Filter Bubbles and Targeted Advertising The New York Times Editorial Staff, 2019-07-15 Over a decade ago, tech companies began using algorithms to personalize our experience of the web. Using sophisticated technology and vast amounts of consumer data, companies began to predict our tastes better than we could ourselves. In response, ecommerce expanded, and journalism adapted itself to the personalized attention economy. However, there was a hidden side effect, which Eli Pariser termed the filter bubble, which is the exclusion of other perspectives from our tech-assisted preferences. Raising many hard questions including data security, political propaganda, and the pervasiveness of digital junk food, filter bubbles reveal the future challenges of a personalized, automated web. Features such as media literacy questions and terms enhance this collection, encouraging readers to analyze reporting styles and devices.

Studio Anywhere Nick Fancher, 2015 The concept for Studio Anywhere came from photographer Nick Fancher's experience trying to build model shots for his portfolio. As a young professional photographer with a family, he didn't have the money to rent out a studio, and he wasn't familiar with all the areas around some of his models' locations (when he was traveling, for example). So he started shooting in the models' living spaces. Each place was different—a penthouse here, a dark art space there—and they all forced him to think a bit outside the box and seek out photographic opportunities. He also had to carry little gear, traveling light. All this gave him the idea for this book, which highlights what one can do with a bit of portable gear, a grasp of photographic basics, and a lot of imagination in order to see the possibilities in any given situation. In *Studio Anywhere: A Photographer's Guide to Shooting in Unconventional*

Locations, Nick will cover different studios that can be created anywhere, from a basement to a street, from an office to a park, from a living room to a backyard. And he will do all this with just the following gear: 1-3 Speedlites, a foam core board, a grid for the flash, an umbrella, an ND filter, and gaffer tape. And because his photos have a unique look to them, Nick will also include his post-processing in Lightroom, with occasional pro tips as he jumps over to Photoshop for just a bit of heavier lifting in the digital darkroom. Nick will also have a Deconstruct this photo thread running throughout the book (one for each studio section), which will help students be able to better read photos (how many lights were used? what kind of modifier was used? where was the light placed?) in order to reverse engineer them, so that they can recreate similar lighting scenarios themselves. After reading *Studio Anywhere*, students will be inspired to get out and shoot in more unconventional locations, and will be equipped with the knowledge and know-how to do so.

More Is More Blake Morgan, 2017-04-21 “Less is more” may be good advice for many efforts, but it is terrible advice when it comes to customer experience. Brands that want to stay relevant must apply more energy, focus, and resources to creating knock-your-socks-off customer experiences than they ever did before. Companies that embrace a “more is more” philosophy work harder and go further to ensure that their customers have a positive experience: they do this through customer-focused strategies and leadership, via operations, policies, and procedures that consider how the customer will fare in every scenario. Customer experience guru Blake Morgan walks you through the D.O.M.O.R.E. concepts that set businesses up for success by emphasizing the importance of relationships. Companies that do more: Design

something special Offer a strong employee experience Modernize with technology Obsess over the customer Reward responsibility and accountability Embrace disruption and innovation More Is More offers practical advice for building or improving customer experience that you can apply immediately at your own organization. Time is of the essence: your customers are not willing to wait for you to get the customer experience right. Outlining the key areas you need to address immediately, More Is More will help you weather external changes, remain relevant, and thrive in today's ever-changing business landscape.

Transforming from Consumer to Producer in 90 Days Darryl L. Wortham, 2011-08-10 FOREWORD

The core concept is not just saving money, but saving time and energy as well. These savings are multiplied together, giving you more money to invest. To summarize, I created the equation: $\$ET = M2$ to INVEST, in which saving Money, Energy, and Time ($\$ET$) are multiplied to generate (=) More Money ($M2$) to INVEST. This equation is fundamental to your success! You must be prepared to take action to start having enough money to accomplish your goals, to stop living paycheck to paycheck, and to retire early. If you are on course to make the same income as last year or, worse, facing declining take-home pay because of ever-increasing taxes, medical costs and declining economy, don't give up! Saving money, energy, and time will generate more money to invest creating real income and wealth. Transforming you from consumer to producer! You must expand yourself personally as well as enhance your inner and micro economics. Rather than growing a mega-company's revenue or the financial fortitude of millionaires pockets, you are going to grow your own individual savings account, retirement plan, and children's

college funds. This book is a guide to help you create a path and roadmap to a life of saving money, reducing debt, living efficiently, and creating wealth by investing within a reasonable timeframe.

Together we will examine four major building blocks that inspire and accelerate behavioral changes:

1.Why and how to change your behavior and lifestyle. 2.How to save money, energy, and time. 3.How to invest your money, energy, and time savings to improve your present situation and build for the future. 4.How to create and implement a transformation plan. Progressive ideas and hilarious cheap strategies are also detailed. These are necessary to exceed your personal and financial goals. I want you to be thrilled about life, saving money for a brighter future, and early retirement, while having fun at the same time.

