West Australian Football Golden Era 1984-86 Kieran James, 2017-11-28 This book is the memoir of Kieran James, and details his experiences as co-founder of West Perth Football Club's unofficial cheer squad from 1984 to 1986. The book details traditional, hot support for West Perth Football Club among teenaged supporters from middle-class and working-class backgrounds. The book shows how, because of neo-liberal ideologies and the corporatization of football, the new national league (the expanded VFL / AFL) relegated the WAFL to a second-tier league in 1987. This move took place over the heads of ordinary football supporters and two WAFL club presidents. Moves to bring the game closer to the people in 1984, such as holding the best-and-fairest award count night at Perth Entertainment Centre, should be seen in this light. This book will allow supporters to relive great teams, great players, and great matches from a wonderful era in WA football 1984-86 before West Coast Eagles joined the expanded VFL.

Legacies of Great Men in World Soccer Kausik Bandyopadhyay, 2017-10-02 Soccer, the world's most popular mass spectator sport, gives birth to great achievers on the field of play all the time. While some of them become heroes and stars during their playing career, transforming themselves into national as well as global icons, very few come to be remembered as all-time greats. They leave an enduring legacy and thereby claim to be legends by their own rights. While the rise and achievements of these soccer greats have drawn considerable attention from scholars across the world, their legacies across time and space have mostly been overlooked. This volume intends to reconstruct the significance of the legacies of such great men of world soccer particularly in a globalized world. It will attempt to show that these luminous personalities not only represent their national identity at the global stage, but also highlight the proven role of the players or coaches in projecting a global image, cutting across affiliations of nation, region, class, community, religion, gender and so on. In other words, the true heroes, icons and legends of the world's most popular sport have always floated at a transnational global space, transcending the limits of space, identity or culture of a nation. This book was published as a special issue of Soccer and Society.

Consumer Behaviour in Asia Hellmut Schütte, Deanna Ciarlante, 2016-07-27 Success in the Asian market is crucial to many firms. Yet many marketing strategies are based on a 'western' perspective of what consumers want and respond to. In Consumer Behaviour in Asia, the authors argue that Asian culture is so fundamentally different to Western Culture that existing consumer behaviour concepts cannot be applied to Asian consumers. In this book the authors outline and explain these differences and put forward modifications to many well-known consumer behaviour concepts. Consumer Behaviour in Asia shows how firms need to modify their marketing strategies in such areas as segmentation, positioning and the marketing mix in order to successfully penetrate these markets.

Sports in African History, Politics, and Identity Formation Michael J. Gennaro, Saheed Aderinto, 2019-04-01 Sports in African History, Politics, and Identity Formation explores how sports can render a key to unlocking complex social, political, economic, and gendered relations across Africa and the Diaspora. Sports hold significant value and have an intricate relationship with many components of African societies throughout history. For many Africans, sports are a way of life, a site of cultural heroes, a way out of poverty and social mobility, and a site for leisurely play. This book focuses on the many ways in which sports uniquely reflect changing cultural trends at diverse levels of African societies. The contributors detail various sports, such as football, cricket, ping pong, and rugby, across the continent to show how sports lay at the heart of the discourse of nationalism, self-fashioning, gender and masculinity, leisure and play, challenges of underdevelopment, and ideas of progress. Bringing together the newest and most innovative scholarship on African sports, this book will be of interest to students and scholars of contemporary Africa, African history, culture and society, and sports history and politics.

COVID-19 and the Soccer World Kausik Bandyopadhyay,2022-09-05 The spread of COVID-19 and the consequent pandemic since early 2020 have brought about unprecedented changes in all spheres of global life, creating a new sense of (in)security with social distancing, physical isolation, quarantine and lockdown becoming buzzwords to combat the disease. As in all spheres of life, the first wave of the pandemic posed serious challenges to the world of soccer, with diverse and intriguing responses across the globe. This book documents the early impressions and initial responses of various stakeholders of the soccer world to the challenges of COVID-19 in 2020. It reveals how the process of confrontation, negotiation, adjustment and overcoming against such challenges necessitated and inspired novel responses and strong improvisations from soccer bodies to players, referees to spectators, and journalists to sponsors. This process has revealed abrupt as well as radical changes in the organization, rules, spectatorship and telecast of the game, thereby affecting the game’s cultural dimensions, commercial prospects and political implications. The volume points out that the way soccer has adjusted to the ‘new normal’ standard of the ‘COVID Regime’ has elicited newer meanings and nuanced representations of the game. The chapters in this book were originally published as a special issue of the journal, Soccer & Society.

