The New Prophet Kevin MacNevin Clark,2020-09-06 Knowing his final days are upon him and wanting to be with family, the great counselor Ishala returns to his hometown where he had spent many years healing wounds and providing hope to so many. His beloved son Ezekiel sits with him through his last days, and together they share a sacred conversation in which the son asks his father to bestow upon him his wisdom regarding the human condition. The counselor—a man who has lived a life of love and service with each word he spoke and each breath he took—recounts parables and enriches his meaning through metaphor as he leaves his son with this beautiful parting gift. Inspired by Kahlil Gibran's *The Prophet*, Kevin MacNevin Clark presents deep meditative truths that will awaken your heart. This book is as much for those hurting as it is for the hopeful.

Fevered Hearts Macy Lewis,2018-10-22 When Dr. Jamie Frothington embarks on a service trip to Liberia, he isn't prepared for the horrors of death and pain. The terrible effects of the highly contagious Ebola virus send his mind into the past as he relives the heartless murder of his parents. Drowning the pieces of his shattered heart in gin, Jamie allows his demons to take over. The undeserving target of his angst is his colleague, Nurse Sarah Ellison. Despite emotional turmoil, Jamie's busted heart finds a way to fall in love with Sarah—and she with him. Their newfound relationship is severely challenged, though, when they are forced at knifepoint into the blistering heat of the African desert by terrorists. Sarah, an eternal optimist, finds her positive attitude impossible to sustain, especially when the local terrorist's ruthless son threatens both her life and virtue. Jamie's weakened body and faltering heart may cost him everything, including the woman he loves. He is on a pain-filled tragic trajectory that will end in death if he cannot find hope in the depths of despair and hold on to the warmth of Sarah's love.

The Human Inside Y.T. Cheng,2017-09-30 Two years after

they decided to go out into the world, 117 and his friends return once more for a priority mission that's out of their world. Quite literally. Under peace time conditions, they have been deemed obsolete and unnecessary but when an old friend supposedly returns from the dead, they are the only ones qualified to prepare for the cataclysm approaching their unsuspecting planet. For the survival of humanity, the amborgs go to space to prepare for an interstellar war. The universes are forever changed as they are joined by a defense fleet of the S.C.E. from their next-door universe to fight against an alien species that are coming. Will the combined effort of two universes and the cooperation between this alliance be enough to turn the tide of the war in their favor? Will the amborgs learn about what the alternate universe has to provide? Impossible odds and a very unlikely chance of success. Another typical day for an amborg.

May It Fill Your Soul Timothy Rice,1994-07-13 In this vivid musical ethnography, Timothy Rice documents and interprets the history of folk music, song, and dance in Bulgaria over a seventy-year period of dramatic change. From 1920 to 1989, Bulgaria changed from a nearly medieval village society to a Stalinist planned industrial economy to a chaotic mix of capitalist and socialist markets and cultures. In the context of this history, Rice brings Bulgarian folk music to life by focusing on the biography of the Varimezov family, including the musician Kostadin and his wife Todora, a singer. Combining interviews with his own experiences of learning how to play, sing and dance Bulgarian folk music, Rice presents one of the most detailed accounts of traditional, aural learning processes in the ethnomusicological literature. Using a combination of traditionally dichotomous musicological and ethnographic approaches, Rice tells the story of how individual musicians learned their tradition, how they lived

it during the pre-Communist era of family farming, how the tradition changed with industrialization brought under Communism, and finally, how it flourished and evolved in the recent, unstable political climate. This work—complete with a compact disc and numerous illustrations and musical examples—contributes not only to ethnomusicological theory and method, but also to our understanding of Slavic folklore, Eastern European anthropology, and cultural processes in Socialist states.

