Will Taiwan Break Away Cheong Ching,Xiang

Cheng,2001-01-01 The March 2000 presidential elections in

Taiwan returned a pro-independence candidate. This marks a turning point in Taiwanese politics, as well as bilateral relations across the strait. The Taiwan issue is extremely difficult to resolve for it straddles three centuries. Separatism originated in the 19th century, intensified in the 20th century and is likely to explode in the 21st century. Being one of the few journalists who possess in-depth knowledge of both sides of the Taiwan Straits, the author is able to give a factual account and offer explanations for the developments that led eventually to the change of the political landscape of the island. This book is a collection of selected news reports, analyses and commentaries which were written by the author between 1998 and 2000 during his posting to Taiwan. The first part traces the development of cross-strait relations since the presidential elections. The second part gives a factual account of the election process at different points in time, as well as the author's interpretation of the result. The next part covers news and analyses of cross-strait relations, especially the unification-independence dispute and the deterioration of cross-strait relations after Taiwanese ex-president Lee Tenghui formulates his 'two-states' policy. The final part sets cross-strait relations in the broader perspective of the trilateral relationship between Beijing, Taipei and Washington, the latter a key player in this uneasy co-existence. This book would be a good reference for anyone interested in the history and current political developments in Taiwan.

Rogue Males: Richard Burton, Howard Marks and Sir Richard

Burton Rob Walters, 2006-12-12 Sir Richard Burton is best known as an explorer and translator of Arabian and Indian books, many of them sexually explicit. He was known as "Ruffian Dick" and led a life well beyond the pale of the typical Victorian. Richard Burton was a very famous actor with a brilliant voice and the looks to accompany it. Sometimes known as "Beer Burton", he married Elizabeth Taylor twice and led a life which was often as dramatic as the characters that he played. Howard Marks became famous as a cannabis smuggler. He used the alias "Mr Nice" and adopted this as the title of a book that describes his exploits and ultimate incarceration in an American jail. Each of these men has a roguish streak to their character, but they also have a number of other things in common - one of which is that they each began their adult life at Oxford University. In fact they attended three colleges which stand, cheek by jowl on Oxford's Broad Street: Exeter, Balliol and Trinity. Each was a master of disguise, though for rather different ends. Each was a great traveller, Howard for the drug trafficking, Richard for the film sets and Sir Richard for exploration and consular duties. They were all writers. Two of them were Welsh, two shared a name, two are dead, and all three are famous in their different ways. Finally they were all iconoclasts, mould breakers in different times and in different worlds. This book illuminates the fascinating lives of each of these interesting men, but also speculates on how they might react to each other. It recreates the Oxford that bred them, traces their subsequent lives, and then leads them back to the city so that they can meet and discourse upon: American hegemony, the freedom to consume drugs, the role of feminism and the value of education. These topics are exposed to the soaring intellectuality and conservatism of the older Burton, the articulation of the younger Burton and the liberality of Marks. The results are sometimes shocking, always interesting, and often edifying.
