East Kent Road Car Company Ltd Richard Wallace, 2016-02-29 East Kent Road Car Company Ltd - A Century of Service, 1916-2016, celebrates one hundred years of a bus operation that is still very much recognizable for its origins. Unlike so many proud names that have disappeared in recent times, the old identity of East Kent Road Car Co Ltd is still carried as the legal lettering on the Stagecoach-owned buses operating in the area today. This book takes the reader on a journey through those one hundred years. It covers the initial developments of the 1920s and 30s, the challenges of World War II, the halcyon days of the 1950s and the descent into the economic struggles of the 1960s. Nationalization and an eventual move back into the private sector are also covered, finishing with a description of the innovative approach to new services developed by the local Stagecoach management today. With over two hundred illustrations, both black and white and colour, many previously unpublished, this book provides a wide-ranging historical and pictorial record of the buses, artefacts and operations of the East Kent Road Car Company. Fully illustrated with over 200 colour and black & white illustrations, many previously unpublished.

Sustainable Pavements and Road Materials : Proceedings of the 7th SIIV Arena, Naples, Italy 9th September 2022 Francesco Abbondati, 2022-09-08 [Italiano]: La SIIV Arena è uno spazio di confronto nel quale dottorandi e giovani studiosi delle diverse sedi accademiche illustrano le loro ricerche su temi di specifico interesse per il Settore Scientifico Disciplinare ICAR/04 "Strade, Ferrovie e Aeroporti". Questo volume raccoglie gli atti della 7a SIIV Arena, tenutasi a Napoli il 9 settembre 2022, e svoltasi nell'ambito della XVIII International SIIV Summer School: "Sustainable Pavements and Road Materials". Il ricorso a tecnologie di costruzione e manutenzione basate su principi di sostenibilità, resilienza ed economia circolare, sono di riferimento, in sinergia con l'utilizzo di materie prime seconde, per il raggiungimento di adeguate performance meccaniche per il corpo stradale, a ridotto impatto ambientale e costi. Il gradiente di crescita registrato nell'ambito delle infrastrutture civili ha definito un incessante ricorso all'utilizzo di risorse naturali con conseguenti effetti negativi in termini di sostenibilità ambientale. Il reimpiego di rifiuti nei processi di mix design e il ricorso all'uso di sistemi di lavorazione in situ e/o tecnologie a "bassa energia" (i.e. conglomerati bituminosi a freddo e/o tiepidi) accolgono in pieno gli obiettivi alla base dei principi dell'economia circolare. Tale volume si propone di raccogliere le ricerche più innovative nel settore presentate nell'ambito della 7a SIIV Arena analizzando aspetti relativi alla progettazione, costruzione e manutenzione nel suo complesso delle pavimentazioni e corpo stradale./[English]: The SIIV Arena is a space for discussion in which PhD students and young scholars from various universities illustrate their research on topics of specific interest for the Scientific Disciplinary Sector ICAR/04 "Roads, Railways and Airports". This volume collects the proceedings of the 7th SIIV Arena, held in Naples on 9 September 2022, and held as part of the XVIII International SIIV Summer School: Sustainable Pavements and Road Materials. The use of construction and maintenance technologies based on principles of sustainability, resilience and circular economy, are a reference, in synergy with the use of secondary raw materials, for achieving adequate mechanical performance for the road structure, with a reduced environmental impact. and costs. The growth gradient recorded in the field of civil infrastructures has defined an incessant use of natural resources with consequent negative effects in terms of environmental sustainability. The reuse of waste in mix design processes and the use of in situ processing systems and/or low energy technologies (i.e., cold and/or warm asphalt mixtures) fully meet the objectives underlying the principles of the circular economy. This volume aims to collect the most innovative research in the sector presented in the context of the 7th SIIV Arena by analyzing aspects relating to the design, construction and maintenance of the pavement and road infrastructure as a whole.

But when a lorry delivering animal feed is found jammed in the narrow lane, with no sign of the driver except for a blood-stained cab, it's the beginning of something much more sinister... 'Booth skilfully portrays a stunning landscape with a dark heart that conceals secrets, vendettas and revenge.' Daily Mail on The Corpse Bridge

Fiat Giorgio Garuzzo,2014-03-28 This book is an authentic historical document, supported by extensive analytical information, in which former Fiat top manager Giorgio Garuzzo passionately recounts his experience within Fiat between 1976 and 1996. It is a narrative from the inside that sheds new light on events that have remained cloaked in mystery: the arrival and departure of Carlo De Benedetti, the “march of the forty thousand”, the sacking of Vittorio Ghidella, the clashes between Umberto Agnelli and Cesare Romiti, the Group’s involvement in the “clean hands” scandal, the role of Gianni Agnelli and his relationships with his brother and Cesare Romiti and the intervention of Mediobanca. Garuzzo discusses the issues connected with the range of cars and marques, touching on major themes of national or international relevance that were unrelated to Fiat but nonetheless conditioned its activities: terrorism and the unmanageability of the factories, inflation, the devaluation of the lira, the role of the trade unions and the General Confederation of Italian Industry, Japanese competition and European integration.

United Counties Buses David Beddall,2020-08-19 An informative history covering nearly a century of this British bus company, packed with facts and photos. United Counties Buses: A Fleet History begins by taking a brief look at the expansion of the United Counties Omnibus Company since its formation in September 1921 through its demise in October 2014. The company acquired over fifty independent operators between 1922 and 1938, giving it prominence in Northamptonshire and surrounding areas. May 1952 saw the fleet double in size with the acquisition of the Midland area of the Eastern National Omnibus Company, encompassing Bedfordshire, north Buckinghamshire, and north Hertfordshire. The National Bus Company split United Counties into three operating companies in 1986, United Counties, Luton & District and MK Citybus, halving the size of the fleet. After being acquired by the Stagecoach Group in 1987, the company was largely left untouched. The main focus of the book looks at the vehicles operated by the company, covering the numerous types operated by United Counties themselves. The various liveries, both fleet and advertising liveries, are also listed.

The London Mini and Midi Bus Types David Beddall,2024-05-30 London Passenger Transport Board inherited a number of small buses from various independent operators during the early 1930s, followed by the introduction of the Leyland Cub around the same period. The introduction of the big-bus policy saw many of the small buses withdrawn from service. The 1950s saw the introduction of the GS-class Guy Special for use on the lightly-trafficked country routes. More smaller buses entered the London Transport fleet in the form of the Ford Transit and Bristol LH / LHS saloons. The mid-1980s saw a resurgence in small-bus operation as a cost-cutting exercise. Many new types entered service with London Buses Limited and other independent operators. The introduction of these minibuses saw a number of new services introduced to serve previously unserved areas of London. However, the success of these small buses led to their replacement by the larger Dennis Dart midibus. while the introduction of varying lengths of Darts catered for many of London’s needs, other types of mini and midibuses were taken into stock by London based operators for fill in gaps. London’s Mini and midibuses takes a look at the various types of mini and midibuses that have operated on routes in the Greater London area.