Heart, Smarts, Guts, and Luck Anthony K. Tjan,Richard J. Harrington,Tsun-Yan Hsieh,2012 Examines the traits that define most people who achieve success, heart, smarts, guts, and luck, and helps readers to determine which traits they possess.

Studio Anywhere 2: Hard Light Nick Fancher,2017-01-20 In *Studio Anywhere 2: Hard Light*, photographer and author Nick Fancher builds on the success of his previous book (*Studio Anywhere: A Photographer's Guide to Shooting in Unconventional Locations*) as he continues to offer candid, practical, and valuable lessons on how to create successful and fresh photographs armed with only minimal gear, a resourceful mind, and a creative spirit. The heart and soul of *Studio Anywhere 2: Hard Light* resemble its predecessor, but this time Nick focuses his approach on hard light, demonstrating how to use it in innovative and flattering ways, working with subjects ranging from products to people. You'll learn: • How to work with both available light (e.g., the sun) and manufactured light (such as inexpensive small

flash) • How to shape, bounce, and manipulate your unmodified flash to get the results you want • The importance of proper light placement and ambient balance • How to create dramatic, intentional photographs with hard light • DIY techniques for making your own gobos and photo hacks (such as with a reflector) • How to incorporate colored gels into your work to create expressive and innovative imagery • Post-processing tricks and techniques that Nick uses to achieve the final look of the image Included in the book are behind-the-scenes photos, lighting diagrams, and Lightroom settings for every scenario, so the reader can follow along from idea through the shoot and on to the final edit. There is also a feature throughout the book called “Making a Scene” where, upon being presented with an “empty” scene, you’re challenged to figure out where you might place your subject and your light(s) in order to achieve a specific effect or result. At the back of the book, Nick shows you how he chose to tackle each scenario. The goal is to train yourself to look at the everyday, commonplace locations and scenarios you encounter and begin to see them full of photographic potential.

Black Ops Advertising Mara Einstein, 2016-09-01 From Facebook to Talking Points Memo to the New York Times, often what looks like fact-based journalism is not. It’s advertising. Not only are ads indistinguishable from reporting, the Internet we rely on for news, opinions and even impartial sales content is now the ultimate corporate tool. Reader beware: content without a corporate sponsor lurking behind it is rare indeed. *Black Ops Advertising* dissects this rapid rise of “sponsored content,” a strategy whereby advertisers have become publishers and publishers create advertising—all under the guise of unbiased information. Covert selling, mostly in the form of native advertising and content marketing, has so blurred the lines between editorial content and marketing message that it is next to impossible to tell real news from paid endorsements. In the 21st century, instead of telling us to buy, buy, BUY, marketers “engage” with us so that we share, share, SHARE—the ultimate subtle sell. Why should this concern us? Because personal data, personal relationships, and our very identities are being repackaged in pursuit of corporate profits. Because tracking and manipulation of data make “likes” and tweets and followers the currency of importance, rather than scientific achievement or artistic talent or information the electorate needs to fully function in a democracy. And because we are being manipulated to spend time with technology, to interact with “friends,” to always be on, even when it is to our physical and mental detriment.

Electronic Commerce 2018 Efraim Turban, Jon Outland, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C. Turban, 2017-10-12 This new Edition of *Electronic Commerce* is a complete update of the

leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook , LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.

Hartes Blitzlicht Nick Fancher, 2017-06-26 Nick Fancher ist bekannt für seine mit viel Kreativität und wenig Budget umgesetzten Lichtsettings. Der Praktiker und Querdenker zeigt Ihnen in diesem Buch, wie er an verschiedensten Orten mit direktem, hartem Licht aus Aufsteckblitzen einzigartige Looks fotografiert. Sie lernen, hartes Licht zu sehen, zu formen und zu lenken – oft mit unkonventionellen und

selbstgebauten Lösungen, die zu faszinierenden Ergebnissen führen. Fanchers Credo: nicht die Hardware, sondern Ihre Kreativität im Umgang mit den Gegebenheiten und Beschränkungen eines Sets ist der Schlüssel zu aufregenden Fotos mit hartem Licht. Unter anderem lernen Sie mit diesem Buch: - wie Sie drinnen und draußen mit dem Umgebungslicht arbeiten – oder dagegen - wie Sie das Licht Ihres Blitzes nach Ihren Wünschen formen, reflektieren oder anderweitig verändern - wie Sie mit dem gezielten Einsatz von hartem Licht dramatische Fotos machen - wie Sie Sonnenlicht simulieren und mit Schatten malen - wie Sie Ihren eigenen Gobo, Reflektor oder Snoot bauen und einsetzen - wie Sie in den Augen Ihrer Models Catchlights mit beliebigen Formen erzeugen - wie Sie Filterfolien (Gels) einsetzen, um farbige Schatten zu werfen - welche Nachbearbeitungstechniken und -Tricks Fancher einsetzt, um zu seinen finalen Bildern zu kommen Setbilder, detaillierte Lichtaufbauskizzen und kleine Übungsaufgaben helfen Ihnen, das Gelesene in eigenen Projekten anzuwenden.