Women’s Club Football in Brazil and Colombia Mark Biram,2024-01-15 The first women’s football book on Latin America centring the perspectives of players brings rare interview material that cuts through the clichés to uncover the lived reality of women footballers. It includes the first large-scale survey of South American women footballers’ views into dialogue with institutional and media perspectives. The early chapters consider the backdrop Latin American women footballers operate in, a media and institutional panorama that privileges a heteronormative athletic femininity whilst ensuring women’s football is never portrayed as anything other than an inferior version of the hegemonic (men’s) game. Following this, drawing on nine months of ethnographic fieldwork in which 33 semi-structured interviews were carried out with players and institutional figures, this pioneering book foregrounds the lived reality of women’s football in three strategic locations. Firstly, three months were spent in the Amazon region of Brazil where Esporte Clube Iranduba provides a fascinating alternative model for the growth of women’s football. This is contrasted with Santos FC, where women’s football tends to be constantly overshadowed by the presence of banal patriarchy, and finally with another fleeting glimpse of how another model is possible at Atlético Huila of Colombia, the surprise winner of the women’s Copa Libertadores in 2018.

Routledge Handbook of Sport and COVID-19 Stephen Frawley,Nico Schulenkorf,2022-08-24 This book examines the initial impact of the coronavirus pandemic on global sport and the varying consequences of the sport shutdown on all levels of society. It also considers the many lessons that have been learnt so that sport stakeholders can successfully adjust and operate under the new normal. Featuring authors, cases and examples from around the world, the book explores the impact of COVID-19 on sport at all levels, from community sport – where local clubs, gyms and development programmes had to find ways to survive with pitches closed and projects cancelled – to the major professional sport leagues and sport mega-events, with events postponed and teams playing in empty stadia. It considers the economic, social and developmental impacts of the pandemic, including physical, mental and social wellbeing, and looks at how key professional and community sport organizations have reacted to the crisis, reflecting on the lessons learnt and preparations for future pandemics and challenges of similar size and significance. With COVID-19 now endemic in the global population, this is an essential reference for anybody working in sport, from students and researchers to managers, policymakers and development officers.

Globalized Sport Management in Diverse Cultural Contexts James J. Zhang,Brenda G. Pitts,2019-04-05 Cross-cultural management is an important facet of the globalized sport industry. Sport managers must be skilled at working with individuals from diverse cultures and aware of the key issues affecting sport on a global level. This book brings together cutting-edge research from leading sport scholars from around the world, to illuminate some of those important issues and to demonstrate what cross-cultural management looks like in a sporting context. Presenting case studies from countries as diverse as the US, Brazil, Poland and Venezuela, and across a range of sports from football to basketball, the book presents new empirical material derived from a range of inquiry protocols, including both qualitative and quantitative methods. It offers critical analyses of cross-cultural and managerial issues in key areas such as group cohesiveness, group communications, and misperception and misinterpretation. Making an important contribution to our understanding of both theory and practice in sport management, this book is fascinating reading for any student, researcher or practitioner with an interest in global and international sport.

International Sport: A Bibliography, 1995-1999 Richard William Cox,2004-04-22 There has been an explosion in the quantity of sports history literature published in recent years, making it increasingly difficult to keep abreast of developments. The annual number of publications has increased from around 250 to 1,000 a year over the last decade. This is due in part to the fact that during the late 1980s and 90s, many clubs, leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements. It is also the result of the growing popularity and realisation of the importance of sport history research within academe. This international bibliography of books, articles, conference proceedings and essays in the English language is a one-stop for the sports historian to know what is new.
