Diloggun Tales of the Natural World Ócha'ni Lele,2011-09-21 Sacred myths from Santería centered on nature and the natural world • Includes more than 40 myths, stories, and histories from the Lucumí tradition • Reassembles the oral fragments from the African diaspora into coherent stories • Demonstrates that the African peoples, specifically the Yoruba, had deep philosophies and metaphysics involving nature and the natural world Since ancient times the Yoruba of West Africa created sacred stories--patakís--to make sense of the world around them. Upon arrival in the New World, the Yoruba religion began to incorporate elements from Catholic and Native traditions, evolving into Santería, and new patakís were born, adding to the many chapters already found in the odu of the diloggun--the sacred oral teachings and divination system of the Yoruba, or Lucumí, faith. Comparable to the myths of ancient Greece and Rome and rich with jewels of wisdom like the I Ching, these Santería stories are as vast as the Hindu Vedas and as culturally significant as the parables in the Torah, Talmud, and Christian Bible. Diloggun Tales of the Natural World presents more than 40 patakís that shed light upon the worldview of Santería. Each story in this collection, reassembled from the oral tradition of the African diaspora, is centered on a spiritual principle in nature: the waxing and waning of the moon, solar and lunar eclipses, the phenomenon of shooting stars, the separation of sky and earth, and the origins of the animals and birds who play key roles in Santería symbology. Revealing the metaphysics, theology, and philosophy of the Yoruba people, this volume shows these stories to be as powerful and relevant today as they were to the ancient Yoruba who once safeguarded them.

Jason's Destiny SG Morrison,2010-03-17 Helplessly tied up and leaned against the alley wall eight year old Jason watches as his older brother is syatematically beaten to death and in anguish he cries out for mercy when suddenly something strange and unexplainable happens and young Jason is changed forever and as the alien watches from the shadows he fears what they created today will one day seek his revenge on them all. Jason's Destiny is a story about a journey. The journey of a little boy who at the age of five is forced to flee the only home he ever knew to the streets of Rim Town. There he and Cole, his older brother, would start their new lives. But unknown by them they were marked boys. Little did they suspect that everything they thought they knew was a lie carefully orchestrated by the most powerful beings in the universe, the Ancients. They were so powerful they could destroy planets and stars with the power of their minds. Nothing and no one could stand before them, but something was stirring. Something even they feared and Jason was their only hope. Jason was their creation. It had taken them over three thousand years of trial and error. The genes of the greatest and most powerful Ancients flowed in Jason's veins, but also something else simply referred to as the X-factor. Jason is compelled to seek them out in order to learn the secret of their power and after many failed encounters he finally finds the "one" and now the real journey begins. A journey that will take Jason to the ends of the universe, across dimensions, and through time itself. Along the way he would find friendship and love, but most importantly he would find himself and why that would mean so much to so many.

Eternal Retribution Jason Klimchok,2010-02-20 Having spent years together in the military, a group of men became close friends. Although they have seen the good and the bad throughout their careers, they all share an ideal— in some situations, quick and direct action was necessary. As retirement neared, these men came up with an idea and formulated a plan. Backed with experience and passion, they enthusiastically formed a clandestine organization made to take care of unstable situations before they fell apart. Despite being based in the U.S., they didn't have the sanction or backing of the government and country they are aiming to protect. In the beginning, they used unofficial ties and funding, but they were all aware that such support would not last forever. In a bold move designed to make them independent of outside help, the organization stepped out of the shadows to operate as a legitimate private security company while still secretly maintaining their original organization. Things ran smoothly for a while, but the heads of the corporation knew they needed to plan for the future against the inevitable competition for big contracts. So they put into action a plan with the potential to change the face of war and science—forever. With secret plans and risky moves, the group must be careful in handling their newest

project, or they may lose control of what could be the world’s most dangerous weapons.

Jason Stone (Book 1) the Powers That Be Daniel E Ouellette,2012-02-02 When Jason Stone first looked in the safe deposit box, he had no idea what the three items meant. He had no idea why he was chosen, and he had no idea what was in store for him next. He couldn’t rely on his parents, they’ve been dead for over five years. Would his foster parents be there for him, or would he be on his own again? His boring life as a freshman in high school was about to change. The question he had was would it be for the better or for the worse? Once his summer was over he would know who stood with him and who stood against him. Being fifteen is hard enough, throw in uncertainty, insecurity, and confusion and there is no telling who is going to come out the winner.

The Craving Jason Starr,2012-06-05 A LUST FOR LIFE Manhattan thrives on desire—the longing for a better apartment...a higher-paying job...fame. But there was something “off” about Michael, Charlie, and Ramon, and Simon found himself slowly changing into the kind of man he’d given up trying to be a long time ago—and rediscovering the most primal of hungers. There were nights he made constant love to his wife, nights he roamed the city streets, nights he doesn’t even remember. And it’s one of those blackouts that’s going to come back to haunt him. For Simon isn’t the man he once was. In fact, he’s not really a man at all anymore. He’s a member of the pack. And once you’re in, it’s impossible to get out....

Conqueror of the Sun - 1 - Seed of an Orchid Jason Marcus Torraunt,2019-12-22 Conqueror of the Sun – Book 1 – Seed of an Orchid tells the story of Shawn Arc’s rise to power and formation of the IRF, or International Rebellion for Freedom. Arc’s organization is the catalyst for setting the world on fire and starting World War III. Shawn Arc accomplishes this by playing on other factions’ desires for power and destruction. From using the CIA to cover his tracks from the police and FBI to engineering false flag attacks that cause an all-out war in the Middle East, while Arc in turn continues to build his own secret army. Through all of this, Arc also still finds time to love and meet his future wife. Finally, Arc stages a takeover of a nuclear power plant and seeks to make his own nuclear device. This is the recommended start book for first-time readers of the Conqueror of the Sun series. The Conqueror of the Sun series is a seven-book saga that has been 30 years in the making. The story is about a man named Shawn Arc and his desire for power and control beyond anything achieved in human history so far. The tale takes place in an alternate history that starts in the 1990s and extends far, far into the future. Shawn Arc is willing to do anything to accomplish his goals, whether it be by deception, conspiracy, war, betrayal, or on the backs of millions of dead. At the same time, the story shows that Shawn Arc is also about love, romance, and intimate relationships. Can this man be both monster and human? Or is he merely a larger than normal mirror to reflect the essence of the human condition?