Casting a Giant Shadow Rachel S. Harris, Dan Chyutin, 2021-07-06 Film came to the territory that eventually became Israel not long after the medium was born. *Casting a Giant Shadow* is a collection of articles that embraces the notion of transnationalism to consider the limits of what is Israeli within Israeli cinema. As the State of Israel developed, so did its film industries. Moving beyond the early films of the Yishuv, which focused on the creation of national identity, the industry and its transnational ties became more important as filmmakers and film stars migrated out and foreign films, filmmakers, and actors came to Israel to take advantage of high-quality production values and talent. This volume, edited by Rachel Harris and Dan Chyutin, uses the idea of transnationalism to challenge the concept of a singular definition of Israeli cinema. *Casting a Giant Shadow* offers a new understanding of how cinema has operated artistically and structurally in terms of funding, distribution, and reception. The result is a thorough investigation of the complex structure of the transnational and its impact on national specificity when considered on the global stage.

The Globalization of Gender Ioana Cîrstocea, Delphine Lacombe, Elisabeth Marteu, 2019-07-04 This book provides an insightful approach to understanding the contemporary

circulations of feminist repertoires and shows how the international/transnational circulations of gender are interconnected, even coextensive, with the globalization process itself. Fed by a shared reflexivity on relations among activist groups, state institutions, and international actors involved in the production and dissemination of contemporary norms dealing with gender, each chapter shares methodological premises and studies the circulation of gender-related norms and knowledge in situ and by varying standpoints. Specifically, the authors de-compartmentalize the academic disciplines and go beyond classical geographic divisions, in order to map social spaces and networks of actors involved in the production and circulation of gender-related repertoires. Last, the book grasps circulatory processes and entangled social phenomena, which are usually subject to disciplinary and thematic divisions separating collective action and public action, development aid and feminism, law and international relations. Focused on collective and individual experiences within women's organizations, activist careers, unstable mobilizations, public policies temporalities, the chapters reveal the mechanisms through which these arrangements are made and shed light on strategies deployed by actors rooted in specific social and political contexts. This book will be of key interest to students and scholars of gender studies and more broadly to politics, International Relations, sociology, geography, history, and anthropology.

The Girl on the Kerb C. Litka, 2023-03-30 The red 8:25 tram crossed Crane House Lane and disappeared behind Villiers House, sealing my fate. I'd be late for work. I slowed to a walk and took another bite of toast. I found I didn't care. It was that kind of day. - Henri Hardy, *The Girl on the Kerb* It took several months for Henri Hardy to discover just what type of day it really was. It was more than a day when his alarm clock failed to ring. It was more than an unusually mild day in early spring. It was a prelude to undreamed of changes in his life as an analytical engineer in the Ministry of Innovation. It was a prelude to travel, adventure, danger, and romance. Fifteen hundred years before that day, a devastating plague swept across the planets, moons, and space ships of Earth's solar system spanning civilization. It ended space travel and forced the surviving population of the resource depleted Earth to live at a near 20th century level of technology, while endlessly recycling the remains of their once highly advanced civilization. To that end, every aspect of their society is governed by an elaborate set of laws known as the Code. But not everyone is content to live at the reduced level of technology dictated by the Code. There are those who dream of returning to space and the planets. Once such person is the administrator of Europe's EuraEast region, the Duchess of

Fauconcourt. She has made it clear that she intends to alter the Code, one way or another, much to the alarm of the neighboring regions' administrators. So when an illegal flying machine that crashes in EuraEast comes to the attention of the administrators of EuraCentre and EuraNorthwest, they recruit two amateur agents. One being Henri Hardy, the other is Jeanne Murat, an expert in EuraEast. Together they set out as a team for EuraEast seeking the evidence needed to compel the World Government to preemptively act to foil the Duchess' dangerous ambitions. Murat and Hardy soon discover that not only had their governments selected them as a team, fate had as well. Nevertheless, their mission to EuraEast goes south almost immediately, propelling them into one perilous situation after another, even as they seek to uncover the Duchess' secret plans. *The Girl on the Kerb* is a new full length novel from the pen of C. Litka. It blends a far future world with a nostalgic past in an espionage novel filled with intrigue, adventure, and romance, told in his classic lighthearted style. Like all his novels, it features engaging characters, witty dialog, meticulous world-building, and mysteries to be solved in unexpected ways. C. Litka's novella *Keiree* is set on Mars after this same plague and in this same time period, so that *The Girl on the Kerb* can be read, not as a sequel, but as a companion piece to that story, answering the question of what happened on Earth. And vice versa.
