Translation in Modern Japan Indra Levy, 2017-07-05 The role of translation in the formation of modern Japanese identities has become one of the most exciting new fields of inquiry in Japanese studies. This book marks the first

attempt to establish the contours of this new field, bringing together seminal works of Japanese scholarship and criticism with cutting-edge English-language scholarship. Collectively, the contributors to this book address two critical questions: 1) how does the conception of modern Japan as a culture of translation affect our understanding of Japanese modernity and its relation to the East/West divide? and 2) how does the example of a distinctly East Asian tradition of translation affect our understanding of translation itself? The chapter engage a wide array of disciplines, perspectives, and topics from politics to culture, the written language to visual culture, scientific discourse to children's literature and the Japanese conception of a national literature. Translation in Modern Japan will be of huge interest to a diverse readership in both Japanese studies and translation studies as well as students and scholars of the theory and practice of Japanese literary translation, traditional and modern Japanese history and culture, and Japanese women's studies.

Translating Modern Japanese Literature Richard Donovan, 2019-09-12 This book presents and comments on four short works of Japanese literature by prominent writers of the early twentieth century, including Natsume Sōseki and Miyazawa Kenji. These are their first-ever published English translations. The book is designed to be used as a textbook for the translation of modern Japanese literature—another first. Each chapter introduces the writer and his work, presents the original Japanese text in its entirety, and encourages students with advanced Japanese to make their own translation of it, before reading the author's translation that follows. The detailed commentary section in each chapter focuses on two stylistic issues that characterise the source text, and how the target text—the translation—has dealt with them, before the chapter concludes with questions for further discussion and analysis.
