Digital Snaps Jonas Larsen, Mette Sandbye, 2020-08-12 Photography as an

everyday practice is once again changing dramatically. At this moment of transition from analogue to digital, Digital Snaps aims to develop a new media ecology that can accommodate these changes to photography 'as we know it'. Expert contributors representing varied disciplines demonstrate how and to what extent the traditional social practices, technologies and images of analogue photography are being transformed with the movement to digital photography. They zoom in on typical, vernacular, everyday practices: the development of the family photo album from a physical object in the living room to a digital practice on the Internet; the use of mobile phones in everyday life; photo communities on the Internet; photo booth photography; studio photography; and fine arts' appropriation of amateur photography. They explore how this media convergence transforms the media ecology - the networks, objects, performances, meanings and circulations - of vernacular photography, as we research it through ordinary people's use of such new cameras and interactive Internet spaces as part of their everyday lives.

Cities and Photography Jane Tormey, 2013-01-17 Photographs display attitudes, agency and vision in the way cities are documented and imagined. Cities and Photography explores the relationship between people and the city, visualized in photographs. It provides a visually focused examination of the city and urbanism for a range of different disciplines: across the social sciences and humanities, photography and fine art. This text offers different perspectives from which to view social, political and cultural ideas about

the city and urbanism, through both verbal discussion and photographic representation. It provides introductions to theoretical conceptions of the city that are useful to photographers addressing urban issues, as well as discussing themes that have preoccupied photographers and informed cultural issues central to a discussion of city. This text interprets the city as a spatial network that we inhabit on different conceptual, psychological and physical levels, and gives emphasis to how people operate within, relate to, and activate the city via construction, habitation and disruption. *Cities and Photography* aims to demonstrate the potential of photography as a contributor to commentary and analytical frameworks: what does photography as a medium provide for a vision of 'city' and what can photographs tell us about cities, histories, attitudes and ideas? This introductory text is richly illustrated with case studies and over 50 photographs, summarizing complex theory and analysis with application to specific examples. Emphasis is given to international, contemporary photographic projects to provide focus for the discussion of theoretical conceptions of the city through the analysis of photographic interpretation and commentary. This text will be of great appeal to those interested in Photography, Urban Studies and Human Geography.

Anime and Manga ,

Women's Manga in Asia and Beyond Fusami Ogi, Rebecca Suter, Kazumi Nagaike, John A. Lent, 2019-03-14 *Women's Manga in Asia and Beyond* offers a

variety of perspectives on women's manga and the nature, scope, and significance of the relationship between women and comics/manga, both globally as well as locally. Based on the activities since 2009 of the Women's MANGA Research Project in Asia (WMRPA), the edited volume elucidates social and historical aspects of the Asian wave of manga from ever-broader perspectives of transnationalization and glocalization. With a specific focus on women's direct roles in manga creation, it illustrates how the globalization of manga has united different cultures and identities, focusing on networks of women creators and readerships. Taking an Asian regional approach combined with investigations of non-Asian cultures which have felt manga's impact, the book details manga's shift to a global medium, developing, uniting, and involving increasing numbers of participants worldwide. Unveiling diverse Asian identities and showing ways to unite them, the contributors to this volume recognize the overlaps and unique trends that emerge as a result.

Nihon Ai Aimee Major Steinberger, 2007 An animator and author on dolls and Japanese popular culture describes her trip to Japan to visit the place where her favorite dolls are made and to see Kyoto and Tokyo, dress up in costumes, eat at theme restaurants, and shop.

Leiji Matsumoto Helen McCarthy, Darren-Jon Ashmore, 2021-01-29 Leiji Matsumoto is one of Japan's most influential myth creators. Yet the huge scope of his work, spanning past, present and future in a constantly

connecting multiverse, is largely unknown outside Japan. Matsumoto was the major creative force on Star Blazers, America's gateway drug for TV anime, and created Captain Harlock, a TV phenomenon in Europe. As well as space operas, he made manga on musicians from Bowie to Tchaikovsky, wrote the manga version of American cowboy show Laramie, and created dozens of girls' comics. He is a respected manga scholar, an expert on Japanese swords, a frustrated engineer and pilot who still wants to be a spaceman in his eighties. This collection of new essays--the first book on Matsumoto in English--covers his seven decades of comic creation, drawing on contemporary scholarship, artistic practice and fan studies to map Matsumoto's vast universe. The contributors--artists, creators, translators and scholars--mirror the range of his work and experience. From the bildungsroman to the importance of textual analysis for costume and performance, from early days in poverty to honors around the world, this volume offers previously unexplored biographical and bibliographic detail from a life story as thrilling as anything he created.

Gender in Japanese Popular Culture Sirpa Salenius, 2023-04-24 This open-access essay collection brings together a range of viewpoints on gender from a diverse group of international scholars based in Finland, Belgium, Japan, Singapore, and Australia. The focus is, in particular, on gender performativity and non-binary or non-normative gender. The essays examine the ways in which gender can be depicted, perceived, and understood in Japanese

popular culture. The work will be of interest to scholars working in gender studies, Asian studies, and popular culture. It will also act as a source text for higher education courses in Asia, Europe, and the United States.

Mechademia 1 Frenchy Lunning, 2006-12-22 After decades in which American popular culture dominated global media and markets, Japanese popular culture—primarily manga and anime, but also toys, card and video games, and fashion—has exploded into a worldwide phenomenon. From Pokémon and the Power Rangers to Paranoia Agent and Princess Mononoke, Japanese popular culture is consumed by an eager and exponentially increasing audience of youths, teenagers, and adults. Mechademia, a new annual edited by Frenchy Lunning, begins an innovative and fresh conversation among scholars, critics, and fans about the complexity of art forms like Superflat, manga, and anime. The inaugural volume, Mechademia 1 engages the rise of Japanese popular culture through game design, fashion, graphic design, commercial packaging, character creation, and fan culture. Promoting dynamic ways of thinking, along with state-of-the-art graphic design and a wealth of images, this cutting-edge work opens new doors between academia and fandom. The premiere issue features the interactive worlds that anime and manga have created, including the origins of cosplay (the manga and anime costume subculture), Superflat, forgotten images from a founding manga artist, video game interactivity, the nature of anime fandom in America, and the globalization of manga.
