The Home Edit Clea Shearer,Joanna Teplin,2019-03-19 NEW YORK TIMES BESTSELLER • From the stars of the Netflix series Get Organized with The Home Edit (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. “A master class on how to arrange even your most unattractive belongings—and spaces—in an aesthetically pleasing and easy-to-navigate way.”—Glamour (10 Books to Help You Live Your Best Life) Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it’s not hard to do—in fact, it’s a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea’s signature approach to decluttering. The Home Edit walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don’t need another do-over in six months. When you’re done, you’ll not only know exactly where to find things, but you’ll also love the way it looks. A masterclass and look book in one, The Home Edit is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there’s nothing like a little ROYGBIV to soothe the soul). Above all, it’s like having your best friends at your side to help you turn the chaos into calm. Includes a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397).

A software engineer organizer – new special solution A. Юрков,А. Хитёв,2022-01-27 Issues which make engineers choose and use work time organizing systems are reviewed in this article. In addition, an overview of modern applications from this segment is provided and a notes system is proposed as a simple and effective tool to increase workflow effectiveness.And finally, requirements, model and development principles for an application to solve all these issues are described. The application was developed on the basis of the Spring Boot framework with partial use of the Domain Driven Development ideas. It has a good level of code coverage by autotests due to using the Test Driven Development. For posting of source codes in the Internet, the GitHub repository and the free open source software GPL v3 license have been chosen. The developed organizer helps to avoid waste of time for searching old data in case of work resumption under tickets suspended some time ago due to systematization of all required information, files and sub tasks. Regular using of the organizer makes it possible to increase efficiency of a software engineer’s and the whole development team’s work through minimization of time taken by routine operations connected with search for and use of project related information.
