A Stone for a Pillow Madeleine L'Engle, 2017-05-23
Book #2 of The Genesis Trilogy. This special reissue of a classic work of spirituality from the author of *A Wrinkle in Time* offers life-transforming insights on the rich heritage of the Bible and shows how the characters of this ancient text are relevant for living the good life now. Includes a new reader's guide. In this book for the curious, spiritual seeker, Madeleine L'Engle offers relevant lessons drawn from the life of Jacob from the Old Testament. Here, the son of Isaac becomes a spiritual companion to L'Engle, equipping her to deal with earthly and psychological struggles. Throughout her journey, L'Engle offers contemporary answers to questions that burden modern day readers and believers. With her customary fearlessness and candor, she broaches such topics as the significance of angels, redemption, sexual identity, forgiveness, and the seemingly constant conflict between good and evil. Madeleine L'Engle possesses the same ambidextrous skill of storytelling as other literary giants, including C. S. Lewis and George MacDonald. Her fictional stories appeal to generations of readers, and are equally embraced in both the secular and religious markets. But, it is her ability in her nonfiction to engage with the historical text of the Bible through a dynamic unpacking of protagonists, antagonists, and matters of faith that establishes the Genesis Trilogy as a highly treasured collection of spiritual writings. *A Stone for a Pillow* acts as a compass for those traveling through the tumultuous landscape of faith in our cynical and divisive modern culture.

The Discovery of the Ark of the Covenant Alan Wilson,Barum Blackett,2007-08-29 British history records that there were tow major migrations form the near east into Britain in antiquity. One was the fleet migration form Syria led by Albyne around 1560 BC, and the other was the second fleet migration from the Trojan Dardanelles areas in Western Turkey led by Brutus around 504 BC. Ancient alphabet inscriptions and other tangible and written records show that the second migration was that of the Ten Tribes of Israel. The same ancient Alphabet is found all the way along the British migration routes form Palestine, to Assyria, through Asia Minor to the Aegean and to Etruscan Italy and Rhaetian Switzerland. In Britain the Ten Tribes

were known as the Khumry. This research began in 1976 some 31 years ago and it has met with nothing but opposition and obstruction. Around 1360 BC Moses has the fabulous box called the Ark of the Covenant made. This holy box was the national talisman of the Hebrew nation. It was revered as the place of the presence of the god Yahweh and the most holy thing belonging to the Hebrew nation. A series of events that included the Ark being seen as an invincible means of military success and in one disaster being captured by the Philistines ended when King David placed the Ark in the care of the family of Obed Edom, and he took the Ark to Jerusalem around 975 BC along with the family of Obed Edom. The next King was Solomon and he built a celebrated temple in Jerusalem to house the Ark, where annually the high priest entered the holy of holies chamber to serve the divine box. Nothing much is said of the Ark until c.790 BC the Judean King Ahaziah attacked the Israelite King Jehoash and was totally defeated. The victorious Jehoash then went to Jerusalem where he took everything from the palace and everything from the temple, and he also took away the family of Obed Edom who are the family mentioned several times in the Bible as guardians of the Ark. Therefore, Jehoash removed the Ark from Jerusalem and took it north to Samaria. Nothing is said in the Biblical record of the Ark being anywhere near Jerusalem after this event in circa 790 BC. In 740-736 BC the Judean King Ahaz paid a huge bribe to the Assyrian Emperor Tiglathpileser III to attack King Pekah of Ten Tribe Israel, and as a result Israel was totally crushed by the Assyrian army. A large number of Israelite nobles and leaders were immediately deported north to areas around Harran from where the patriarch Abraham has begun his migrations. In successive campaigns by the Assyrian emperors Shalmaneser IV,

Sargon II, and Sennacherib great numbers of the Israelite nation were deported north and up into the areas north of Harran. In 702 BC Sennacherib recorded how he deported 200, 120 people in one mass exodus. The Assyrian records unmistakably and persistently call the Ten Tribes as the Khumry, It is a virtual certainty that these deported Ten Tribes took the Ark with them from Israel. Sennacherib was murdered by two of his sons in c. 687 BC and civil war Convulsed the Assyrian Empire and as the heir Esarhaddon fought the murders the massed Ten Tribes took the opportunity to move westwards across both the upper branches of the Y shaped Euphrates river as described in the Book of Esdras II. They moved slowly and unstoppably through Siasia Minor and the Greeks recorded their migration as that of the Kimmerio-Khumry. There is a record of the Khumry having the Ark with them on this journey from north of Assyria through Asia Minor and to the Dardanelles. Finally around 650 BC the nation split into two and one half migrated to Italy whilst the other half remained in the areas around Byzantium until circa 504 BC when they gathered on the island of Lemnos before sailing to Britain in the fleets. An inscribed stone that was found on Lemnos in 1876 and now in the Athens museum that records this gathering and the intent to sail to Britain. Either the Ark was taken to Etrurian Italy in circa 650 BC or it remained near the Dardanelles until around 504 BC before being brought into Britain. The fact is that the Greal or Holy Greal is simply a record, and a comparison would be that the Bible, the Koran, the American Declaration of Independence, or the Two Tablets brought down the mountain by Moses, would all be greals. Britain is the land of the Holy Greal. The search was begun to locate the Ark in Britain and this proved to be relatively straightforward but technically different. The persistent ancient legend in

