Midnight in Issaquah Frances Pope,2023-01-29 Providence Heights Campus in Issaquah, Washington, was designed in the 1950's as state-of-the-art modern gothic architecture and completed by the Sisters of Providence in 1961. The purpose of the campus was to give equal opportunity to women religious on an equal basis to the men of the Catholic Church. Providence Heights was only one of two for that purpose in the United States. Times were changing in the Catholic Church during the 1960's and by 1969 the original purpose of Providence Heights as an educational opportunity for women became untenable. The campus was sold to Lutheran Bible Institute and eventually to The City Church. In 2016 the property was listed as endangered by the Washington Trust for Historic Preservation. Local and regional groups fought hard to preserve the campus. Preserve Providence Heights was the last. This is their story.

Pressing the Police and Policing the Press Scott Memmel,2024-06-14 In the second half of 2020 and continuing into 2021, protests against racial injustice spread across the United States after the death of George Floyd while in the custody of Minneapolis Police Department officers. Members of the press covered these demonstrations, documenting what transpired and conveying the important messages involved. In so doing, the news media held law enforcement accountable through critical reporting on the actions of the police, with police officers responding in part by intimidating journalists in the field using force and arrest--this in the name of keeping the peace and protecting the public from further harm. What transpired during this troubled time cast a bright light on the contemporary relationship between the press and police in the United States. The relationship between these two fundamental institutions is, however, a long and complicated one, dating back to colonial British North America. In the mid-19th century, (1830s-1850s) both the press and the police began to take their modern forms, and since then have continued to develop, routinely interacting with each other as journalists and police officers often found themselves responding to the same crimes and events. At times, members of both institutions managed to co-exist or even cooperate and made efforts to help one another, while at other times they butted heads to the point of conflict, the professional boundaries between journalists and police officers seemingly blurred. As both the press and the police have fallen under deep scrutiny in more modern times, the present moment marks what is, perhaps, an opportune time to focus on the political, economic, social, and technological problems they face. In "Pressing the Police and Policing the Press," Scott Memmel offers the first book-length study of the history and legal landscape of the press-police relationship. Each chapter focuses on interactions between the press and the police during a particular era, introducing relevant societal context and how both institutions evolved and responded to that context. Memmel concludes his study with recommendations on how, going forward, the press and the police might work together to tackle some of the similar issues they face and better serve the public.