Реклама под прикрытием: Нативная реклама, контент-маркетинг и тайный мир продвижения в интернете М.Эйнштейн, 2017-04-19 Забудьте о рекламных роликах, печатной рекламе и баннерах на сайтах — потребитель прекрасно научился их избегать: он переключает канал, у него есть блокировщик рекламы в браузере. Однако пользователи интернетом охотно делятся с друзьями интересной статьей или видео, невольно превращаясь в посланников бренда. Поэтому задача рекламы не в том, чтобы продать товар, а в том, чтобы заставить поделиться контентом. Теперь рекламу предлагают потребителю на основе данных, которые он сам оставляет о себе в сети. Аудитория интернета стремительно растет (в России уже больше 80 млн человек), за год в Google отправляют больше 1 трлн поисковых запросов, а в Facebook каждую минуту выкладывают 200 000 фотографий. Все это означает, что простая реклама больше не работает, настало время маркетинга впечатлений, нативной рекламы и контент-маркетинга. Профессор медиаведения Мара Эйнштейн не одно десятилетие проработала в рекламных агентствах. В своей книге она рассказывает о том, как создают «рекламу под прикрытием» — захватывающий контент, в котором невозможно распознать маркетинговую подоплеку. Здесь вы найдете и внятные теоретические основы, и успешные кейсы, уже ставшие классикой нативной рекламы.

The Devil's Playbook Lauren Etter, 2021-05-25 NEW YORK TIMES EDITORS' CHOICE • Big Tobacco meets Silicon Valley in this “deeply reported and illuminating” (The New York Times Book Review) corporate exposé of what happened when two of the most notorious industries collided—and the vaping epidemic was born. “The best business book I’ve read since *Bad Blood*.”—Jonathan Eig, New York Times bestselling author of *Ali: A Life* Howard Willard lusted after Juul. As the CEO of tobacco giant Philip Morris’s parent company and a veteran of the industry’s long fight to avoid being regulated out of existence, he grew obsessed with a prize he believed could save his company—the e-cigarette, a product with all the addictive upside of the original without the same apparent health risks and bad press. Meanwhile, in Silicon Valley, Adam Bowen and James Monsees began working on a device that was meant to save lives and destroy Big Tobacco, but they ended up baking the industry’s DNA into their invention’s science and marketing. Ultimately, Juul’s e-cigarette was so effective and so market-dominating that it put the company on a collision course with Philip Morris and sparked one of the most explosive public health crises in recent memory. In a deeply reported account, award-winning journalist Lauren Etter tells a riveting story of greed and deception in one of the biggest botched deals in business history. Etter shows how Philip Morris’s struggle to innovate left Willard desperate to acquire Juul, even as his own team sounded alarms about the startup’s reliance on underage customers. And she shows how Juul’s

executives negotiated a lavish deal that let them pocket the lion's share of Philip Morris's \$12.8 billion investment while government regulators and furious parents mounted a campaign to hold the company's feet to the fire. The Devil's Playbook is the inside story of how Juul's embodiment of Silicon Valley's "move fast and break things" ethos wrought havoc on American health, and how a beleaguered tobacco company was seduced by the promise of a new generation of addicted customers. With both companies' eyes on the financial prize, neither anticipated the sudden outbreak of vaping-linked deaths that would terrorize a nation, crater Juul's value, end Willard's career, and show the costs in human life of the rush to riches—while Juul's founders, board members, and employees walked away with a windfall.

Mobile Influence Chuck Martin, 2013-06-11 The explosion of mobile access across the globe has shaken the foundations of the traditional sales funnel, and businesses are scrambling to adapt and find new ways to tap into the market. For all their effort, many have failed to realize that the issue is not how to reach the customer where they are, but where they are going and their mindset at the moment. With the staggering growth in the use of mobile technology as both product research and purchase point, businesses have yet to fully understand the important role mobile devices play in the basic structure of the traditional shopping model and the new importance on linking behavior with location. With the death of the traditional sales funnel comes author Chuck Martin's new model, the Mobile Shopping Life Cycle. Based on the author's in-depth research, Martin has identified the six specific moments in the timeline of the sale which marketers must target effectively in order to reach the mobile buyer. From location-based marketing to mobile payment systems, Martin's model gives marketers access to the tools necessary to build

a new sales framework that properly addresses the future of the market.
