence in the works of Joseph Conrad, along with their ties to Western and non-Western space. Throughout Conrad’s works, a pattern emerges where Western space is associated with sound and non-Western space is associated with silence; similarly, Western space is portrayed as full of objects and activity, whereas non-Western space is portrayed as empty. As these tales progress, though, Conrad’s characters embark on transformational journeys that cause them to reassess the world they live in and sometimes even the nature of the universe. These journeys invariably occur through encountering non-Western space, and during the course of these journeys, the dichotomy between Western space, perceived as replete with sound and activity, and non-Western space, empty of such, blurs such that the fullness of the West is revealed to be simply a surface hiding the emptiness beneath. In the end, both Western and non-Western space are revealed to be absences, as the absence of sound becomes a correlative for the emptiness of space and the emptiness of space becomes a metonym for the cosmological emptiness of nothingness.

The Gun Digest Book of Modern Gun Values Ken Ramage,2001-06 Firearms made since 1900 are far more numerous than those made before 1900. Many of these post-1900 firearms are found at auctions, arms retailers, in advertisements, and as 'young' family heirlooms. Much more affordable and plentiful than pre-1900 collector-grade arms, many of these post-1900 guns are increasingly viewed as collectible, valuable assets. This all-new expanded edition helps collectors identify firearms, evaluate conditions, and determine values. Detailed specifications and current values from specialized experts are provided for domestic and imported handguns, rifles, shotguns, and commemorative firearms. Heavily illustrated with more than 8,000 arms, each listing includes descriptions and values in three grades of condition, according to the NRA's Modern standards. A new 8-page color section hosts many popular arms.
