Each vibrantly coloured, hand-rendered poster design features a particular destination, ranging from the main art cities (such as Florence and Bologna) to lesser known alpine jewels (such as Cadore and Dobbiaco). Nordic Italies Elettra Carbone,2016-01-22 Because of its history, art, and natural and cultural landscapes, Italy has been a popular destination for North-European travellers since the age of the Grand Tour. Yet, literary images of Italy are not all linked to the tradition of the journey to this country and cannot be labelled as a manifestation of Northerners' yearning for the Southern sun. The corpus of critical literature which deals with Italy in Nordic literatures is very wide but also fragmentary. While many scholars have written about this topic and chiefly on the relations between individual Scandinavian literatures or well-known authors – such as Henrik Ibsen, Selma Lagerlöf and Hans Christian Andersen – and Italy, few have emphasised their variety, plurality, and complexity. With its comparative approach, this study casts a new light on a selection of nineteenth- and twentieth-century representations of Italy and presents some of these Nordic Italies. Taking into account texts of different genres – poetry, drama and novel – and focusing on theories of representation, genre, and space, this book examines complex and heterogeneous literary representations that cannot be reduced to a single stereotype. In these texts, Italy emerges both as a set of physical spaces and as a series of metaphorical concepts. How are these Italian spaces and identities constructed and what do they stand for? What forms does the broad concept of Italianness take in these literary works? How are the Italian settings and characters, as well as the aspects of Italian politics, history, society, culture, and folklore that populate so many literary texts, shaped and combined? Is there a relationship between specific literary genres and the way in which Italy is represented? These are only some of the questions addressed by this study, which demonstrates how Nordic representations of Italy express much more than unanimous praise for the sun, idyllic landscapes, ruins, and mandolin players.

Italy for Sale ,2023-08-14 In the late nineteenth and early twentieth centuries, Italian Renaissance art, objects, and even the idea of Italy itself figured heavily both in the dynamic international art market and in the eyes of the general public. The alternative objects that were actively dispersed and collected -- authentic works, pastiches, Renaissance-inspired counterfeits, and reproductions -- in the diverse media of paint, plaster, terracotta, and photography, had a tremendous impact on visual culture across social strata. These essays examine less studied aspects of this market through the lens of just a few of the countless successful sales of objects out of Italy.

Dickens and Italy Marialuisa Bignami,Michael Hollington,2020-06-01 'Dickens and America' has been amply studied, his no less important relationship to Italy much less so, despite his friend Forster's assertion that his long stay in Genoa represented 'the turning-point of his career.' This book, arising from a major conference held in Genoa in 2007, attempts to redress the balance, focusing primarily on Dickens's two major writings about

Italy—the travel book *Pictures from Italy* of 1845, and Part Two of his great novel *Little Dorrit* of 1855–7. It falls into six sections: the first concerns Dickens's enjoyment of leisure for the first time in his life in Italy; the second, his response to the visual attractions of Italy, both natural and artistic; the third, his political stance about Italy in the period of the Risorgimento; the fourth, his preoccupation with death and decay in what he saw and experienced in Italy; the fifth, his representation of 'Italianness' in *Little Dorrit* and elsewhere; and the sixth, his relation to modern and contemporary writers about Italy. It thus aims to fill a vital gap in Dickens studies.

Durs Grünbein Michael Eskin,Karen Leeder,Christopher Young,2013-03-01 Durs Grünbein is the most significant poet and essayist in German today. No other modern German poet has written from such an emphatically European and global perspective, and this volume seeks to present the poet and his work to the English-speaking world in all their significance and breadth. Written by a line-up of international scholars and critics, the volume offers highly readable and wide-ranging essays on Grünbein's substantial oeuvre, complemented by specially commissioned material and an interview with the poet. It covers the German and European traditions, and engages with Grünbein's works in the context of a number of relevant topics, such as 'memory', 'urban life', 'mortality', 'love', and 'presence'; it also probes Grünbein's sustained dialogue with the natural sciences and the visual arts.

The Idea of Europe in British Travel Narratives, 1789-1914 Dr Katarina Gephardt,2014-08-28 Showing how specific rhetorical strategies used in nineteenth-century British travel writing produced fictional representations of continental Europe in works by Ann Radcliffe, Lord Byron, Charles Dickens, and Bram Stoker, Katarina Gephardt argues that nineteenth-century writers envisioned their country simultaneously as distinct from the Continent and as a part of Europe. She suggests that their imaginative geography of Europe anticipated Britain's ambivalence about European integration.