the area north of Cardiff is that a great chest lies buried and this chest is guarded by two Cigfrangawr - Giant Ravens. It is not difficult to perceive that this great chest is the Ark that has two golden Cherubim- fearsome dragons figures. What emerged was that these had been a direct transfer of culture from Israel to Britain and all across the hills of South Wales there are gigantic mounds, and these huge mounds are named and set out in a pattern to mirror the pattern of the major stars in the heavens. Then there are several ancient tales that tell of the great plants moving on their orbits and being in conjunction with the main stars of the various constellations. The journeys of the planets- seen as moving and not fixed stars- are tracing out routes that can be followed around the Star t Mound Maps on the ground. In short our British ancestors left us clear records of where to go. The Ark is at a place where the giant mound marks the start Regulus in Leo the Lion, the Judean emblem. The ancient place name is The Enclosure of the Ark and the central area is The Place of Worship. The top of the large hillock has clearly been molded by the hand of man, and satellite photography showed spoil heaps tumbling down the slopes form a tunnel excavated horizontally to underground chambers. Five very ancient drainage systems of the type used in antiquity to drain and keeps chambers dry are clearly evident/ Amazingly the Above sea Levels readings of satellite photography proved absolutely that the top 60 feet of this low dome shaped hill is a man-made construction. This is unassailable, incontrovertible, and absolute scientific proof of the highest order. Ground penetrating radar and other methods shows at least two underground chambers, and deep reading g electronic metal detection identifies a large non-ferrous box of around four feet + long and two feet + wide. This is the precise size of the Ark

of the Covenant. An approach has been made to the Welsh National Assembly and hopefully something positive will at last be done to restore Khumric British heritage, cultures, and history.

Building Beloved Community in a Wounded World

Jacob L. Goodson, Brad Elliott Stone, Philip Rudolph Kuehnert, 2022-10-27 Is the beloved community local, national, global, or universal? What kind of love is required for the beloved community? Is such a community only an ideal, or can it be actualized in the here and now? Tracing the phrase beloved community from Josiah Royce through Martin Luther King Jr. to a variety of contemporary usages, Goodson, Kuehnert, and Stone debate answers to the above questions. The authors agree about the importance of beloved community but disagree on the details. These differences come out through arguments over the local vs. the universal, the type of love the beloved community calls for, and what it means to conceptualize community. Ultimately, they argue, the purpose of beloved community involves responding to the cries of the wounded and those who suffer in the wounded world.

The Chintamani Crystal Matrix Johndennis Govert, Hapi Hara, 2021-11-23 • Examines myths of the chintamani from East and West, including from China, India, and South America; in legends of the Holy Grail and Atlantis; and in Nicholas Roerich's real-life quest for Shambhala • Explains the chintamani matrix--the multidimensional field of light, energy, and consciousness that forms networks of gems on the etheric and physical levels • Provides simple and advanced practices with crystal grids and meditation to help you access the chintamani matrix and realize your innermost heart's desires Space, time, intention, matter, and consciousness all entangle in crystals. Nowhere is this more evident than in the ancient gem archetype of the chintamani, the wish-fulfilling jewel known in legends around the world as the stone that grants your heart's desires. As authors Johndennis Govert and Hapi Hara reveal, the chintamani's "tachyolithic" technology of wish-granting and spiritual enlightenment creates a vehicle for positive transformation. They show how the chintamani energy matrix can be accessed using tangible crystals and gemstones, meditation, yoga, and the powerful science of intention. Exploring the many chintamani myths and legends from East and West, the authors explain how there are three types of chintamani: the mythical gemstone; the power crystals of history, such as the Koh-i-Noor diamond; and the multidimensional field of light, energy, and

consciousness that forms a network of all gems in what is known as “the jewel net of Indra” in Hinduism and Buddhism. Activating this crystal energy matrix provides a way to manifest your intentions and help you create the subtle diamond body. The authors detail specific gems and crystal spiritual technology that can affect material reality and trigger profound spiritual growth. They provide a number of simple practices with crystal grids and meditation to help you access the chintamani matrix and become aware of the interconnected jewel net of consciousness. They examine the science of intention, which provides a basis for connecting to gemstones and crystals, and share advanced meditations to realize and activate your innermost heart’s desires.
